2026-04 (OFFLINE)

WHO ARE WE

In 2014, we, a group of people who believe in the spirit of exploring, created oraimo

From the very beginning, we wanted to do **SOMETHING DIFFERENT**

something that can change people's life so that they can explore the wonderful world.

To change the world, we decided to start with **SMART ELECTRONICS**

and to **KEEP EXPLORING**.

TIMELINE

2014 THE POWER REVOLUTION BEGINS

We kicked off our journey with a bang, introducing our very first self-engineered power bank, designed to keep the adventurous and tech-savvy generation charged on-the-go.

2015 BREAKING BOUNDARIES WITH SOUND AND POWER

We didn't just stay put; our passion for innovation took us across borders. We launched our high-quality audio, helping music lovers experience superior sound wherever they roamed.

2016 EXPANDING HORIZONS AND SMART INNOVATIONS

Our footprint expanded to 20 more countries, and we didn't stop there. We introduced our smartwatch line, a blend of sleek design and smart technology, crafted for those who love to explore the edges of what's possible.

2017 INNOVATING WITH INSIGHT

In a year dedicated to innovation, oraimo turned inward, sharpening our focus on research and development, and deepening our understanding of local insights. We committed ourselves to the meticulous crafting of technology and accessories that resonate with our customers' needs and aspirations.

2018 UNLEASHING FREEDOM WITH FREEPODS

We took a leap into the true wireless world with our first TWS product, FreePods. Created for the free spirits who want no strings attached.

2019 HARMONIZING BEATS WITH 2BABA

This pivotal year, we welcomed Afrobeat icon 2baba as our first African Ambassador. Collaborating, we fine-tuned audio tech and launched co-branded earbuds for African music. oraimo then expanded into Asia and the Middle East, uniting cultures with music's universal language.

2020 GOING DIGITAL WITH THE ORAIMO E-SHOP

The digital wave welcomed the launch of the oraimo official e-Shop, making it easier for our consumers to access our latest gadgets and gear directly.

2021 INNOVATING WITH "HARMAN" AND EXPANDING OUR WORLD

In 2021, we introduced the "Harman" R&D team and developed HavyBass™ technology to ensure our users felt every pulsating beat and deep bass, bringing them authentic African music experience. At the same year, we ventured into new realms with cleaners and personal care products, ensuring oraimo enhances every aspect of their lifestyle.

2022 PARTNERING WITH BURNA BOY AND LEADING THE MARKET

We turned up the volume by signing the International superstar and multi-Grammy award winner, Burna Boy, as our brand ambassador, collaborating closely to fine-tune our audio products.
While in the same year, our TWS and smartwatches became the top choice in Africa.

2023 A YEAR OF TRIUMPH AND INNOVATION

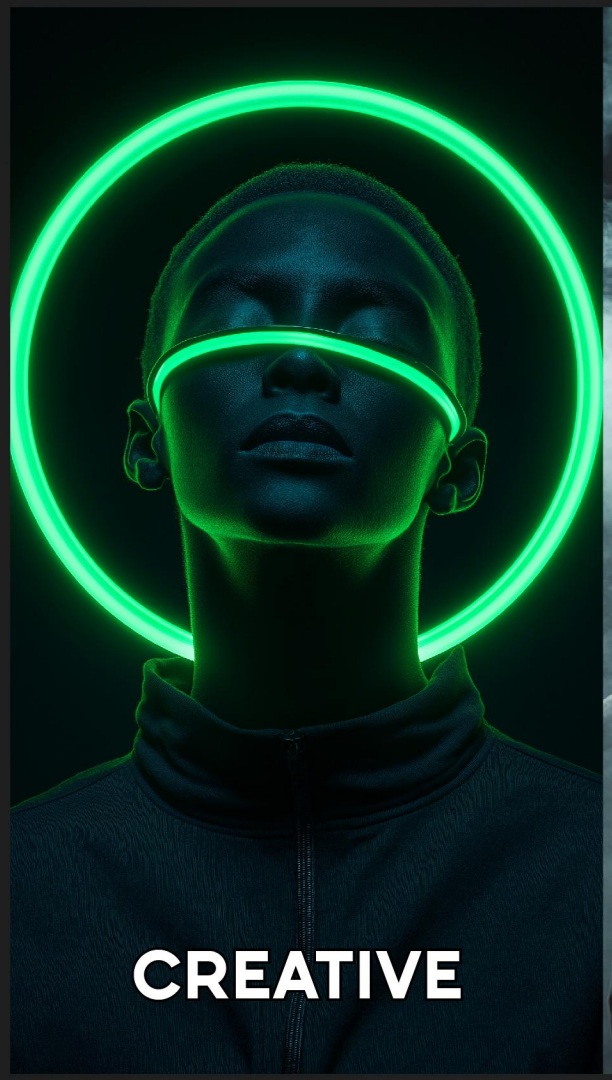
This was a year of celebration as our open audio products received accolades from CNET and Unbox Therapy.

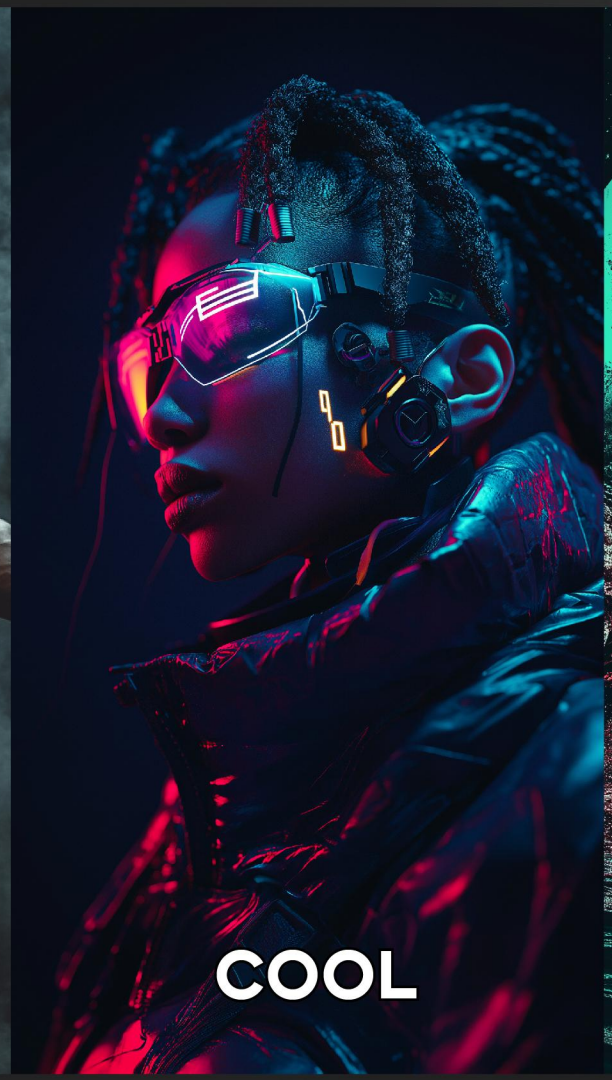
With 10 oraimo products winning Reddot Awards, iF Design Awards, and the German A'Design, we solidified our place as an icon of design and innovation. Meanwhile, we introduced the AniFast™ charging technology—our exclusive smart-charging solution tailored for multi-device users and their fast-paced charging demands.

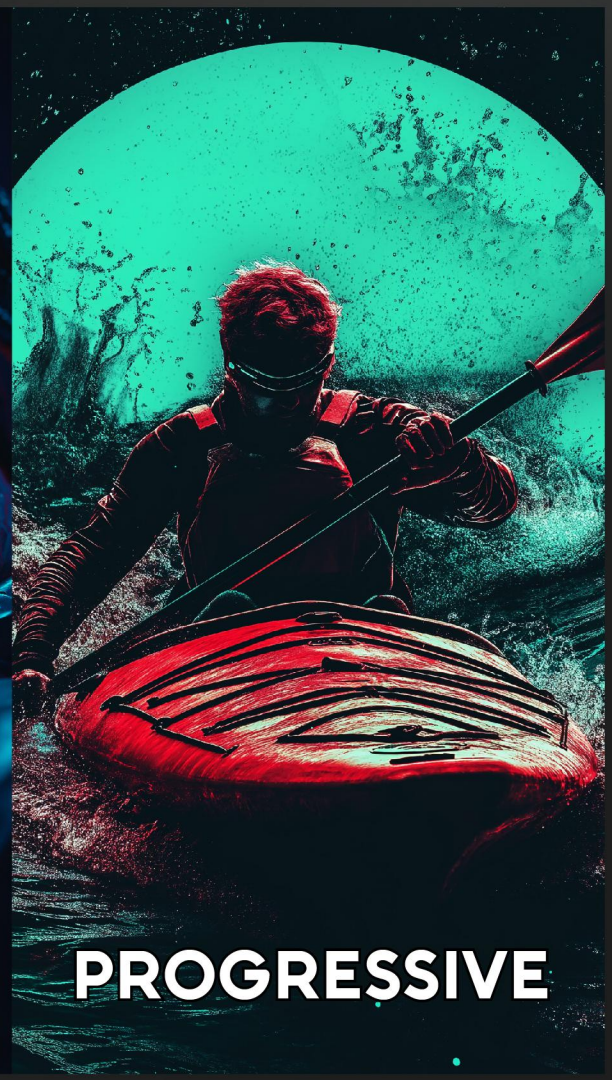
2024 EXPLORING NEW HORIZONS FOR A SMARTER LIFESTYLE

We're expanding our range to include small home appliances designed to elevate our consumers' lifestyle.

With prestigious awards like the USA IDEA Design, German iF Design, and Italian A'Design Awards, we promise quality and excellence in every product.







WE DON'T FOLLOW RULES, WE CREATE THEM

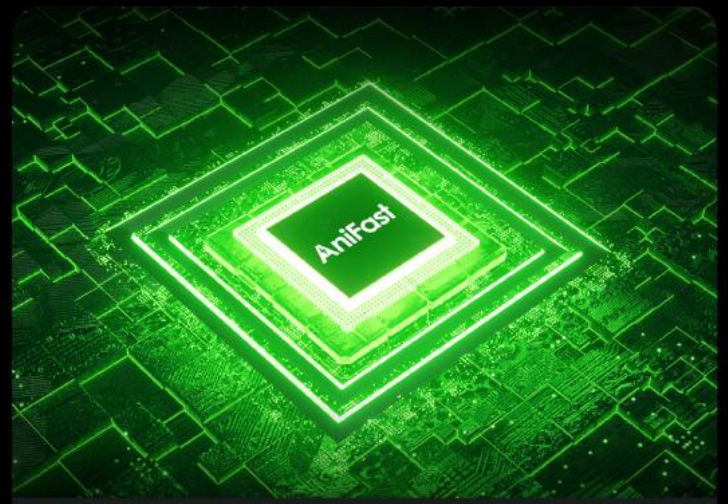
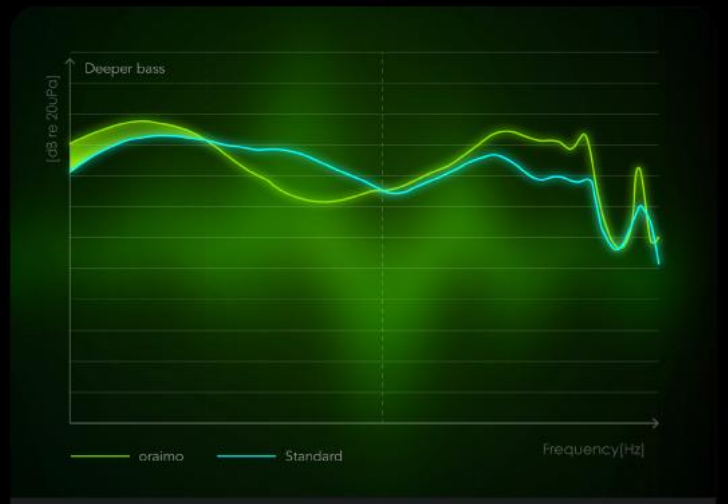
KEEP INNOVATING



AniFast™

oraimo's exclusive smart-charging technology. It intelligently identifies the fast-charging protocol of your mobile to deliver the speediest possible charge.



HavyBass™

oraimo proprietary sound-tuning technology to increase low-frequency for deep and powerful bass in your music.

AniShaVe™

oraimo's proprietary smart cutting system detects hair density and thickness in real time, delivering a consistently smooth and precise shave. Its high-torque motor prevents tugging, ensuring a comfortable experience every time.

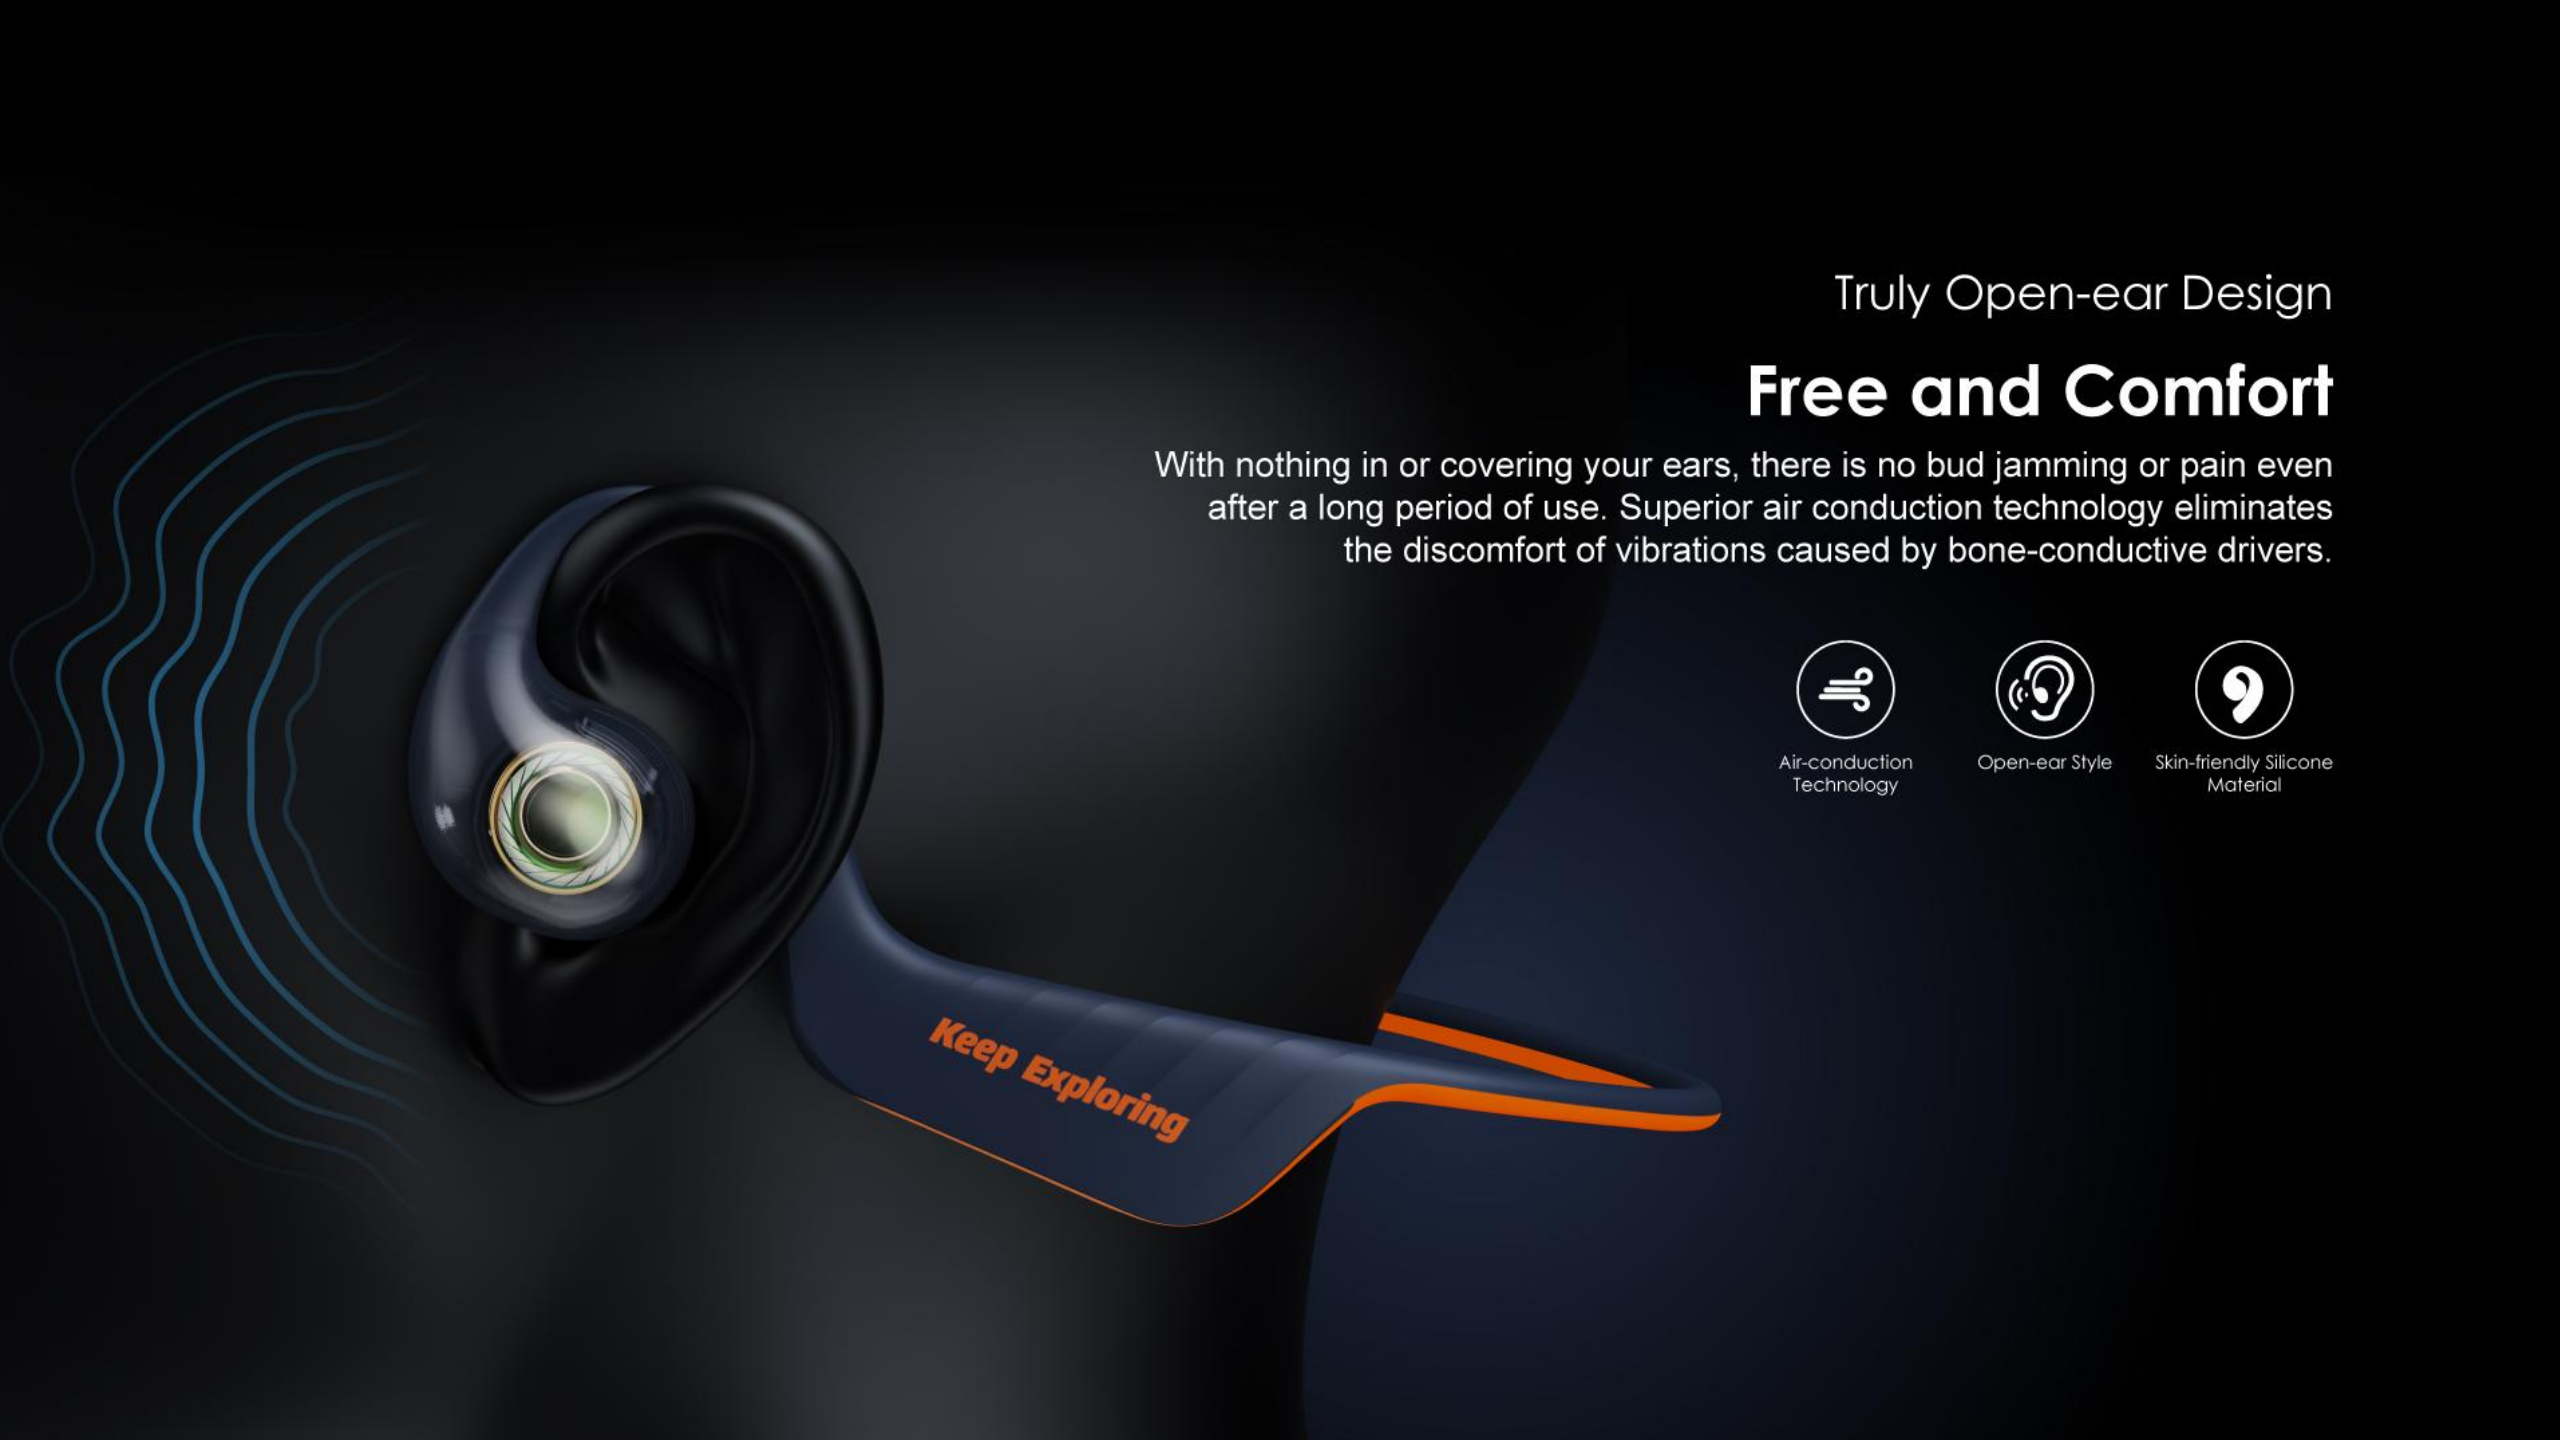
16mm Speakers
& HavyBass™



Truly Open-ear Design

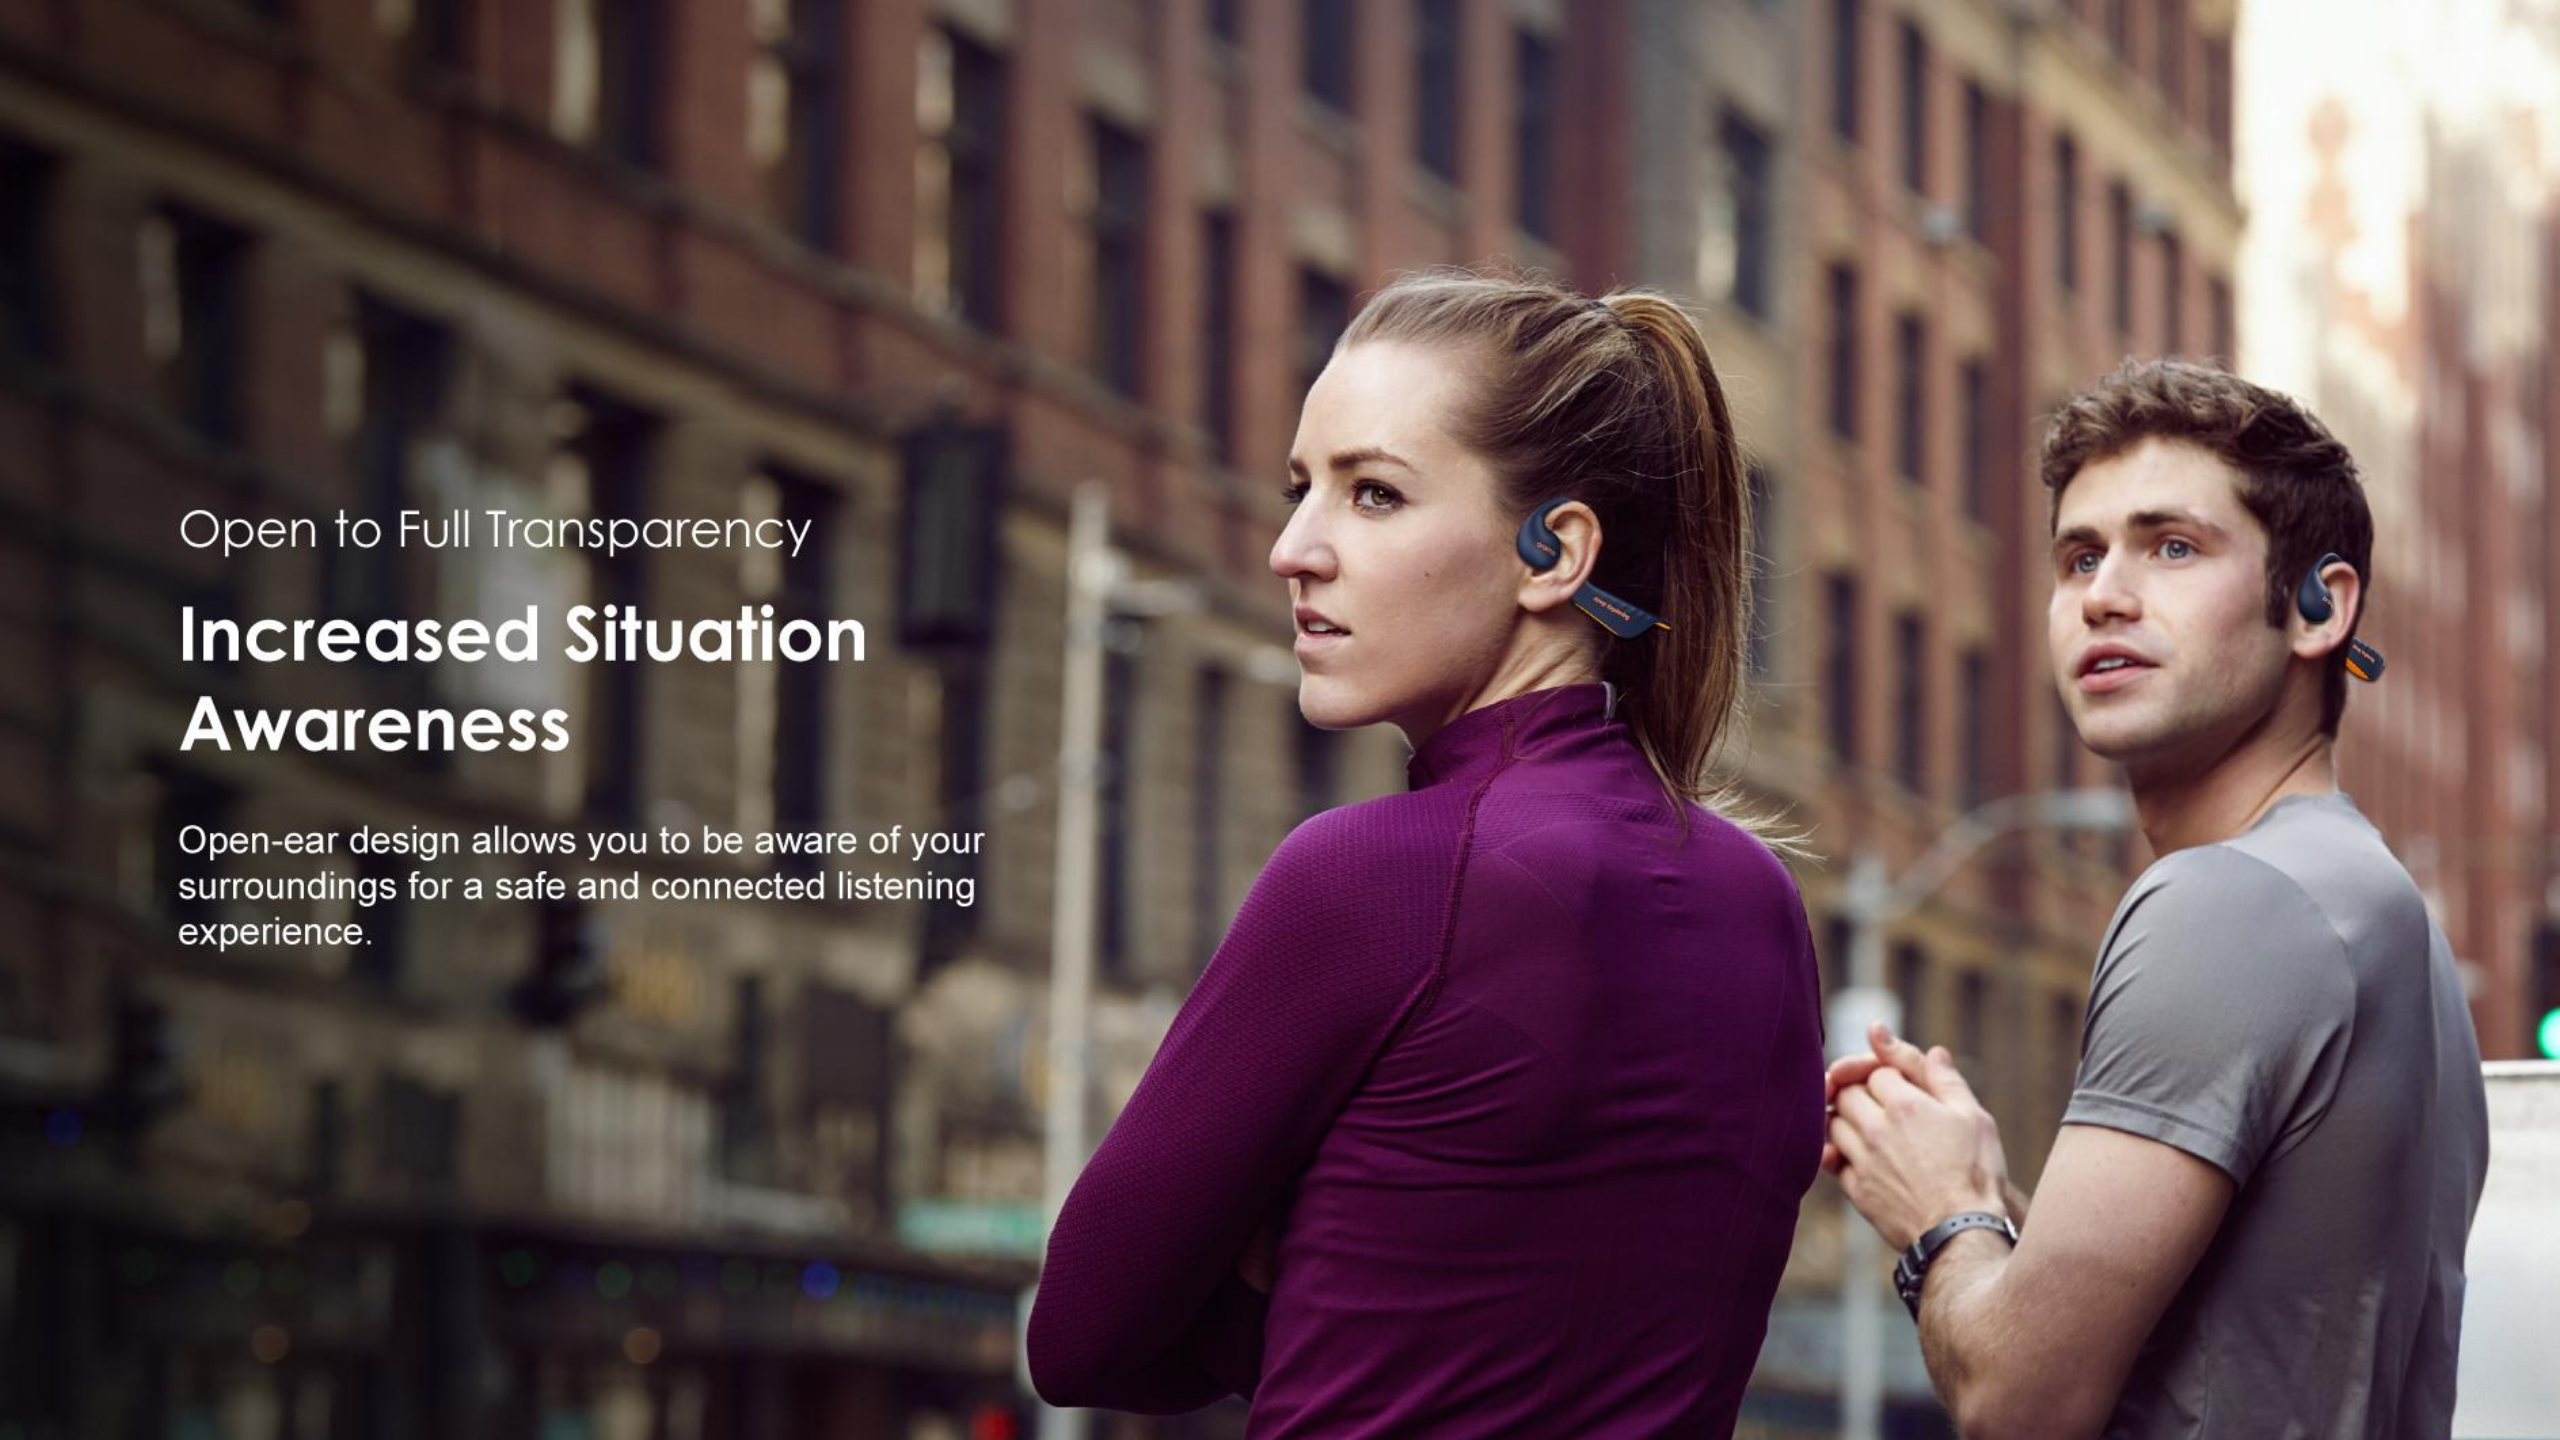
Free and Comfort

With nothing in or covering your ears, there is no bud jamming or pain even after a long period of use. Superior air conduction technology eliminates the discomfort of vibrations caused by bone-conductive drivers.

Air-conduction Technology

Open-ear Style

Skin-friendly Silicone Material



Open to Full Transparency

Increased Situation Awareness

Open-ear design allows you to be aware of your surroundings for a safe and connected listening experience.

Open-ear Design for Health

Healthy and Hygienic

Open-ear design allows free airflow in and out of the ear cups, reducing the pressure applied to your ears by allowing sound waves to escape elsewhere. The open-ear nature, with nothing on or blocking your ear canal, is also better for hygiene.

Ergonomic & Secure Fit

All Day Motivated

Matte finish provides additional grip and reassurance that headphones will stay in place no matter how much you move. OpenCirclet is resistant to twisting even under rugged conditions thanks to its silicone-coated memory wire.

16cm Behind-neck Design

① Liquid Silicone Rubber
② Cable
③ Titanium Memory Wire

HavyBass™ Technology

Redefined Sound

Powered by 16mm large dynamic drivers and advanced air conduction, OpenCirclet delivers high-quality acoustic precision and amazing immersive stereo sound. The HavyBass™ algorithm tunes and boosts the bass, enabling the woofer to be heard clearly at different volumes.

IPX5 Waterproof & Sweat Protection

No Fear, No Stopping

An IPX5 rating makes it sweat and water resistant for worry free workouts in rugged conditions. No fear, no limits, no stopping.

16 Hours Battery Life & Quick Charge

Music That is Always on

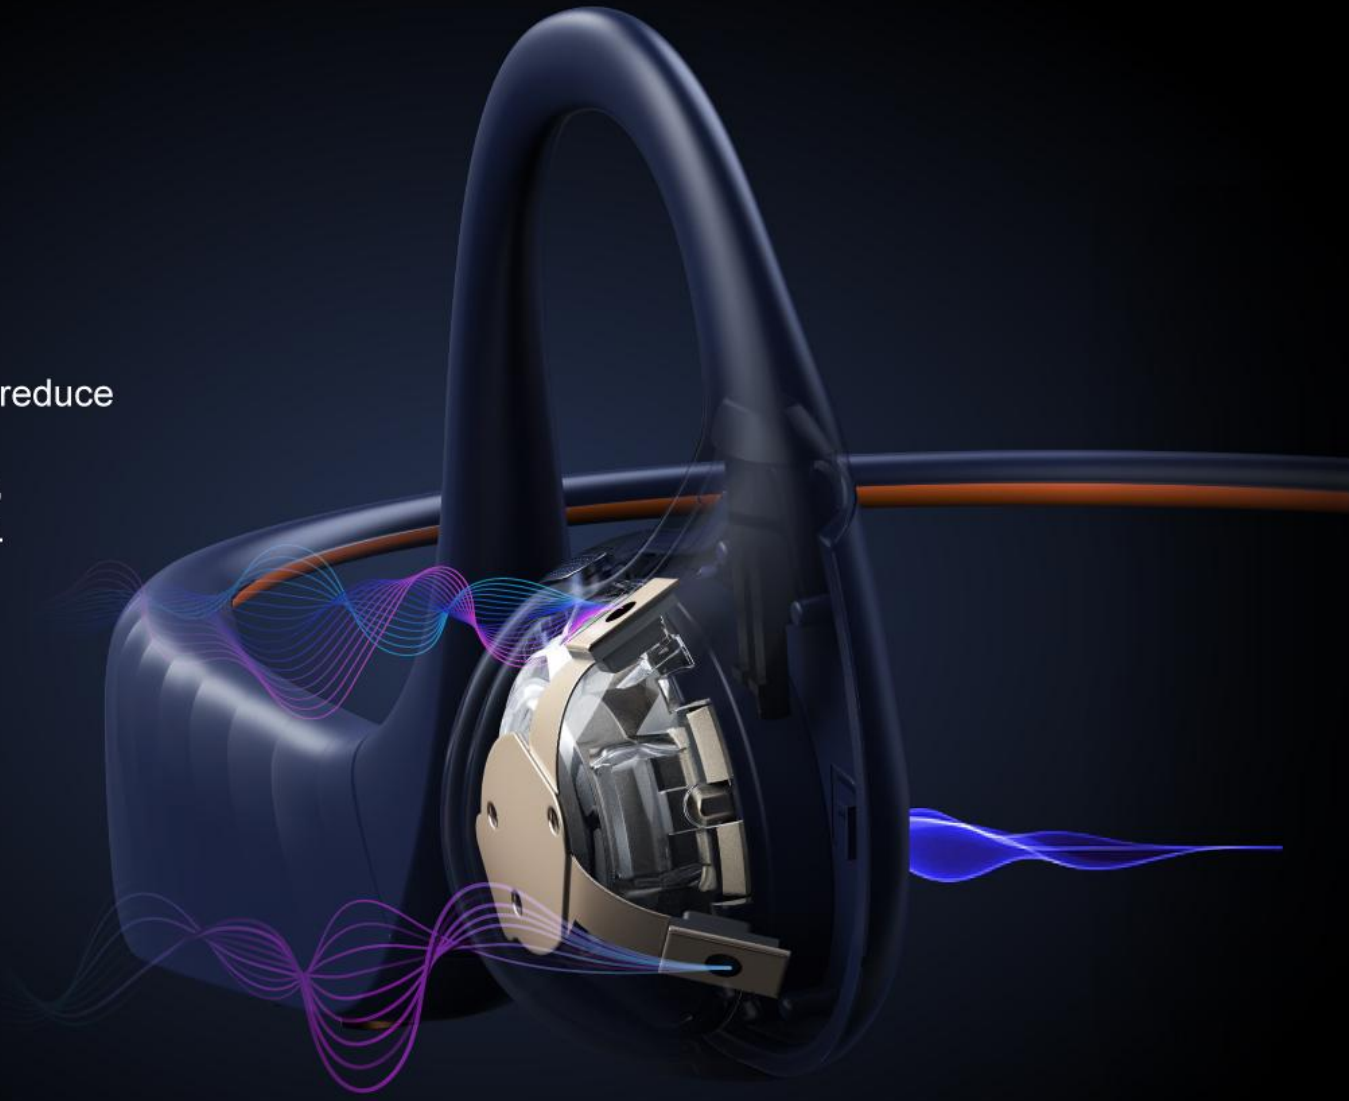
16-hr total playtime provides non-stop music experience. oraimo OpenCircle also features a 10-min Quick Charge for up to 3.5 hours of battery life.

* oraimo Lab test results

2-mic ENC Noise Cancellation

HD Voice in Calls

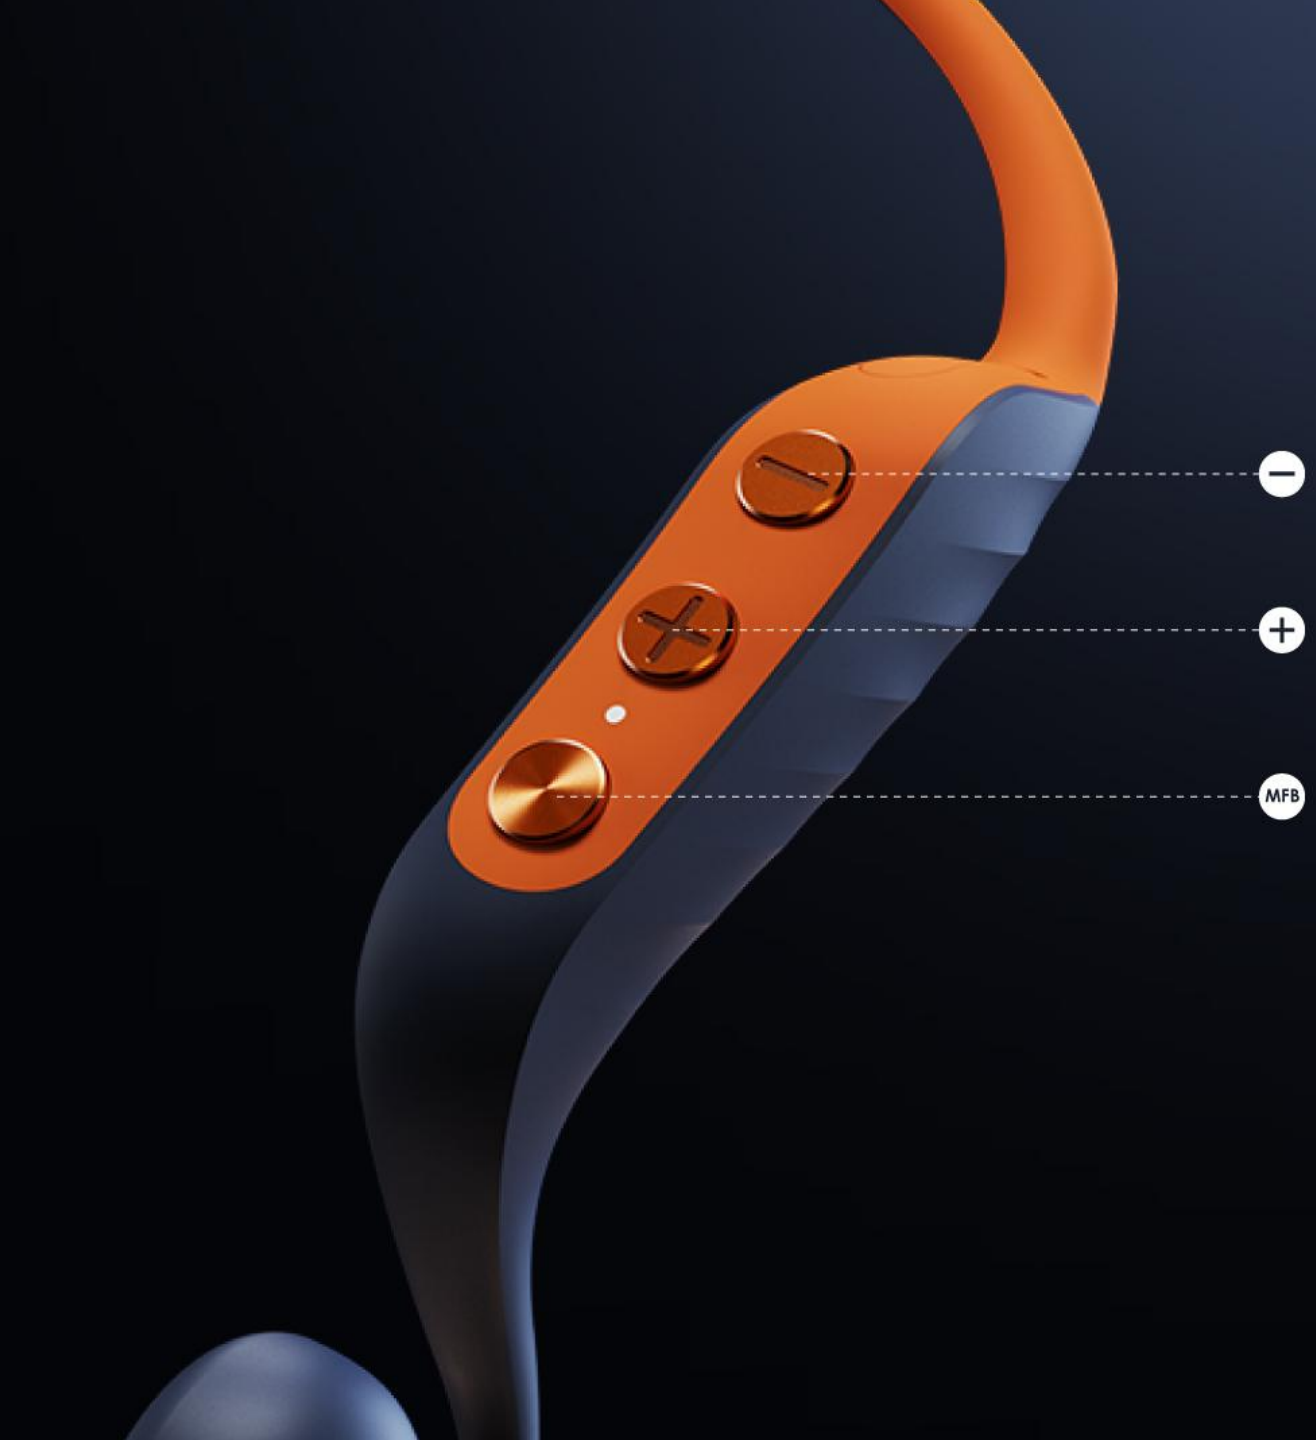
Beamforming array and AI Deep Neural Network algorithm reduce the disruptive noise around the caller. Optimized air duct suppresses wind noise during outdoor workouts. Therefore, the people you are calling can hear your voice more clearly.



Low-latency Game Mode

Audio and Video Sync in Moment

Supported by Bluetooth 5.0 transmission technology, low audio latency creates an enjoyable viewing and gaming experience since the sound is always stable.



On-the-go Controls

Music Control

Pause / play: Press the MFB button
Volume decrease: Press the "-"button
Volume increase: Press the "+"button
Previous song: Long Press the "-"button (1 second)
Next song: Long Press the "+"button (1 second)

Telephone Control

Answer the phone: Press the MFB once
Reject a call: Long Press the MFB (1 second)
Hang up call: Press the MFB once

Low-latency Mode

Switch to low-latency mode: Hold down the MFB for about 1 second

Voice Assistant

Activate voice assistant: Double Press the MFB

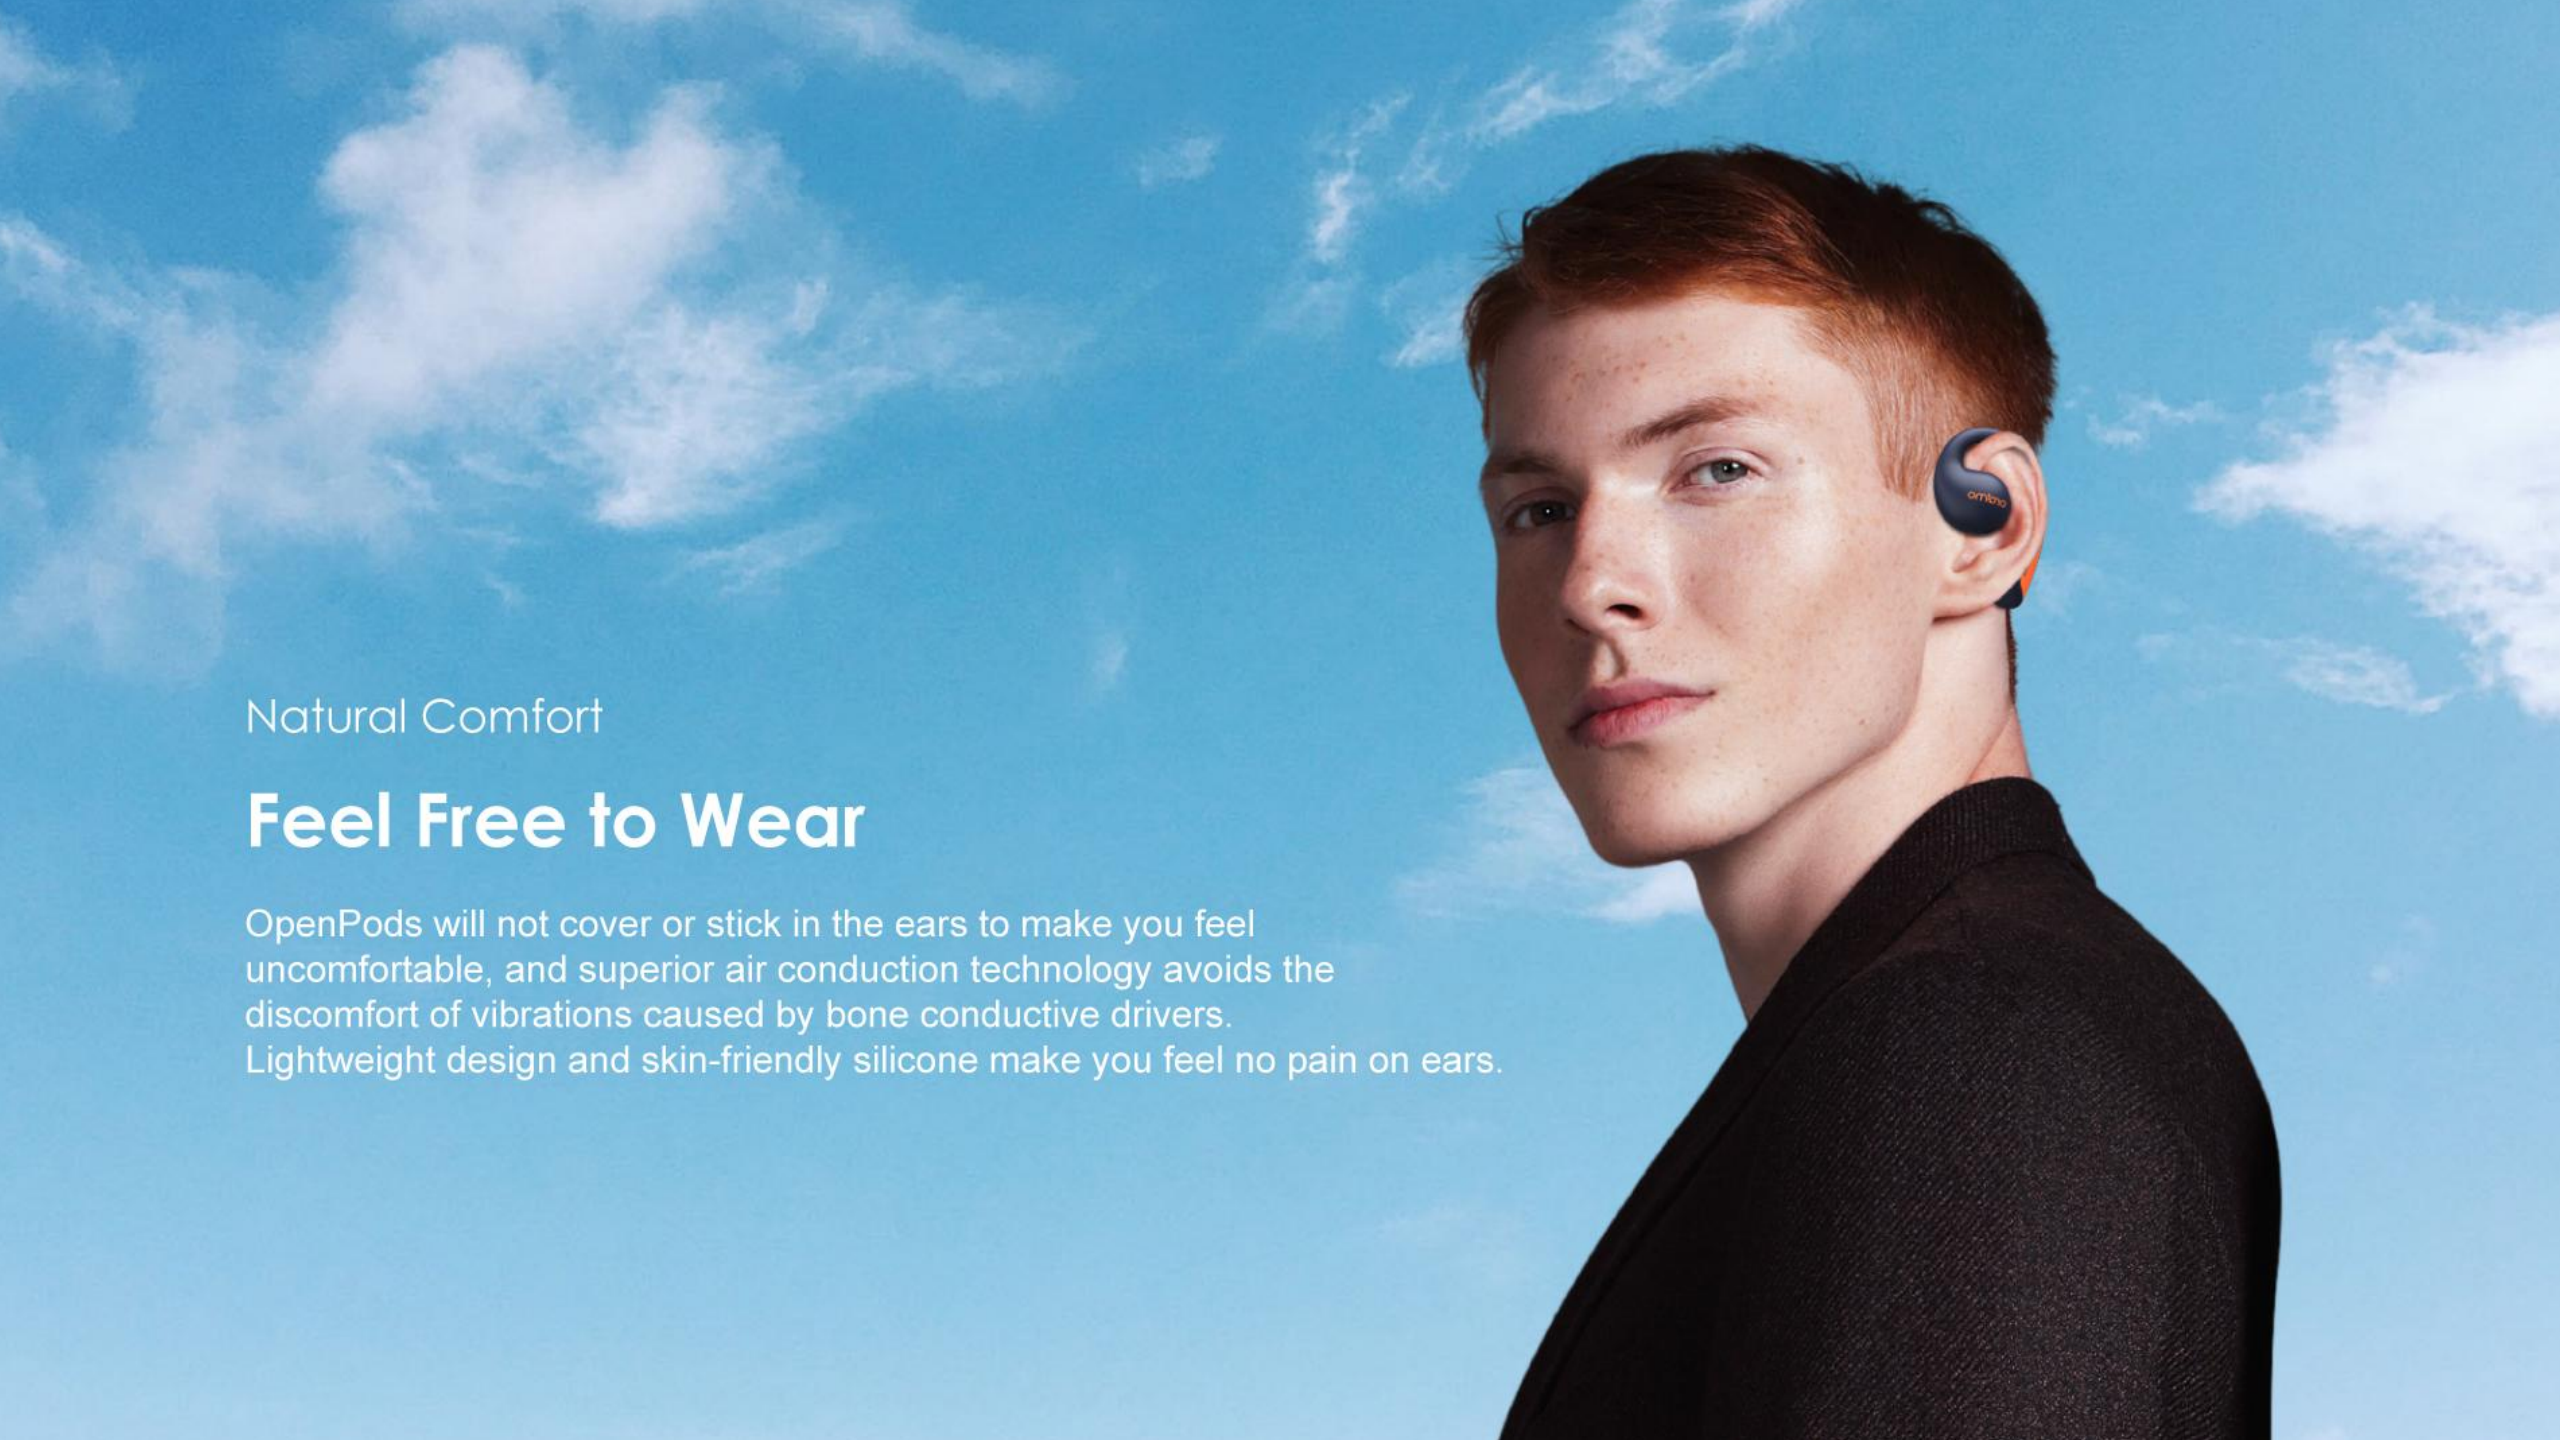
IPX5 Waterproof and Sweat-proof

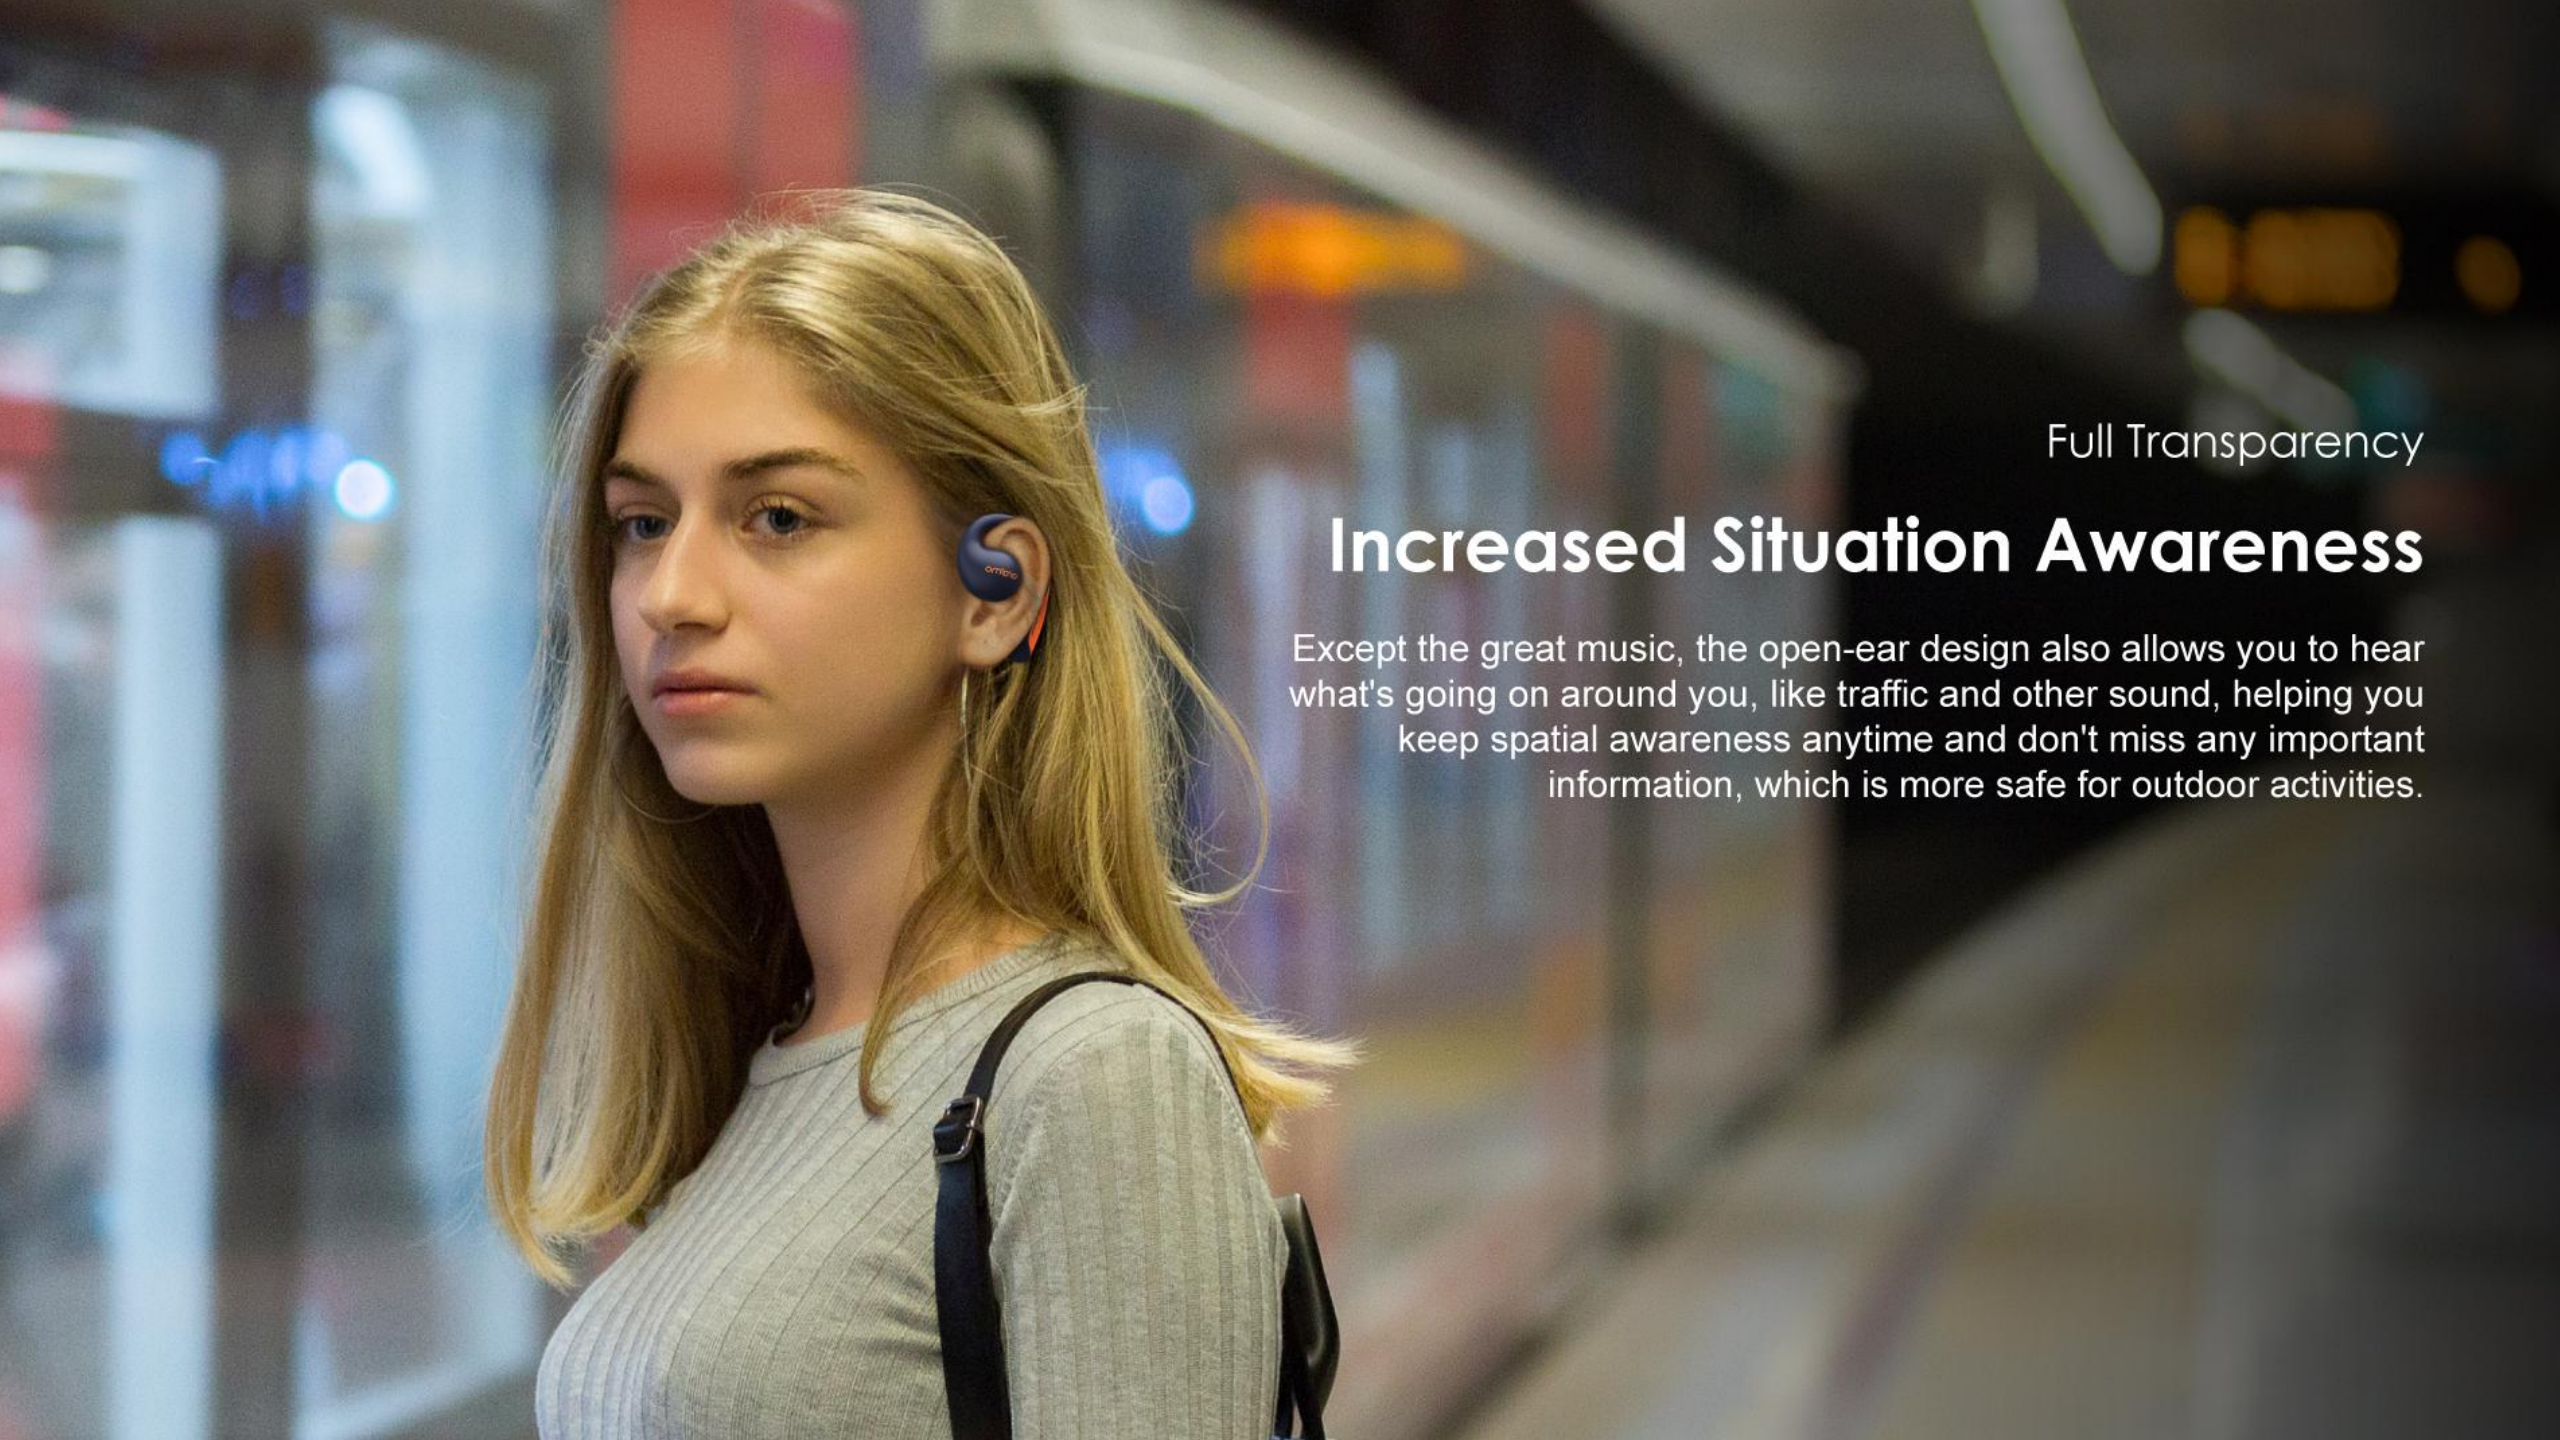
40-Hr Battery Life



Natural Comfort

Feel Free to Wear

OpenPods will not cover or stick in the ears to make you feel uncomfortable, and superior air conduction technology avoids the discomfort of vibrations caused by bone conductive drivers.
Lightweight design and skin-friendly silicone make you feel no pain on ears.



Full Transparency

Increased Situation Awareness

Except the great music, the open-ear design also allows you to hear what's going on around you, like traffic and other sound, helping you keep spatial awareness anytime and don't miss any important information, which is more safe for outdoor activities.

Designed for Healthy Listening

More Healthy, More Hygienic

The drivers sit outside of your ears, which could reduce the damage of eardrum caused by loud volume. Also, it guarantees the air circulation for preventing bacterial growth.

oraimo Exclusive Bass Boost Algorithm

Excellent Sound Quality, Super Deep Bass

Powered by 16mm large dynamic drivers and advanced air conduction, OpenPods delivers high-quality acoustic precision and immersive bass. The HavyBass™ algorithm tunes and boosts the bass, enabling the woofer to be heard clearly at different volumes.

IPX5 Waterproof and Sweat-proof

Not Afraid of Water and Sweat

Featured with IPX5 waterproof and inner sweat-resistant nano-coating, OpenPods is created to withstand the test of time, let music accompanying you through rain and workout time.

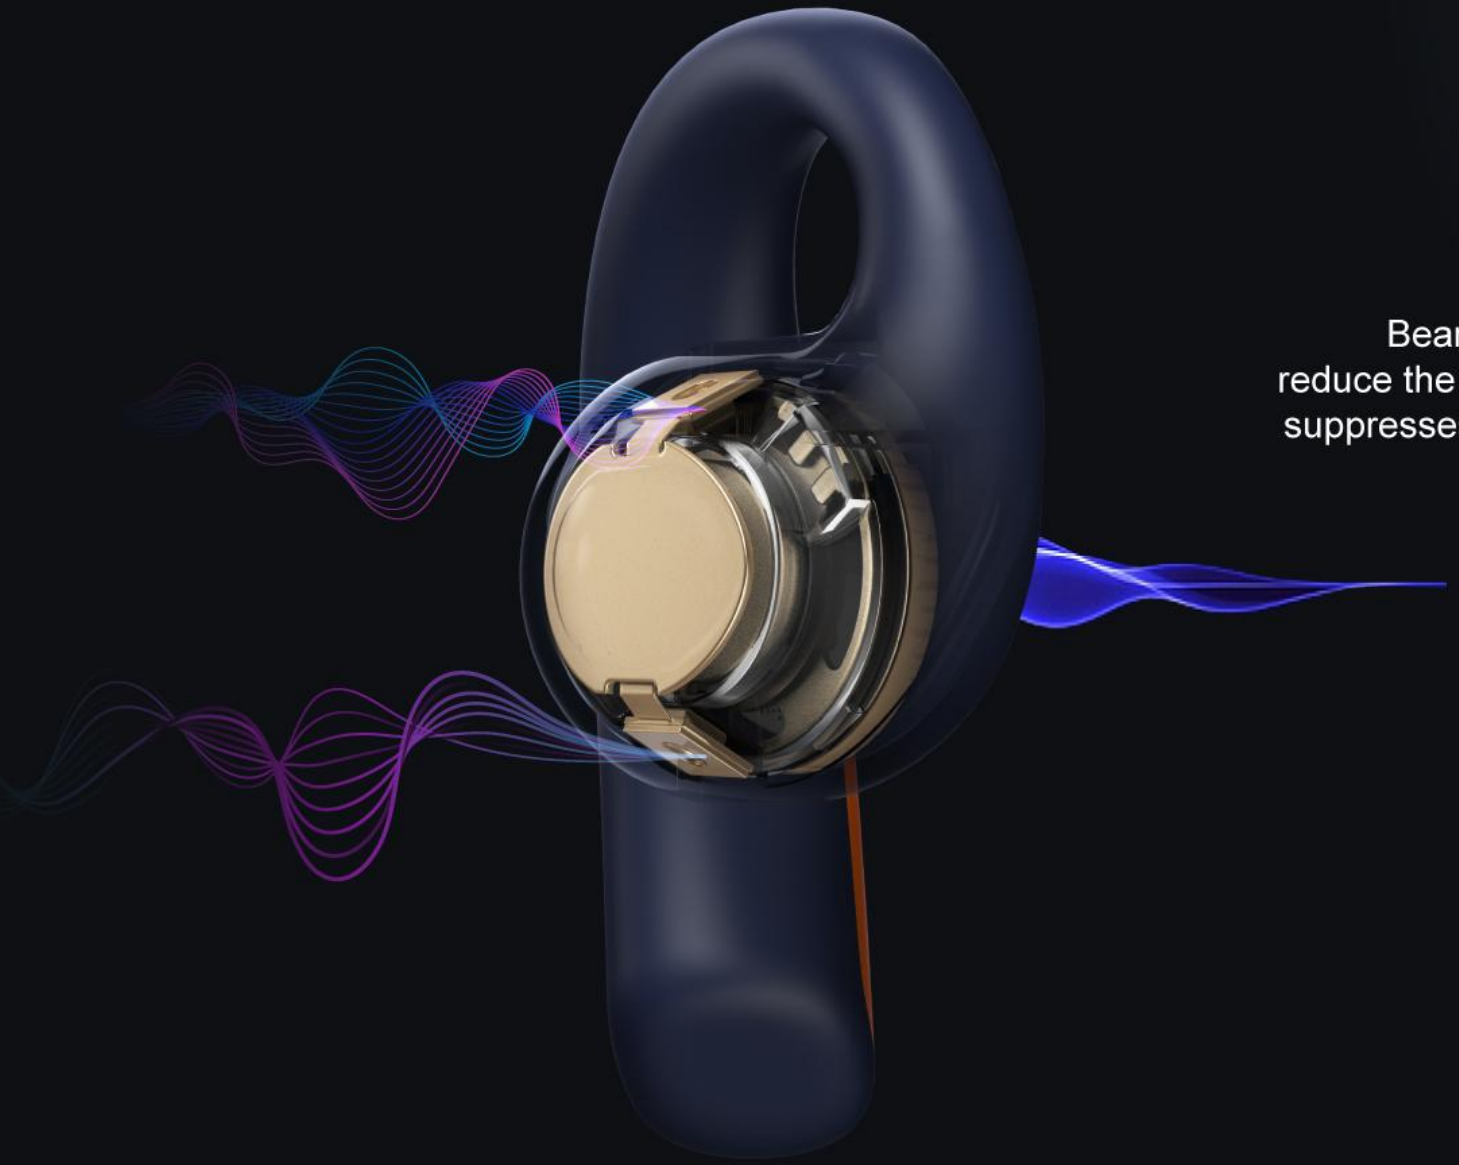
40-Hr Battery Life

Full of Power, Full of Energy

OpenPods can provide you an ultra long playtime. 30-min charging time could provide you 600-min playtime! With the music companion, you will be more enthusiastic about life!

10-hr
Single Playtime

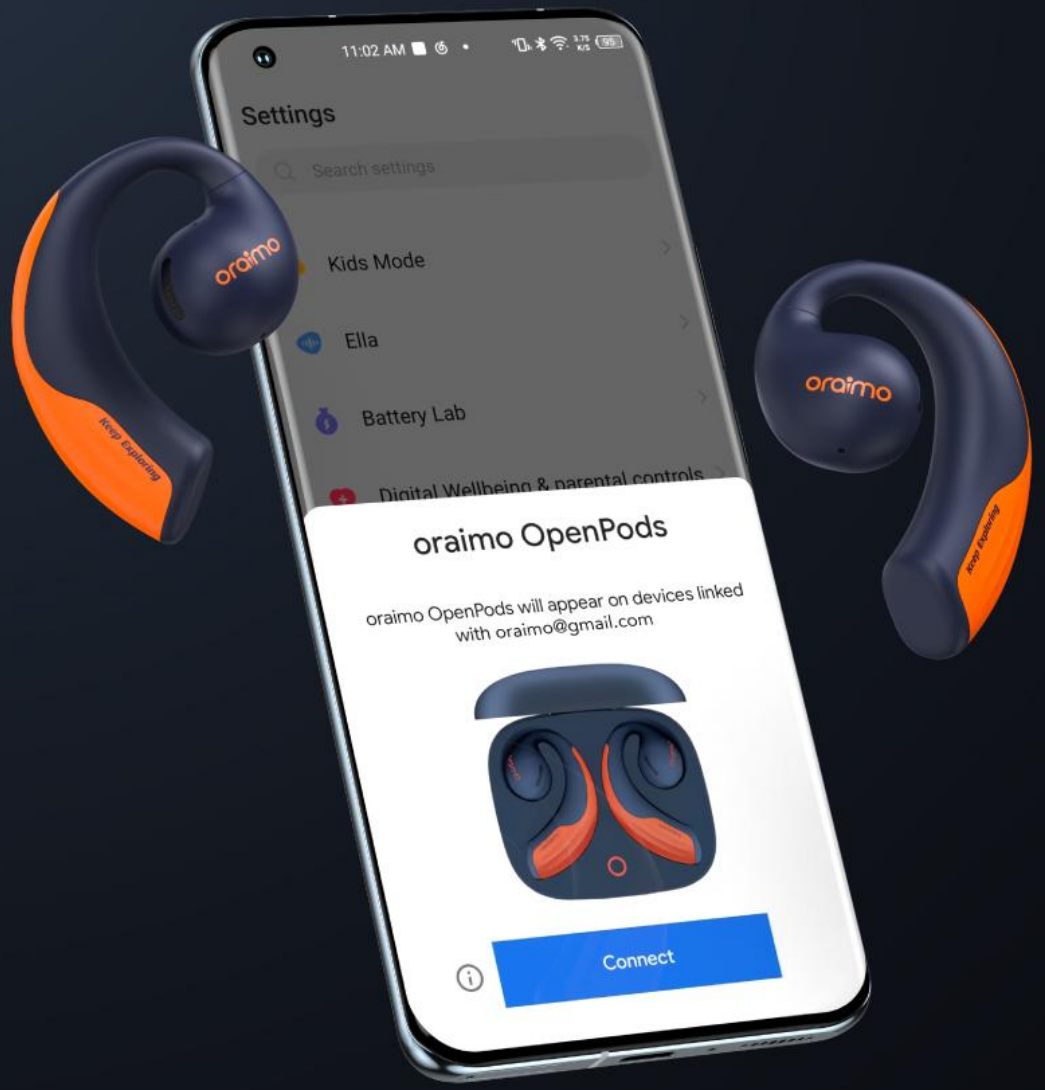
40-hr
in Total with the Case



4-mic Noise Reduction

Crystal Clear Voice

Beamforming array and AI deep neural network algorithm reduce the disruptive noise around the caller. Optimized air duct suppresses wind noise during outdoor activities to make people you are calling hearing your voice more clearly.



Pop-up Notification

Google Fast Pairing

If your device supports Android 6.0 or above and Google Play services, when you open the case, the Google Quick Pairing page will appear on your device screen, allowing you to easily pair the OpenPods and your device.

Find Your OpenPods

Convenient and Reassured

If you forget where the earbuds are, after pairing your earbuds and your mobile device, you can enter the Bluetooth setting and find "oraimo OpenPods setting", then click "find device" to begin the search. Tap "ring left/ring right", the corresponding earbud will start beeping.

*Before starting to find your OpenPods, please ensure the earbud has battery, your mobile device supports Android 6.0 or above and Google play services.

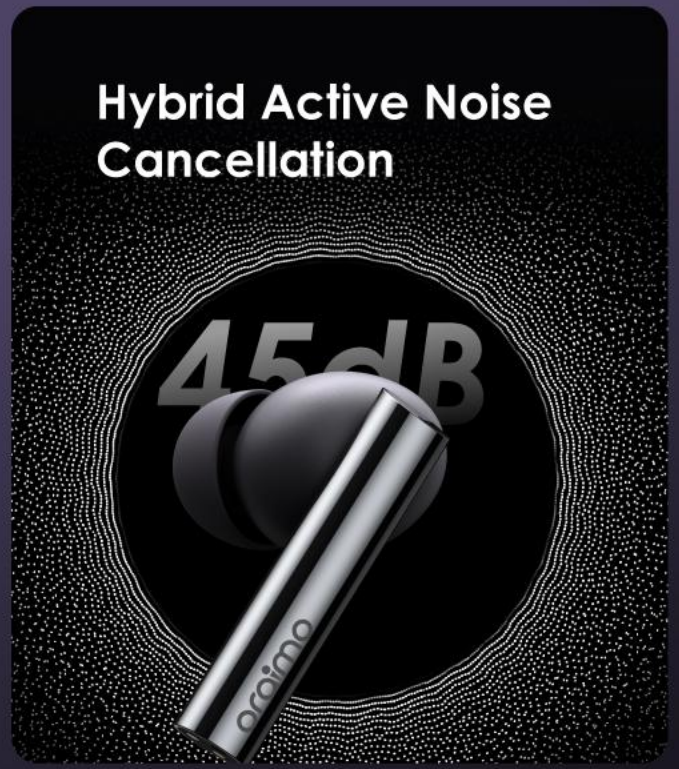
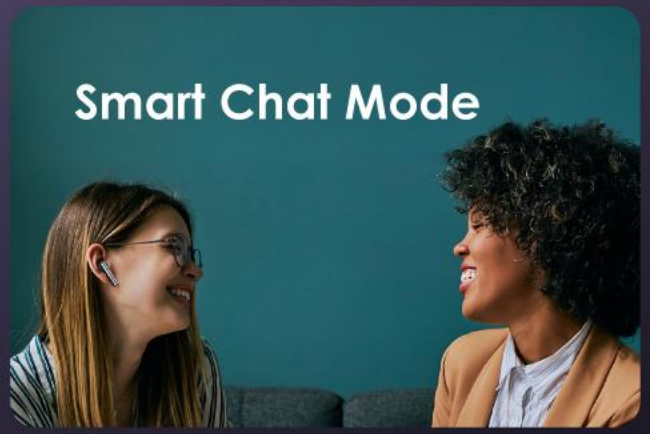
Hybrid Active Noise Cancellation

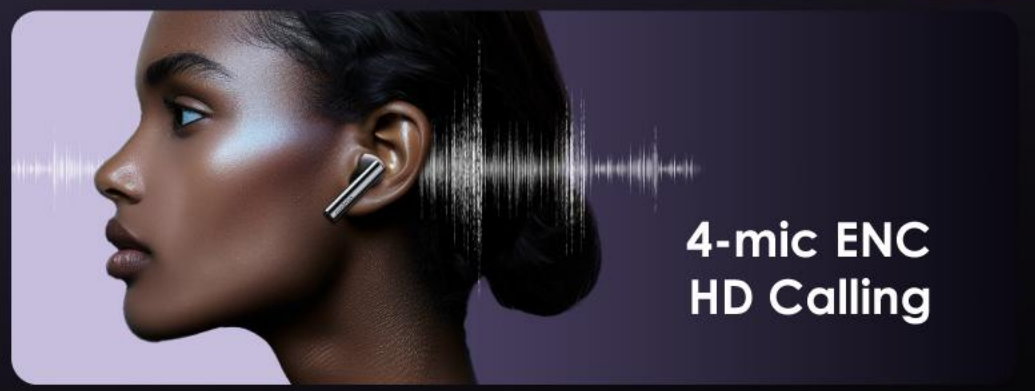


Smart Chat Mode



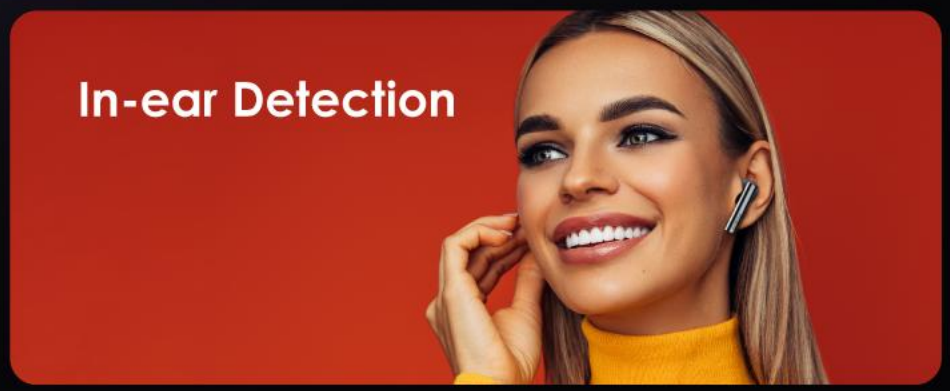
Wide Area Tap

Dual Device Connection



4-mic ENC HD Calling

In-ear Detection



45dB Hybrid Active Noise Cancellation

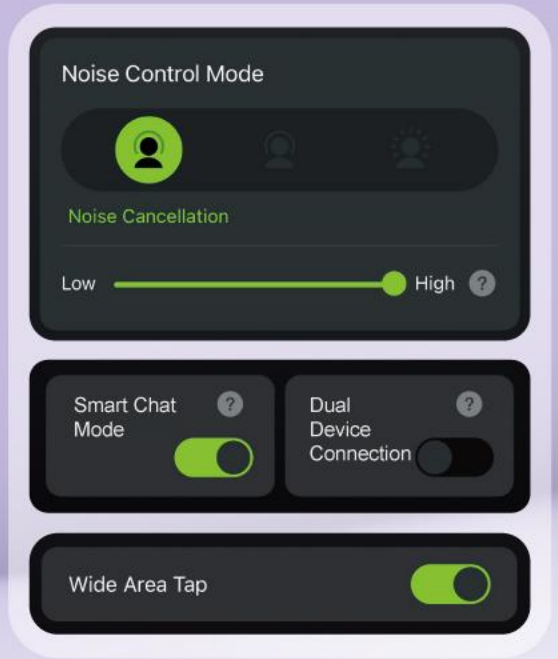
Pure Tranquility, Pleasant Listening

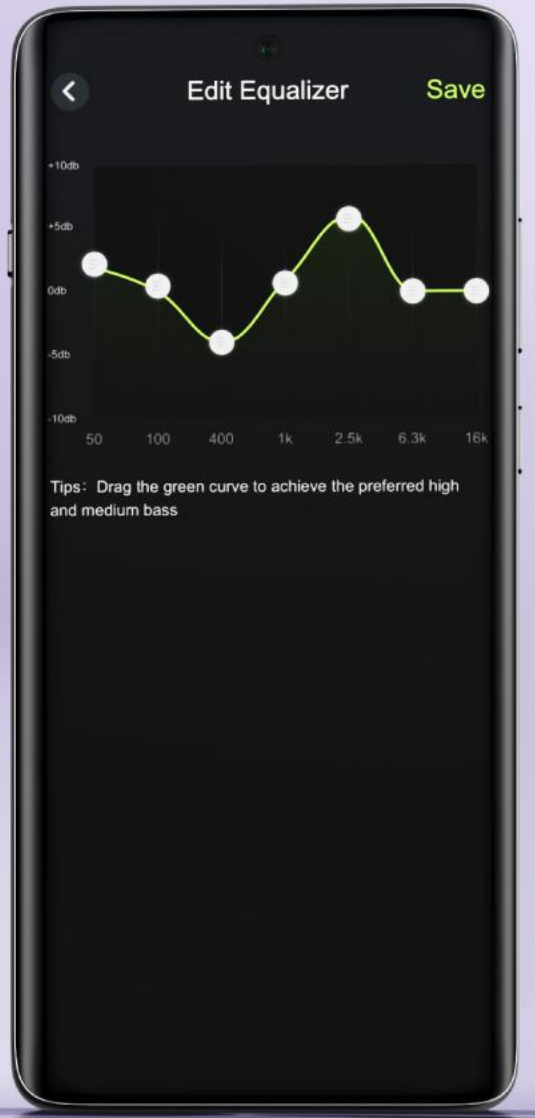
FreePods Pro+ provides up to 45dB noise reduction, effortlessly eliminates distractions, allowing you to immerse yourself in crystal-clear audio. You can fine-tune the noise cancellation depth using the oraimo sound app for the most comfortable audio experience.

oraimo sound App

Customize Your Music

The FreePods Pro+ allows you to enjoy various custom functions by setting up all on the oraimo sound app, such as customized EQ, personalized control settings, etc.





4-mic ENC HD Calling

Clear Voice in Call

The beamforming array and AI Deep Neural Network algorithm reduce the disruptive noise around the caller. Optimized air duct suppresses wind noise. Therefore, FreePods Pro+ is designed to offer a clear and pure voice in calls.

In-ear Detection

Smarter and Easier

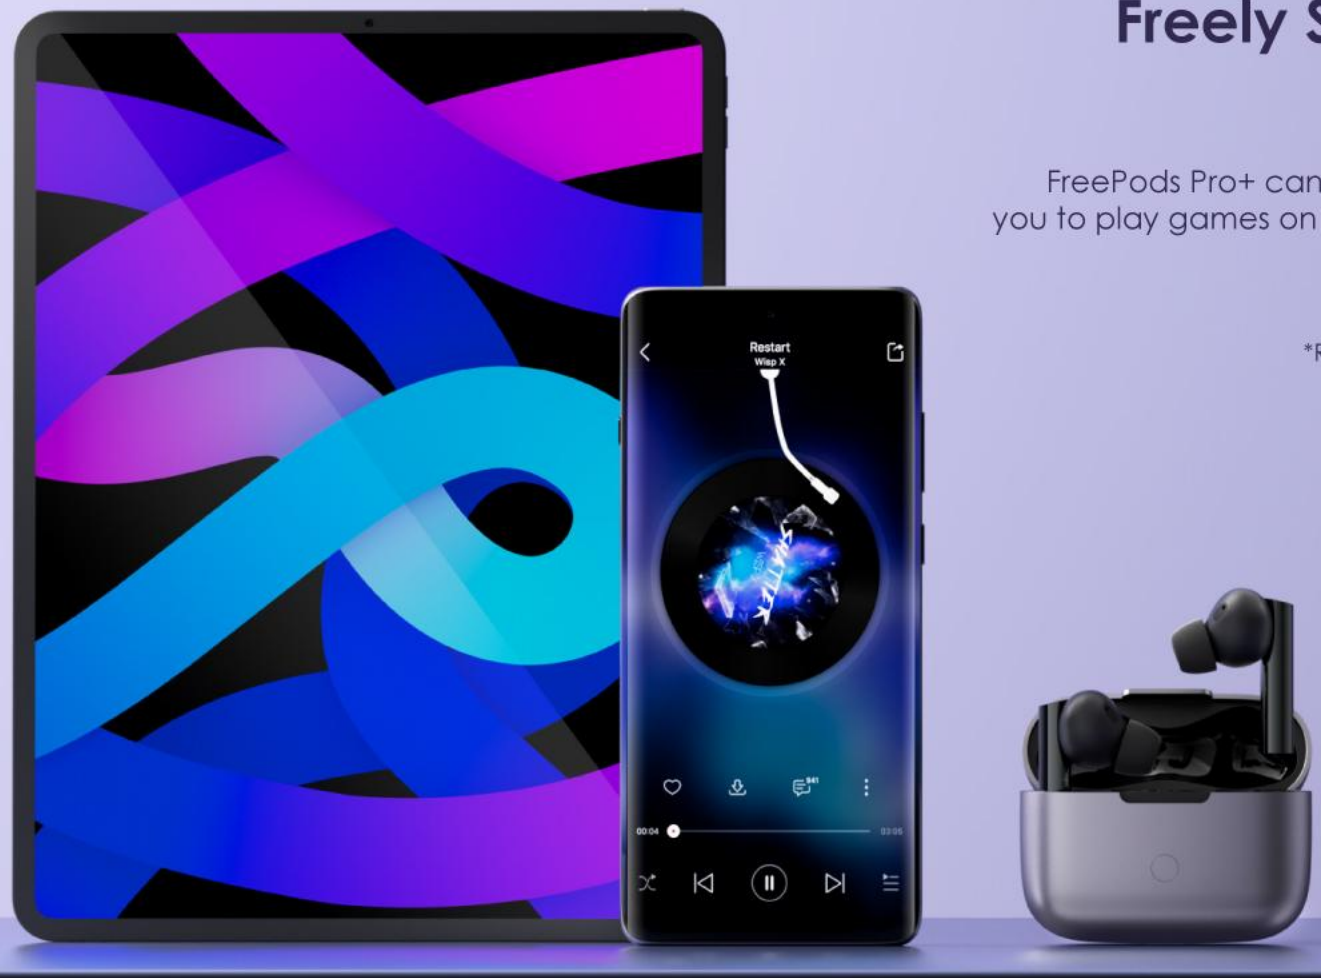
oraimo FreePods Pro+ comes with inbuilt sensitive sensors that detect when they are being used. Music playback automatically pauses when you take them off and resumes when you put them back on.

Dual Device Connection

Freely Switch Between Gaming and Phone Calls

FreePods Pro+ can connect to 2 devices simultaneously, allowing you to play games on a tablet without missing calls from your phone.

*Refer to the Welcome Guide to connect to another device.



Low-latency Game Mode

Audio and Video Instant Sync

Featuring low-latency Game Mode and specially tuned gaming sound, the FreePods Pro+ allows you to emerge in your game with audio and video sync in seconds.

5.4

Smart Chat Mode

Seamless Integration of Music and Speech

FreePods Pro+ will automatically change the current mode into Transparency when it detects your voice. Ideal for multitaskers, engage effortlessly in discussions without ever hitting pause on your device.

*Smart Chat Mode might be triggered by chewing, swallowing, coughing, and other unusual noises. Activate it on the oraimo sound app.

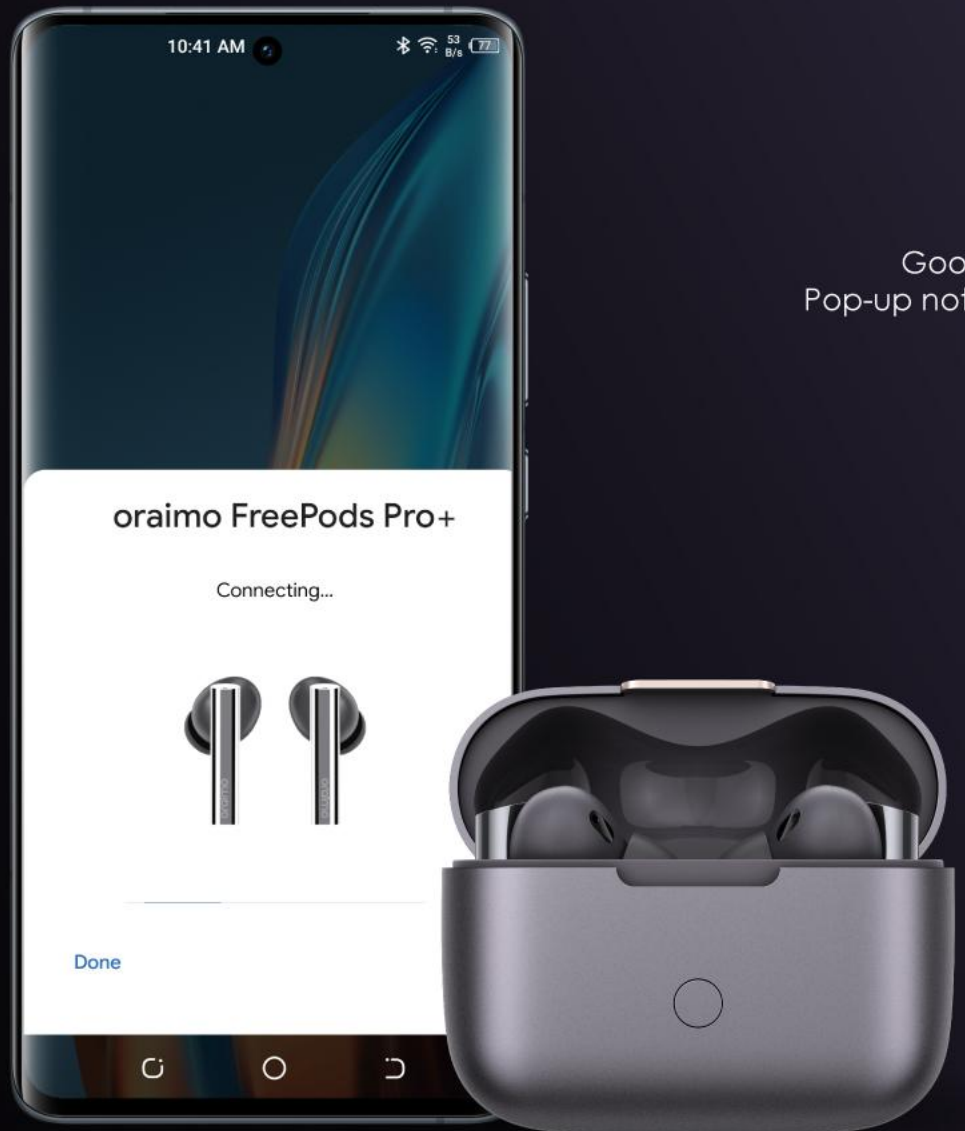
Tap twice: Pause/Play the music
Tap three times: ANC mode switch

Wide Area Tap

Prompt Responsiveness In Wide Range

Control the audio with intuitive wide-area taps on your ears without any physical contact with the earbuds, allowing for effortless control of tracks and play mode.

*Activate it on oraimo sound app. Tap according to the location of the diagram.



Pop-up Notifications

Google Fast Pairing

Google Fast Pairing function supports automatic fast pairing with Pop-up notifications between FreePods Pro+ and your Google devices.

*Compatible with Android 6.0 or above, the device must also support Google Play services.

IPX5 Water Resistance & Sweat Protection

Not Afraid of Water and Sweat

Featured with an IPX5 waterproof rating and nano coating,
splashes and sweat won't stop music playing.

*Water and sweatproof is only available for earbuds and not for the charging case.

Extraordinary Bass

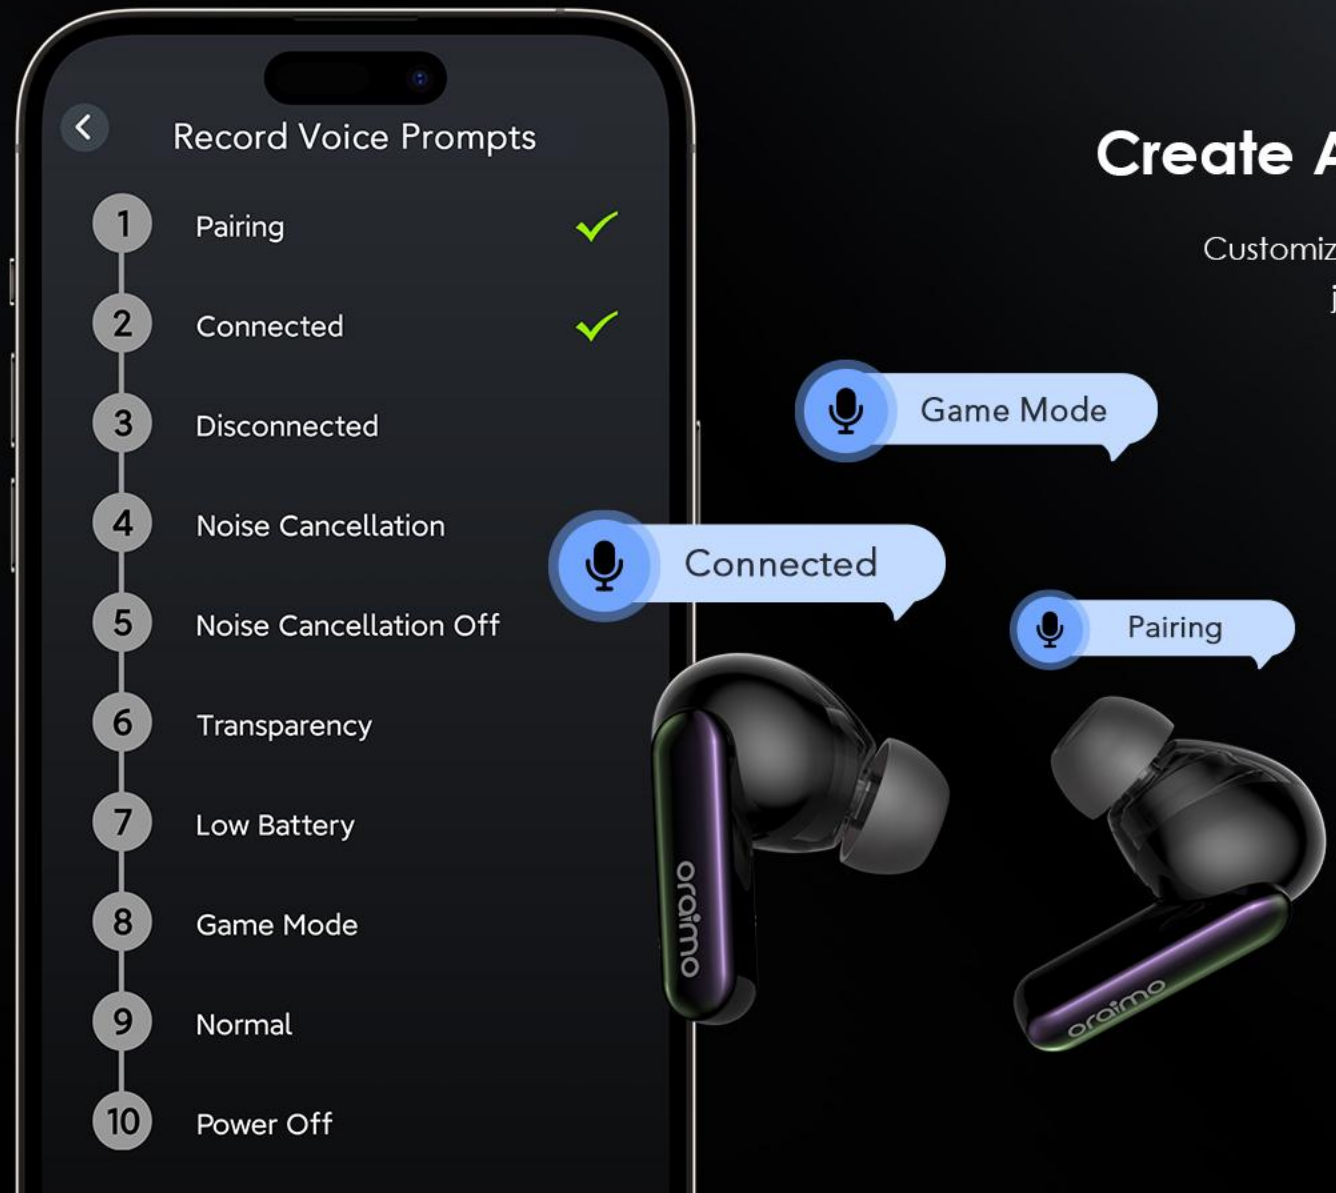
A Sound Feast

Equipped with a TPU+PEEK composite diaphragm, the integrated 11mm large dynamic driver outputs full low frequencies. CCAW voice coil provides delicate and rich high frequencies. Put on your SpaceBuds and enjoy the vibe!

Customize Your Voice Prompts

Create A Personal Audio Experience

Customized voice prompts that guide you through your listening journey. Tailor interactions to your taste, and make your SpaceBuds truly yours.



Personalized Lighting Effect

Bring Your Music to Life

Choose from a spectrum of colors to match your mood or outfit, making each listening session uniquely yours. Let the light sync with the beats and illuminate the music journey.

Smart Chat Mode

Seamless Integration of Music and Speech

SpaceBuds will automatically switch to Transparency mode and stop playing music when it detects your voice.
Ideal for multitaskers, engage effortlessly in discussions without ever hitting pause on your device.

ANC Mode

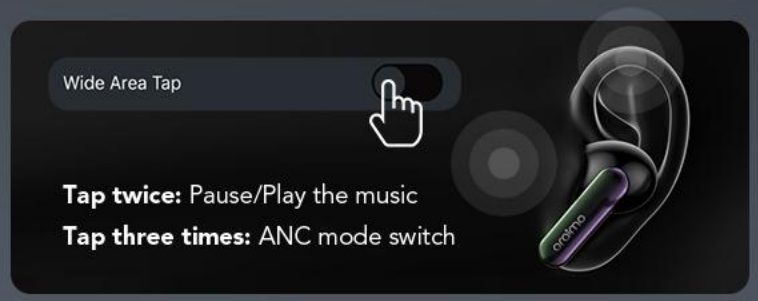
Transparency

*Smart Chat Mode might be triggered by chewing, swallowing, coughing, and other unusual noises. Activate it on the oraimo sound app.

Wide Area Tap

Prompt Responsiveness In Wide Range

Control the audio with intuitive wide-area taps on your ears without any physical contact with the earbuds, allowing for effortless control on tracks and play mode.



*Activate it on oraimo sound app. Tap according to the location of the diagram.

40-Hour Long Playtime & Quick Charge

Extended Battery Life

Keep the music playing day and night, with up to 40 hours of battery life and expedient quick charge capabilities.

11 hours
Single charge

40 hours
Total playtime

*ANC ON: 8 hours/Single Charge, 29 hours/total playtime. *The recharge of the case takes approximately 1.5 hours; if fully recharged, the case can charge the earbuds about 2.5 times.

4-Mic AI Noise Cancellation

Clear Call, Everywhere

Equipped with a total of 4 microphones and an AI deep neural network algorithm, SpaceBuds can deliver your voice clearly to others even in noisy environments, whether at home or on the go, and bridge distances with superior sound.

Dual Device Connection

Freely Switch Between Gaming and Phone Calls

SpaceBuds can connect to 2 devices simultaneously, allowing you to play games on a tablet without missing calls from your phone.

Immersive Game Mode

Audio and Video Instant Sync

Featuring low-latency Game Mode and specially tuned gaming sound, the SpaceBuds allow you to emerge in your game with audio and video sync in seconds.

Bluetooth 5.4

AI Summary

18:21
Real-Time Translation
Smart headphones with AI features and lunar eclipse design.
This product features 52dB deep noise reduction, an immersive music experience, and AI intelligent applications, including AI-generated prompts, dialogue translation, and real-time conference translation. It continues the previous space design concept inspired by a lunar eclipse, supports wireless lighting effects, and allows for remote photo taking via the compartment buttons, along with music playback controls.
1. The product features 52dB deep noise reduction.
2. It offers an immersive music experience.
3. The headphones support AI intelligent applications.
4. This is the first product with AI applications.
5. AI features include prompt generation.
6. AI can generate dialogue translation.
7. Real-time conference translation is AI-generated.
8. The design concept is based on a lunar eclipse.
9. Wireless lighting effects are supported.
10. Remote photo taking is a new function.
11. Buttons on the compartment control music playback.

Elegant Metallic Design

Outstanding Touch, Fashionable and Reliable

SpaceBuds Neo+ is covered a vacuum plating layer which makes it more attractive and shinning especially in the sunlights. And the scratches on the surface can be greatly reduced as the surface quality has been enhanced.

Sound360 Spatial Audio
Immersive Music Pleasure
oraimo's exclusive spatial sound technology re-renders stereo and widens the sound field to provide an immersive sound-listening experience. Download the oraimo sound app for this revolutionary auditory journey.

30-Hour Long Playtime

Joyful Vibe, Days and Nights

On a full charge, oraimo SpaceBuds Neo+ offers 5 hours of power and the handy charging case provides a further 25 hours to keep you going throughout the days and nights.

*ANC ON: 4 hours/Single charge, 24 hours/Total playtime.

*oraimo Lab test results

2-Mic Call Noise Cancellation

Clear Call, Everywhere

Bulit-in 2 noise-reducing microphones and algorithm work together to reduce the surrounding noise around the caller.

Low-Latency Game Mode

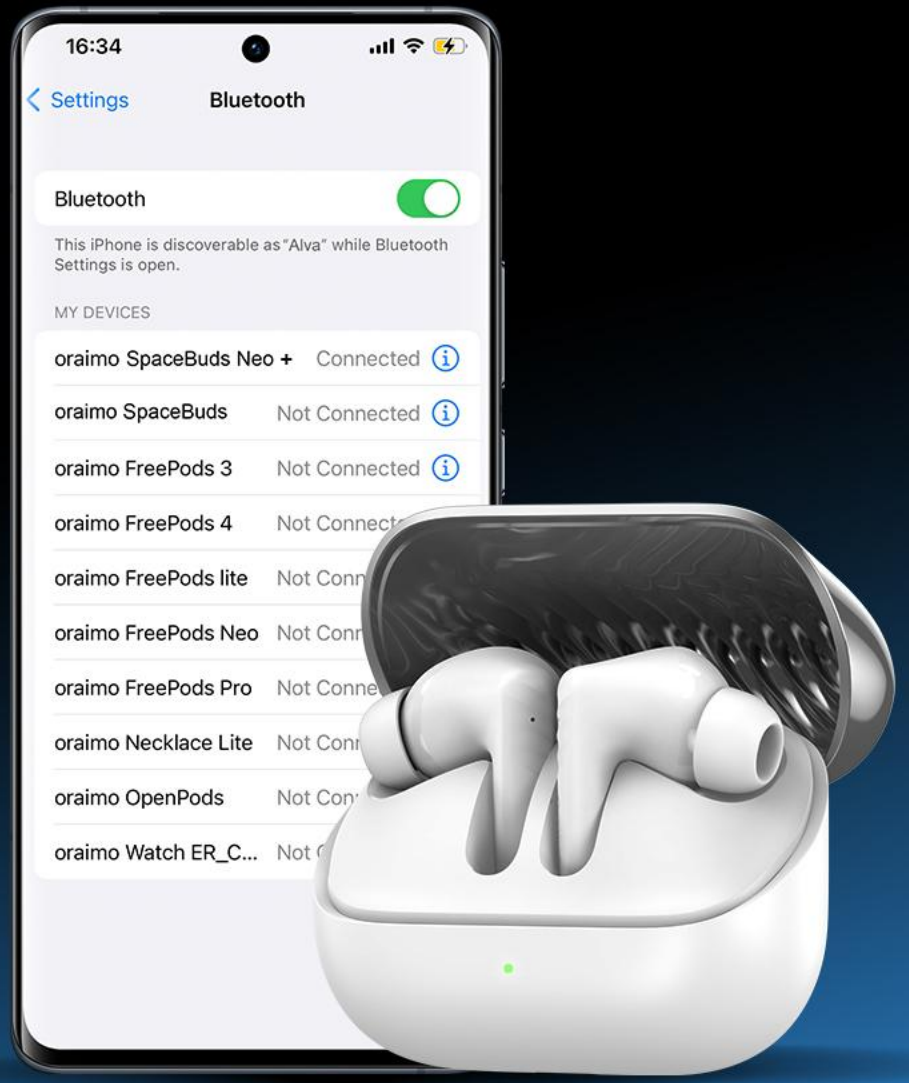
Audio and Video Instant Sync

Featuring Bluetooth 5.4 and Game Mode, you can emerge in your game with audio and video sync in seconds.

IPX4 Water Resistance

Enjoy Music Whenever You Want

SpaceBuds Neo+ is equipped with IPX4 water resistance and
nano anti-sweat coating. Enjoy your music with no fear of water splash and sweat.



Built-in Hall Sensor

Instant Connection

When opening the lid of the charging case,
earbuds will immediately connect to the device.

Ultimate Comfort & Secure Fit

Light on Ears, Free in Sound

The ergonomic, lightweight earbuds feature Φ0.4mm titanium alloy memory wire for a flexible fit and weigh just 5 grams, ensuring all-day comfort and a secure, weightless feel.

Open Ambient Sound Awareness

Stay Aware of Your Surroundings at All Times

OpenSnap's fully open design places speakers beside the ear canal, keeping it clear for music and situational awareness. It also prevents sweat buildup, reducing bacteria and discomfort during extended wear or workouts.

HavyBass™
sound tuning

Open-Ear Bass Boost

Powerful Bass, Fresh Experience

Equipped with a Φ10.8mm dynamic driver and specially designed to direct the sound port towards the ear canal, along with oraimo's exclusive HavyBass™ bass enhancement algorithm, you can enjoy powerful bass even during outdoor activities.

*For optimal sound quality, ensure proper fit.
Adjust the earbuds so the sound port is aligned with your ear canal.

Stylish Clip-On Design

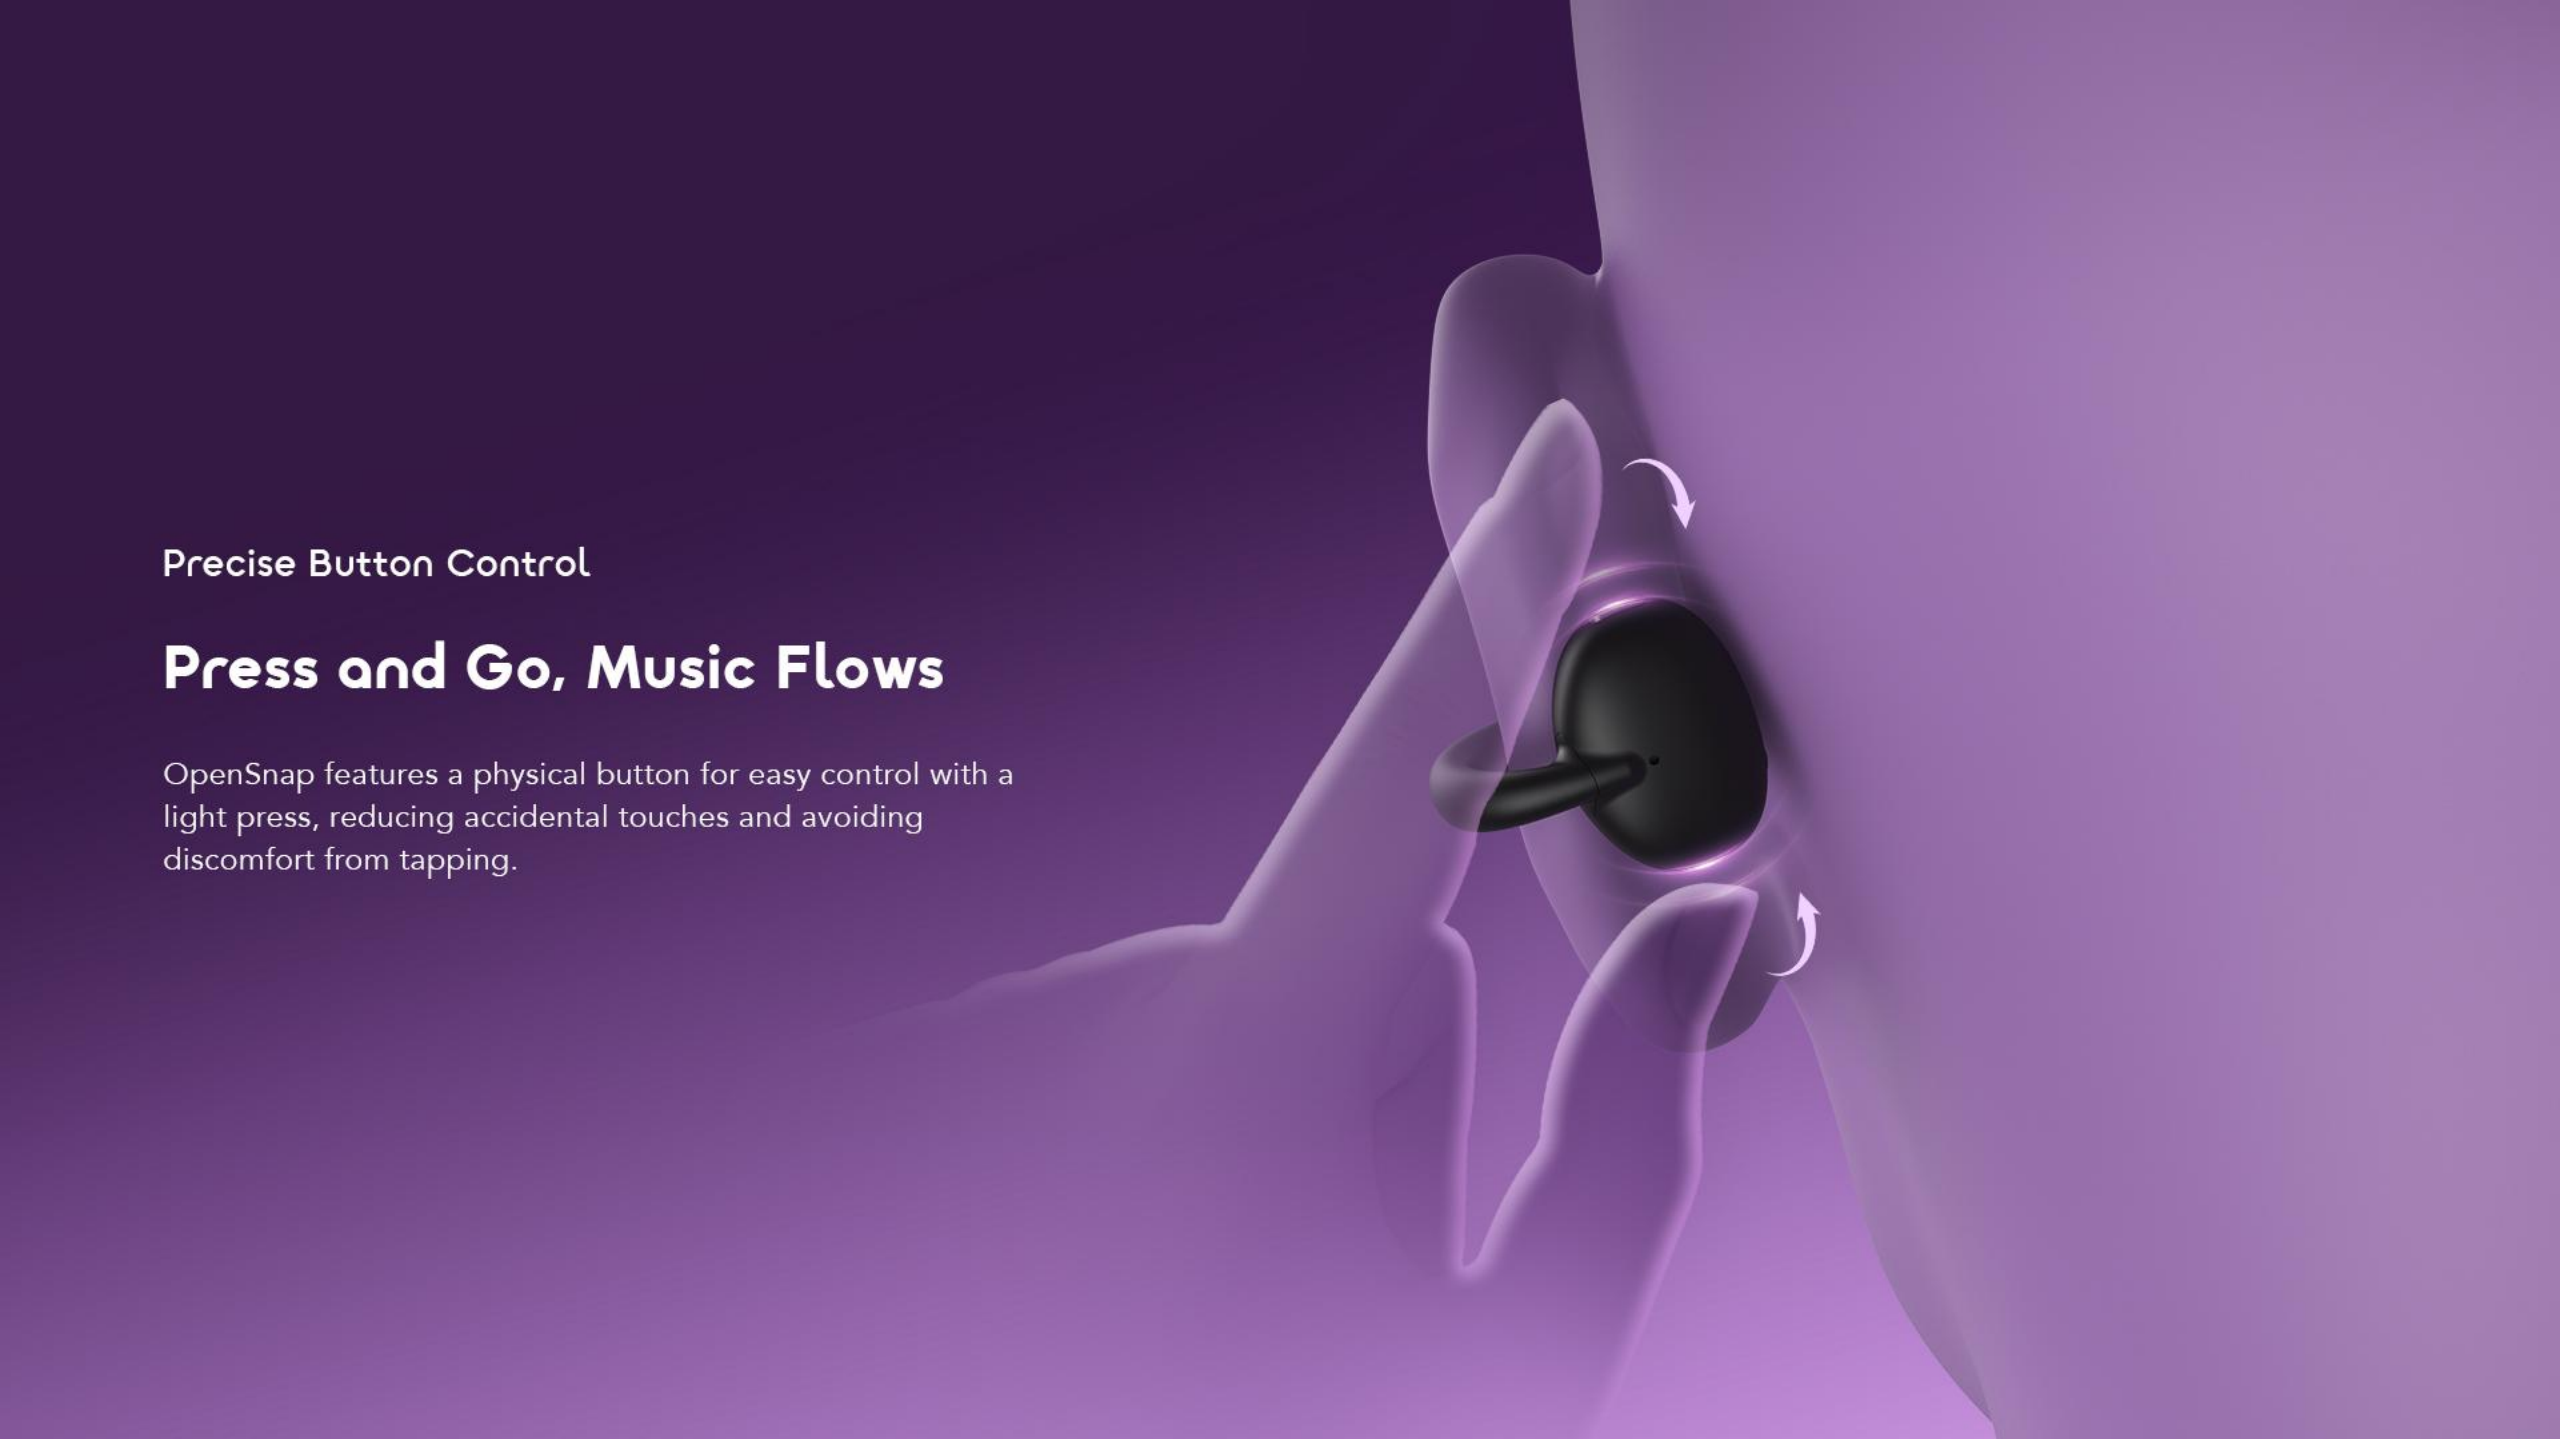
Music & Fashion, Perfect OpenSnap

OpenSnap breaks away from traditional earphone designs with an all-new clip-on style. It not only delivers an immersive music experience, but also doubles as a stylish accessory to elevate your look.

Precise Button Control

Press and Go, Music Flows

OpenSnap features a physical button for easy control with a light press, reducing accidental touches and avoiding discomfort from tapping.



Dual Device Connection

Smooth Switch, Boosted Efficiency

Activate this function in app,
and enjoy the seamless switching
between devices—never miss a call again.

AI Call Noise Cancellation

Clear Calls, Every Time

With two built-in noise-cancelling microphones and AI algorithms, OpenSnap effectively reduces background noise, ensuring clearer voice quality during calls.

26-Hour Playtime

Enjoying Music, Non-Stop Melodies

With up to 6 hours of single-use playtime and a total of 26 hours with the charging case. OpenSnap keeps the music flowing all day long.

Feel the Beat, Command the Crowd

SpaceBox Max's dual 6.5-inch subwoofers and 2.25-inch tweeters tunned by exclusive HavyBass™, deliver floor-shaking bass and sonorous highs over crowd screams. Feel the beat swarm your body, hear every details — this is crowd-control sound.

Dual Wireless Microphones

Show off Your Voice Instantly

With natural vocal pickup mic cores and anti-feedback algorithm, the dual microphones provide truely crystal-clear voice when karaoke. Just power on the microphnes, they will connect with SpaceBox Max instantly. Show off your voice together with your partner.

Customized Karaoke Effects

Be a Live Stage Anywhere

Grab a microphone and a guitar, then tune the bass, treble, reverb and accompaniment music by oraimo sound app to match your voice perfectly, turning any corner into a spotlight stage. Whether at home or on the road, you're the star.

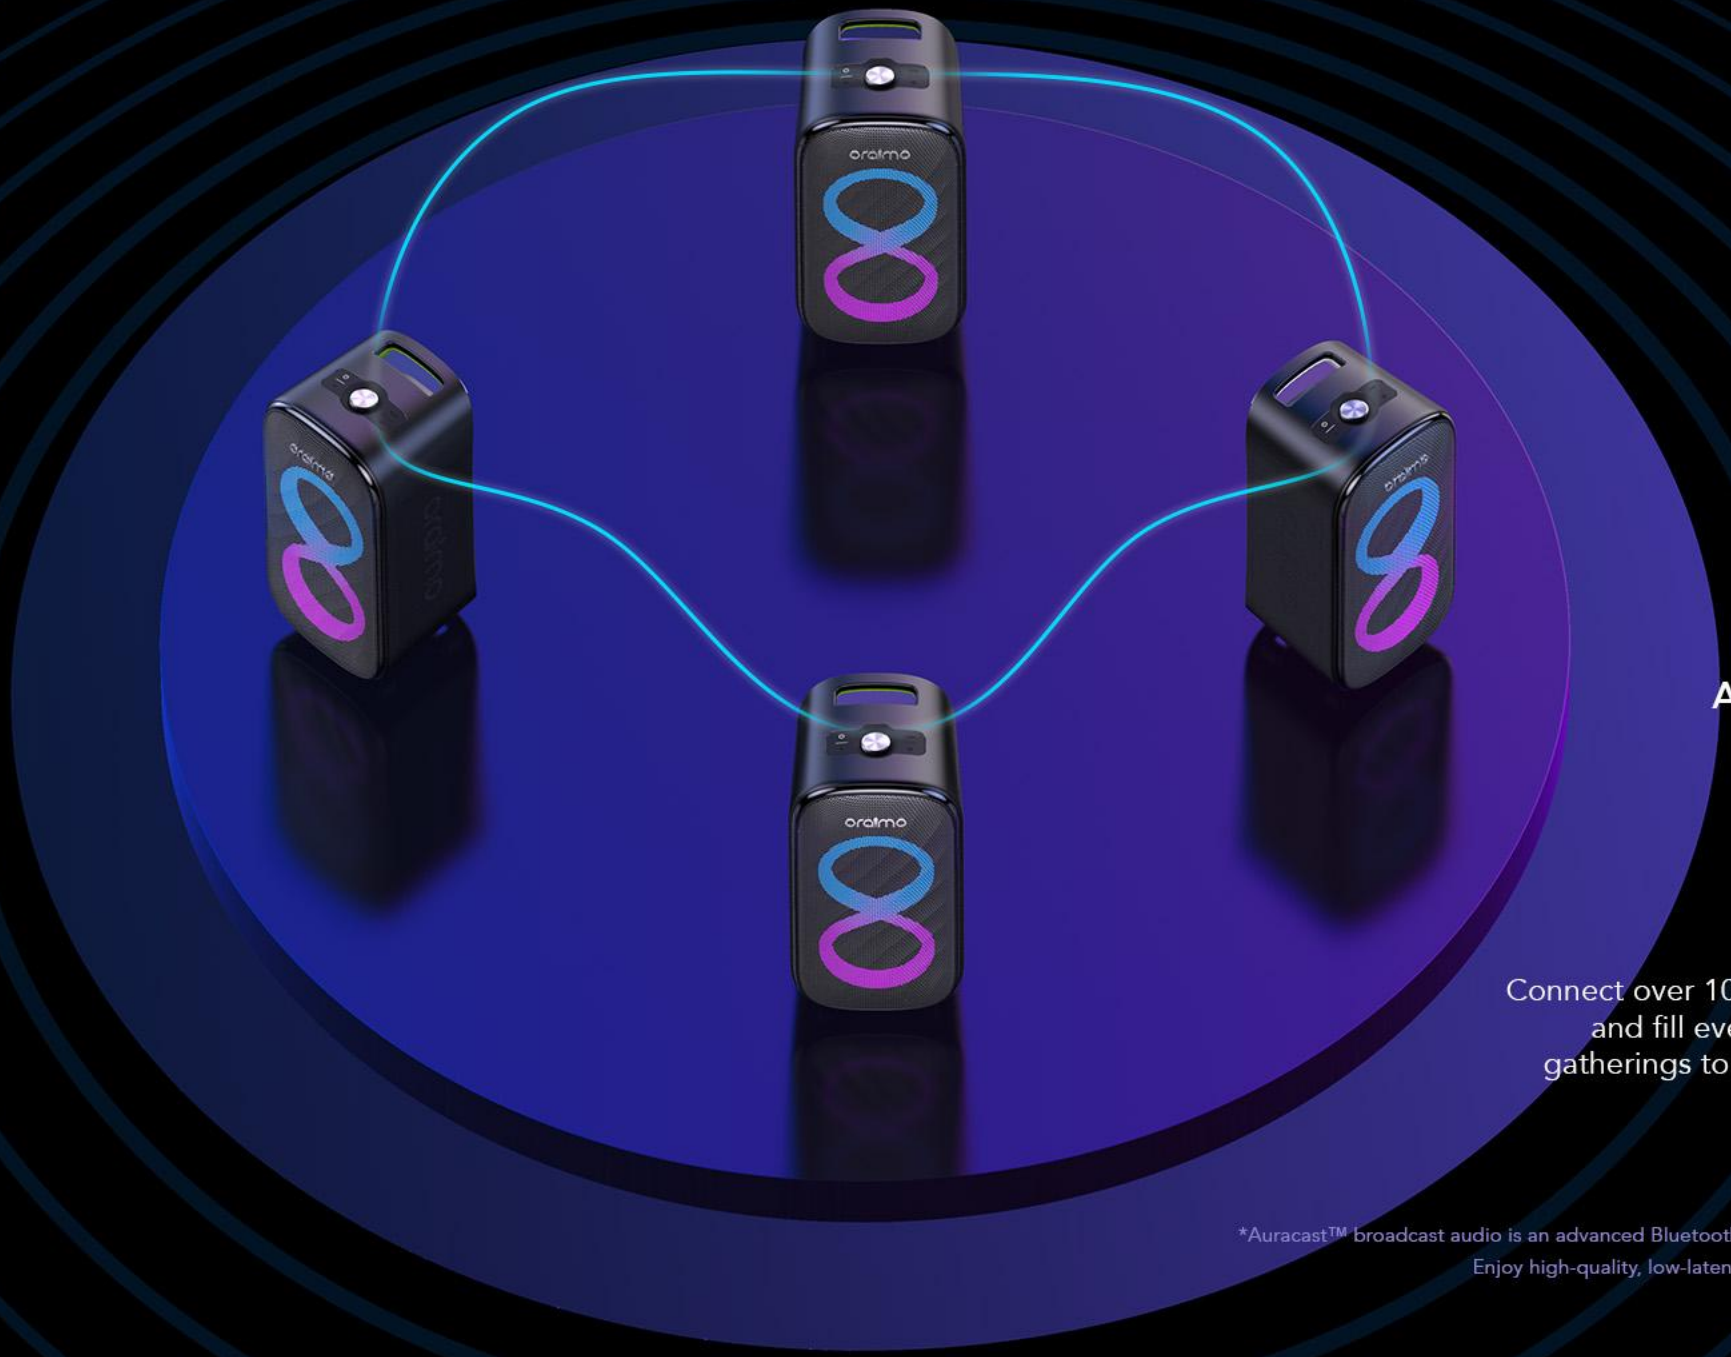
*Support 6.35mm plugged microphone and guitar (not included).

Music-Sync Infinite Lights

Ignite Your Party Night

Innovative infinite light trail and dynamic strobes explode in perfect rhythm with your music. Use the app to switch any color you like and turn every beat into a stunning and energy-packed lightshow.

Grooving Flowing Breathing Crossing



Auracast™ Synchronized Playback

Expand Party With Hundred Speakers

Connect over 100 matching speakers through Auracast™ and fill every space with the same beat. From small gatherings to massive outdoor events, the sound stays perfectly synchronized.

*Auracast™ broadcast audio is an advanced Bluetooth technology that wirelessly connects multiple speakers at once. Enjoy high-quality, low-latency sound that fills the room—perfect for sharing music together.

Battery & AC Powered

The Party Never Stops

Thanks to the SpaceBox Max's power-path management system, just plug into AC power for nonstop max-volume playback while the battery recharges. From marathon parties to back-to-back events, the music never fades.

Playtime Boost Mode

Long-Lasting Grooves

Keep the music flowing for hours with Playtime Boost Mode, perfect for all-day festivals or overnight camping trips. The beat goes on long after the crowd arrives.

OBS-92D

Boosted Stereo Sound

Music Comes Alive

oraimo Tilt is engineered to produce clear and stereo sound that is filled with the whole room with no distortion. Especially, dual 8W full-range drivers and carbon diaphragm in speaker assure immersive and multidimensional audio experience.

Add More Power Easily

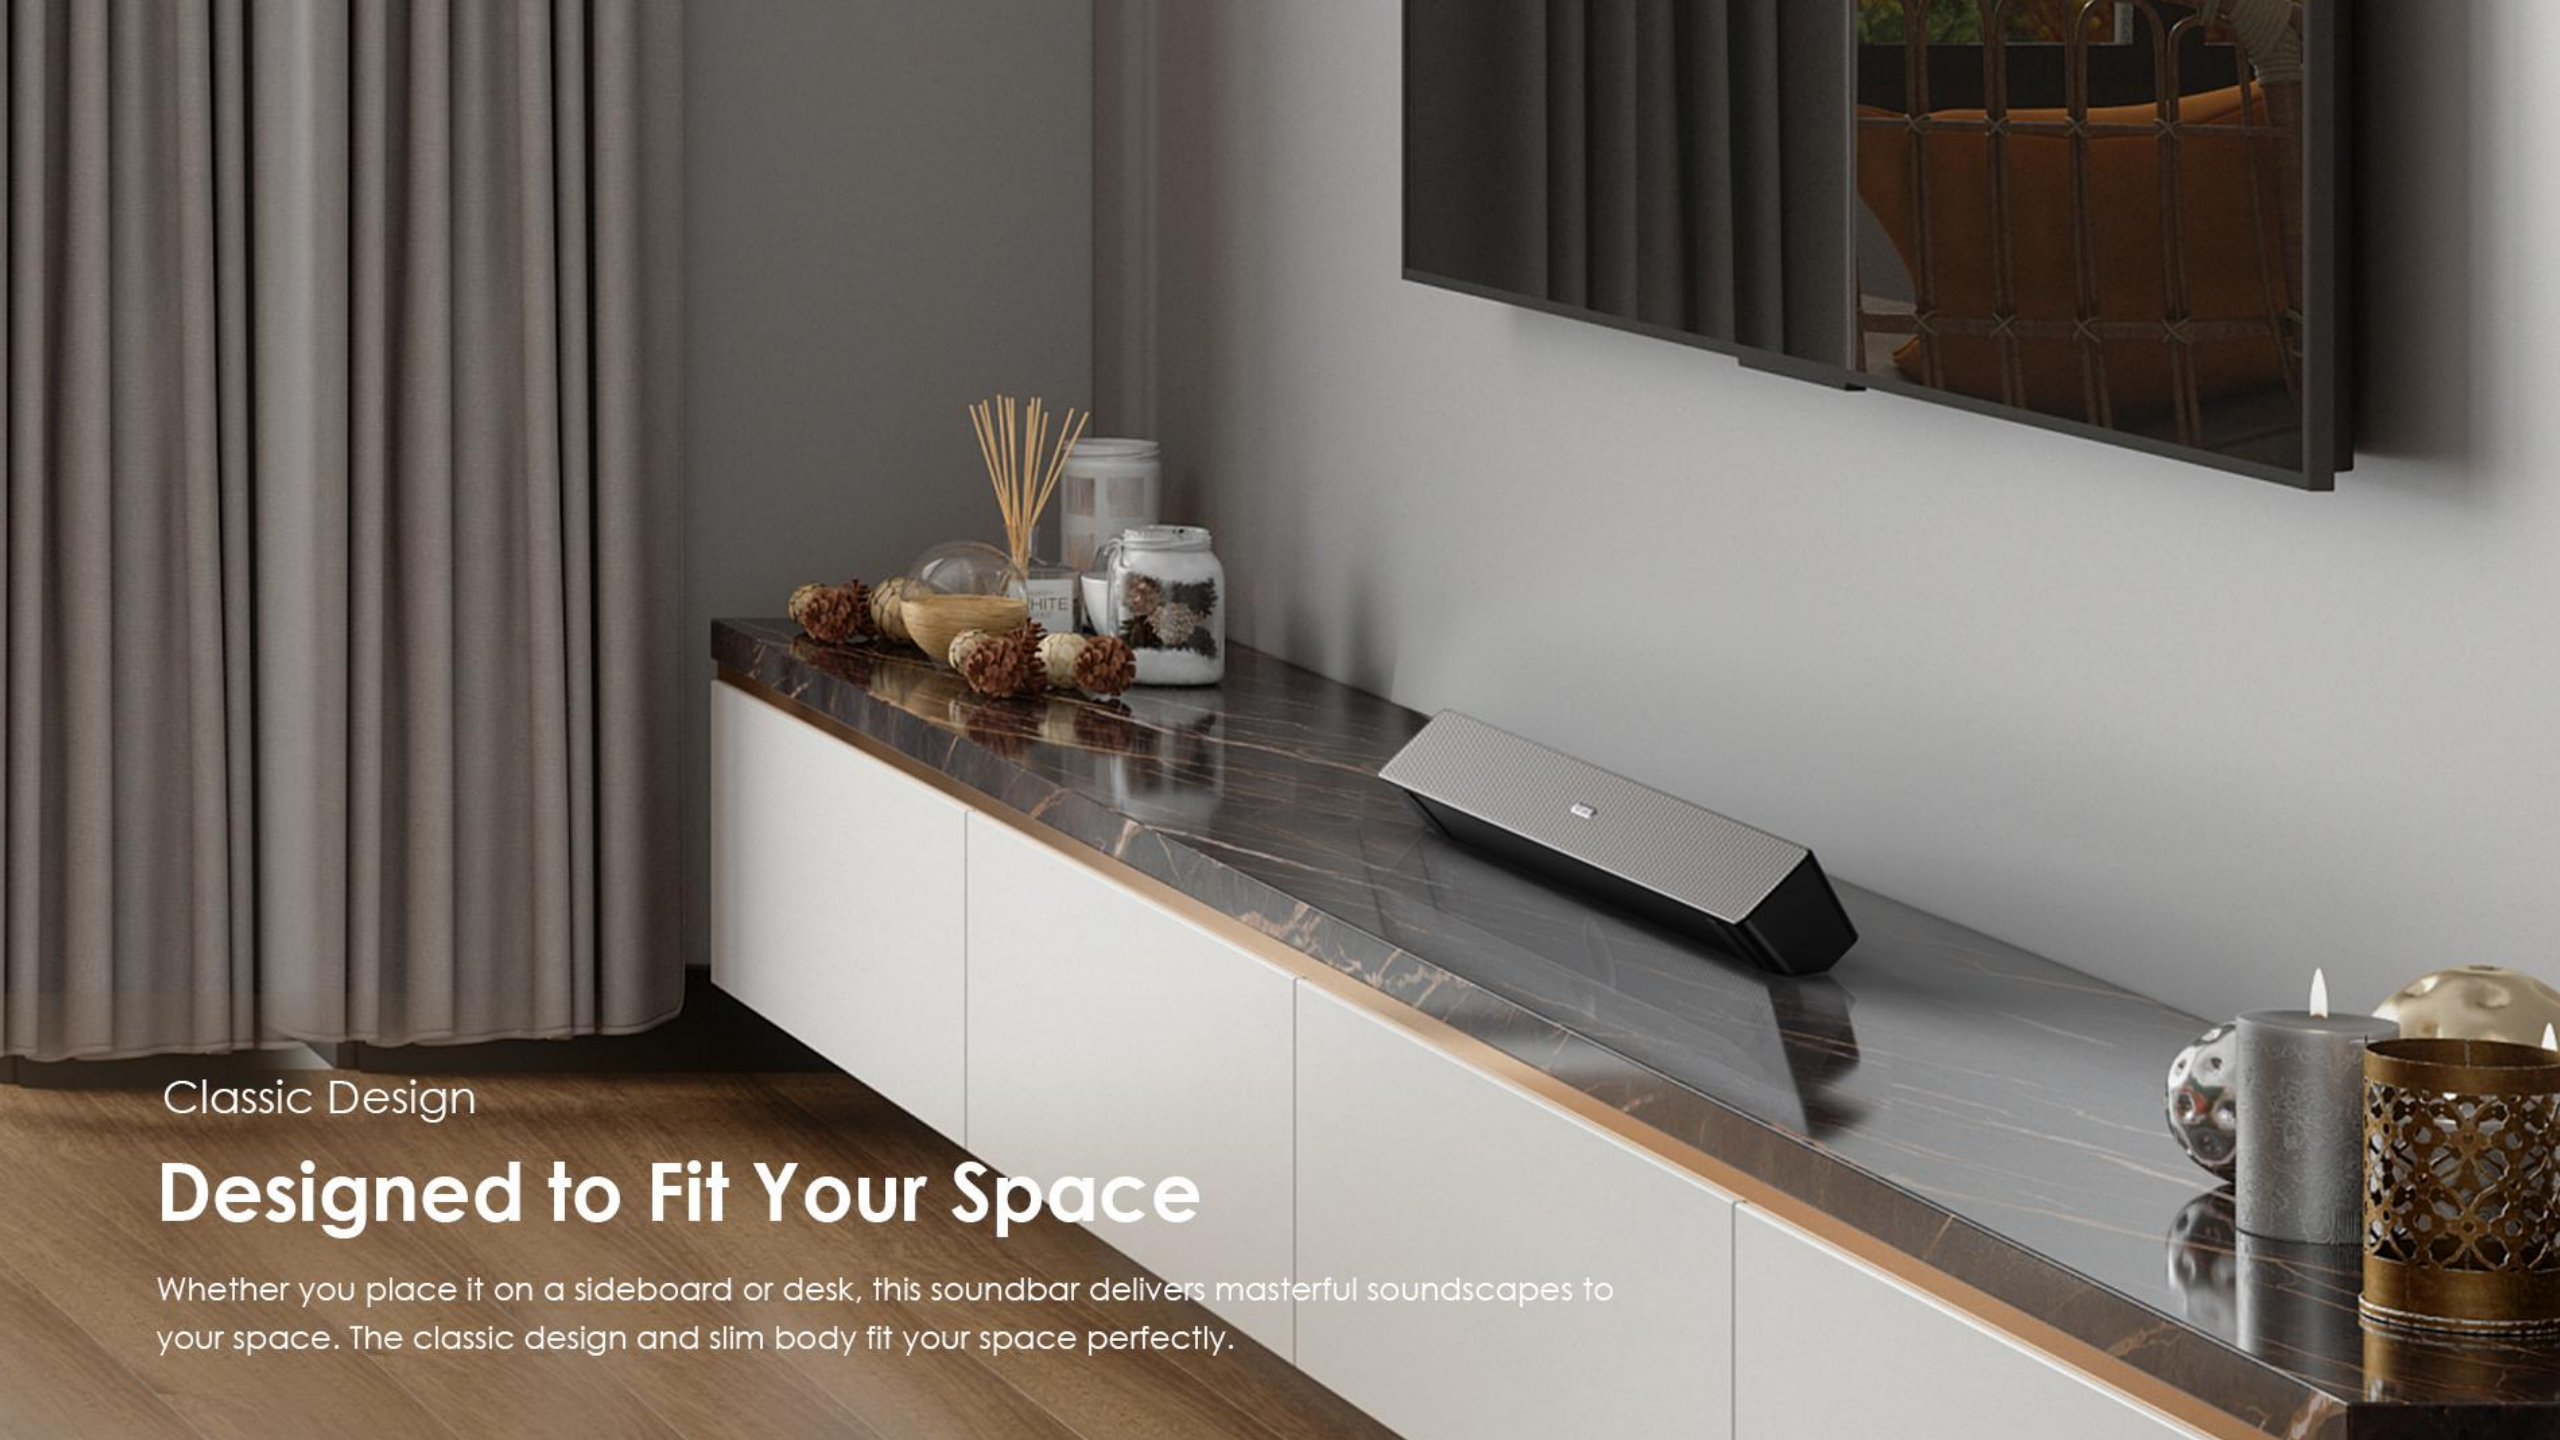
45-degree Tilt to Boost Soundwave

oraimo Tilt is built with sturdy materials in an innovative tilt design that allows you to angle the soundbar at a 45-degree angle to bounce sound off the walls and boost soundwave. Just add more power at your finger.

All-day Listening

12-hr Playtime

oraimo's leading power-saving technology and high-performance 2000mAh Li-ion battery deliver up to 12 hours of all-day audio experience.



Classic Design

Designed to Fit Your Space

Whether you place it on a sideboard or desk, this soundbar delivers masterful soundscapes to your space. The classic design and slim body fit your space perfectly.

Multiple Input Ways

Easy Connectivity

Using Bluetooth connectivity, oraimo Tilt plays your favourite audio wherever you go. Alternatively, 3.5mm AUX and memory card support for use with computer, TV set, set-top box, game consoles and phone. Built-in microphone lets you have audio conferences with clear sound.

Traveler 4

20000mAh High Capacity

Say Goodbye to Battery Anxiety

20000mAh large capacity, filled to the brim with power. It lasts up to a week on a single charge, so whether you're on a personal business trip or a family trip, you just need one.

2.1A Dual Fast Charging

Always Best Choice

Powered by oraimo AniFast technology, it can intelligently identify the charging protocols of your device. The dual USB port configured with Traveler 4 can charge two devices at the same time with the fastest charging speed.

Two Recharging Modes

More Ways to Recharge

It comes with Type-C and Micro-USB two recharging ports.
Just power up the Traveler 4 with more ways.

LED Torch with SOS Light Alarm

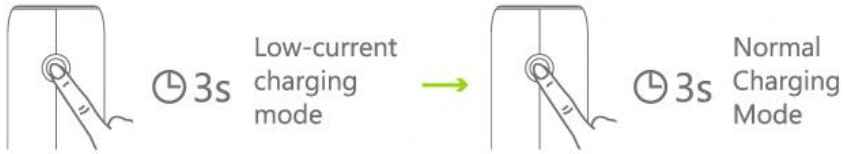
Protect You in case of Any Emergency

Equipped with a strong SOS lighting alarm, Traveler 4 Pro can give you a hand in case of any emergency. It can also be switched to the LED torch mode for up to 50-night illuminations.

Low-current Device Supported

Widely Compatible

It not only supports fast charging of normal devices, but also can automatically switch charging mode once it recognises low-current devices such as wireless earphone and smart watch, avoiding damaging devices.



3D Texture

Superb Surface Protection

The 3D texture provides more comprehensive protection for the power bank surface, which is resistant to stains and scratches and gives you a comfortable grip.

Safe Circuit Chip

Reliable and Safe

The premium Lithium polymer chip is not just safe, also has a higher conversion rate, stable voltage and reliable circuit protection. It withstands overcharging, over-discharging and other faults, offering reliable protection for both the power bank and devices.

- Temperature Resistance
- Short Circuit Protection
- Output Overvoltage Protection

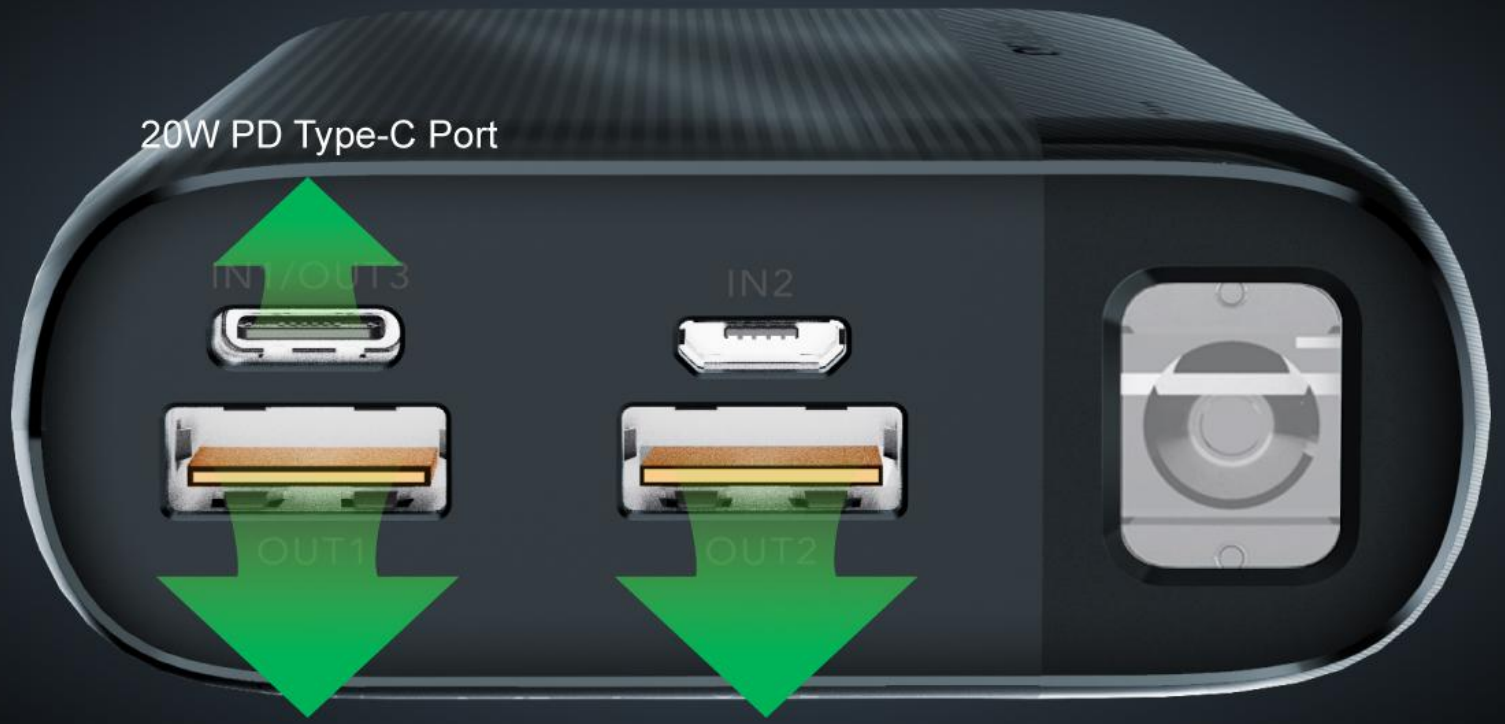
Triple Fast-charging Ports

Triple and Simultaneous

Powered by oraimo leading fast-charging technology, the Type-C port and dual USB port configured with Traveler 4 Pro can charge three devices at the same time with the fastest charging speed.



Fully recharged in
6 hours*
With 18W PD Charger

Dual Recharging Modes

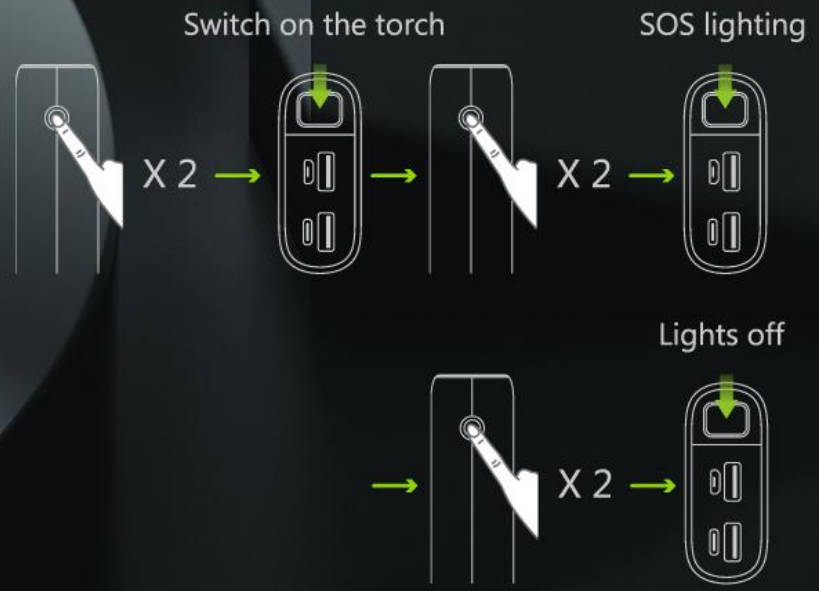
Quickly Replenish Energy

Juice up the power bank at an up to 18W speed through a two-way Type-C port. And a Micro-USB port that you can recharge your power bank with any cable you happen to have on hand.

LED Torch with SOS Light Alarm

Protect You in case of Any Emergency

Equipped with a strong SOS lighting alarm, Traveler 4 Pro can give you a hand in case of any emergency. It can also be switched to the LED torch mode for up to 50-night illuminations.



Low-current device Charging Mode

Widely Compatible

It not only supports fast charging of normal devices, but also can automatically switch charging mode once it recognises low-current devices such as wireless earphone and smart watch,avoiding damaging devices.

3D Texture

Superb Surface Protection

The 3D texture provides more comprehensive protection for the power bank surface, which is resistant to stains and scratches and gives you a comfortable grip.

Safe Circuit Chip

Reliable and Safe

The premium Lithium polymer chip is not just safe, also has a higher conversion rate, stable voltage and reliable circuit protection. It withstands overcharging, over-discharging and other faults, offering reliable protection for both the power bank and devices.

Wide Compatibility | Multi-protection System

Traveler Link 20

| OPB-P5201 |

AniFast™ smart charging

4 Built-in Charging & Recharging Cables

Seamless Power Connectivity

Traveler Link 20 comes with built-in Type-C, Micro-USB, and Lightning charging cables to meet your daily charging needs.
What's more, a USB-A cable is included for easy recharging.

Durable Cable

Built to Last

The thickened wire protection and anti-winding process make the built-in charging cable more durable and rugged. Moreover, a higher charging conversion rate can be achieved thanks to pure copper conductor utilization.

4 Output Ports

Charge Up to 4 Devices Simultaneously

Traveler Link 20 is equipped with 3 built-in charging cables and 1 USB-A port, and it can simultaneously deliver power to 4 devices at a speed of up to 12W.

Recharge in 2 Ways

Recharge Your Power Bank Flexibly

Traveler Link 20 can be recharged using a Type-C port, Micro-USB port, or a USB-A cable, providing multiple recharging options for convenience.

20000mAh Big Capacity

Fully Charge Your Phone Up to 5 Times

Featuring a high battery capacity, Traveler Link 20 can fully juice up an iPh XS almost 5 times.

Multi-protection System Safe and Reliable

It adopts high-quality batteries and has a complete after-sales system. 365-day warranty provides you with a reliable shopping experience.

- Temperature Resistance
- Short Circuit Protection
- Input Overvoltage Protection
- Output Overcurrent Protection
- Output Overvoltage Protection
- Protection From Overcharge And Over Discharge

First-use Guidance

Fully deplete the power bank and then recharge it to 100% to accurately activate the battery level display function. During the screen display activation process,the displayed battery level is inaccurate, please ignore it. Subsequently, you can use power bank as per the user manual. If the screen display activation is not completed, the display may be inaccurate.

Attention:

There should be no power interruptions and cable removal during the screen display activation process. If there is a utility power outage, the charging cable becomes loose, or the power bank is moved, causing an interruption in the charging process, please follow the above steps again to reactivate the screen display function.

PACKAGING

SOLAR HOME POWER SYSTEM

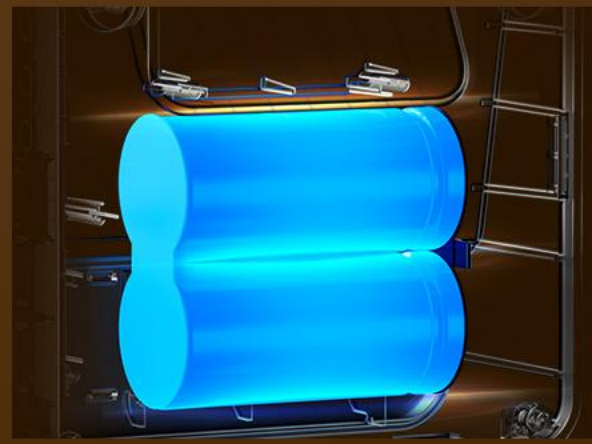
22.5W Fast Charging for Phone | Fast Charge in 2 Ways | 50,000 Hours LED Life
10-Year Lifespan LiFePO4 Battery

PowerSolar 382 | OPS-5381



10-Year
Lifespan
LiFePO4
Battery

22.5W Fast Charging for Phone

Flash Charge All Devices

Equipped with one Type-C and dual USB-A ports to charge up to 3 devices phones simultaneously. Delivers up to 22.5W output for efficient power distribution.

Input (DC 5525): 22V/1.83A 10W(Max)
Solar Panel/DC Power Input

Output (DC5521*3): 5V / 1.5A 7.5W(Max)
Powering the Tube Lights

Input (Type-C): 5V/3A, 9V/2.22A, 12V/1.67A 20W(Max)
Fast Charging Input for Devices

Output 3(Type-C): 5V/3A, 9V/2.22A, 12V/1.67A, 10V/2.25A (Max 22.5W)
Charging Mobile Devices / Multi-Voltage Fast Charge

Output 1/2(USB-A1/A2): 5V/3A, 9V/2.22A, 12V/1.67A, 10V/2.25A (Max 22.5W)
Charging Mobile Devices / Multi-Voltage Fast Charge

Fast Charge in 2 Ways

Fully Charged, Super Fast

Recharge anytime with dual charging options — the 10W IP65-rated solar panel delivers clean energy with a full charge in only 4 hours 40 minutes, while AC adaptor charging gets you ready in just 2 hours 20 minutes.

*oraimo Lab test results: Charging times are based on optimal sunlight conditions and standard indoor power tests. Actual times may vary depending on environment.

50,000-Hour LED Life

Long-Lasting Lighting

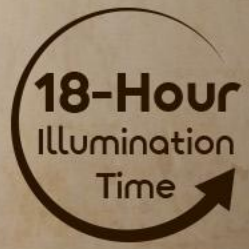
The advanced LEDs provide bright and stable lighting for up to 50,000 hours, reducing replacement costs. With up to 18 hours of continuous runtime on a full charge, it ensures reliable illumination whenever you need it most.

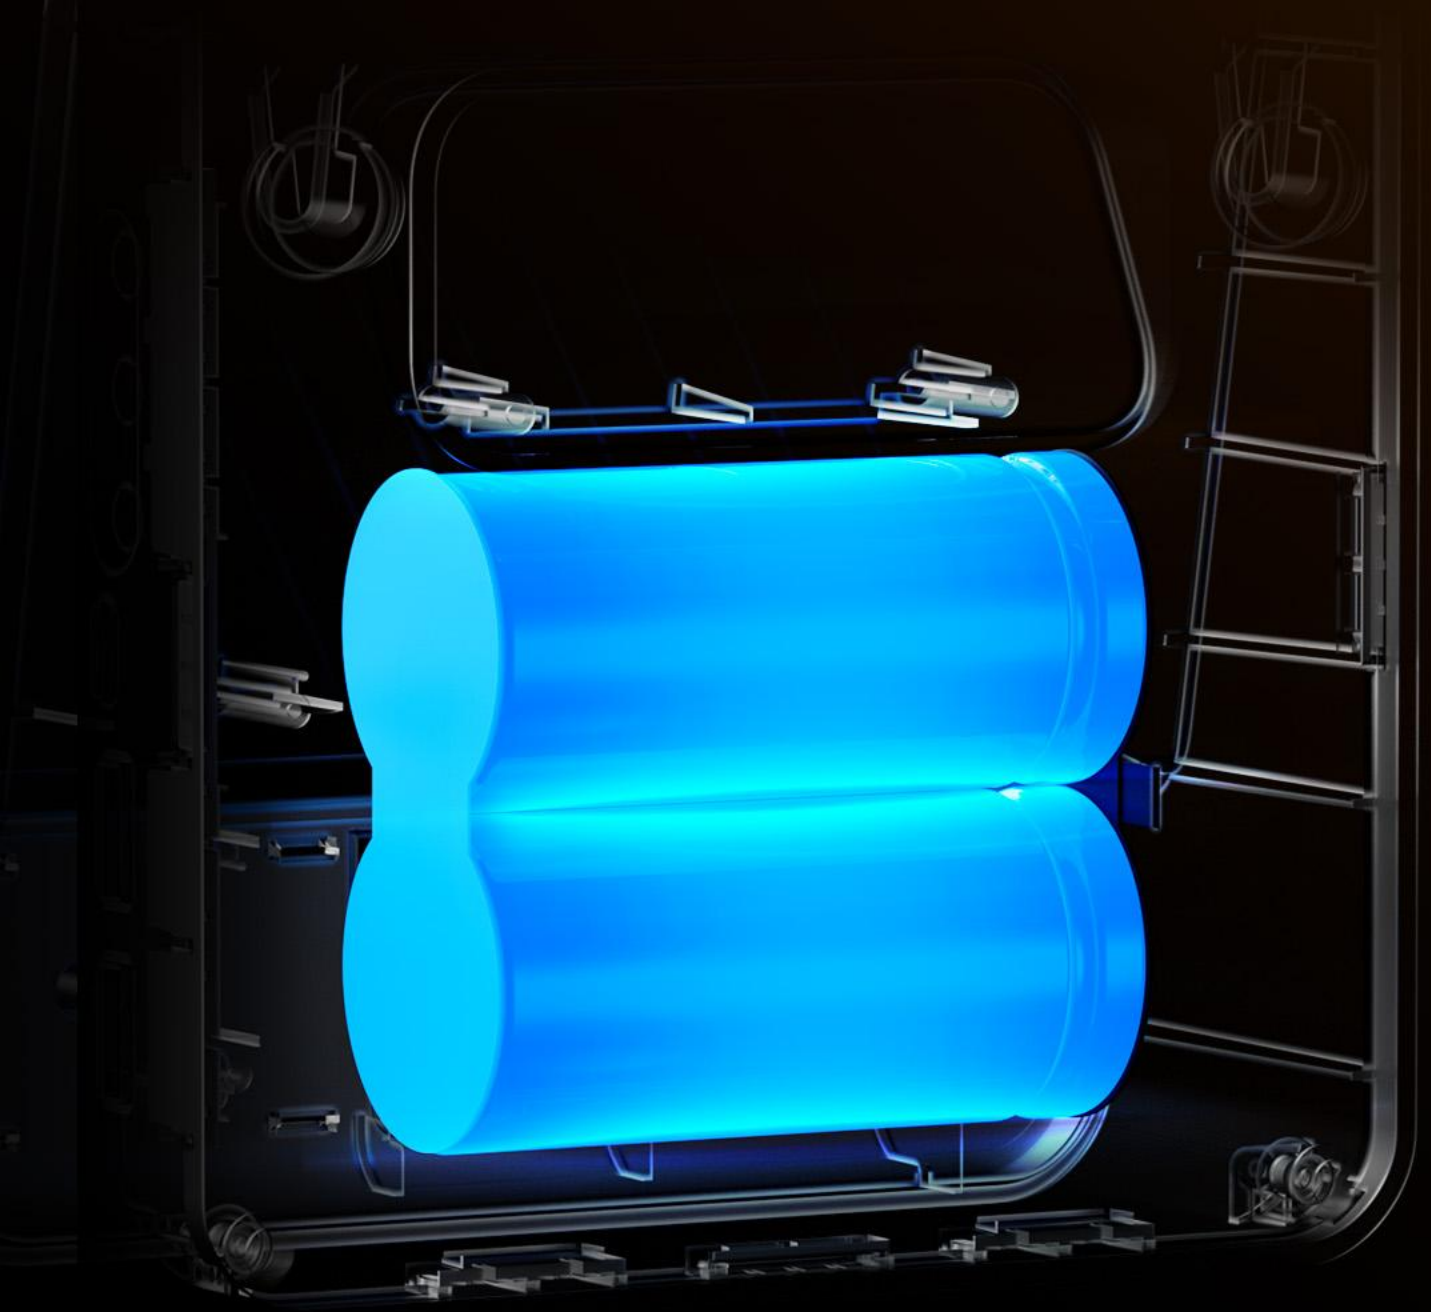
Brightness: **600 Lumens**

60X Brighter Than A Kerosene Lamp

Illumination Time

*oraimo Lab test results: up to 18 hours runtime when powering one LED tube. Actual performance may vary with conditions.





10-Year Lifespan LiFePO4 Battery

Built to Last

An advanced LiFePO4 battery with a 10-year lifespan ensures reliable energy storage for years of everyday use.

What's in the Box?

Battery Control Unit

2-Year Warranty

The Solar Panel and the Battery Control Unit of Power Solar 382 is backed by a 2-year warranty. Please keep your receipt, the terms and conditions of warranty only apply to original purchase of oraimo products. The warranty does not cover normal wear and tear or any damage caused by misuse of product.

*The 2-year warranty is limited to the Main Unit and Solar Panel. LED tube light included is covered under 1-year warranty.

10000mAh

2 Inputs & 3 Outputs

Power 3 Devices At Once

Charge three devices simultaneously without waiting in line, enhancing efficiency and meeting all your multi-device charging needs in one go.

Mini Size & Portable

Power on the Go, Fits in Your Hand

PowerNova L11 combines big power with small size. Compact and lightweight, it's only half the size of a typical smartphone, making it easy to slip into your pocket or bag. Take it anywhere—commute, travel, or a coffee break—without feeling weighed down.

10,000 Bend Cycles Braided Built-In Type-C Cable

Durable Material, Neat Charging

PowerNova L11 features a durable built-in Type-C charging cable, eliminating the need to carry extra cords. With a 29cm length, stain-resistant finish, and braided design rated for 10,000 bend cycles, it ensures reliable performance day after day.

Compatible with 1,000+ Devices

One Charger for All Your Devices

Compatible with over 1,000+ devices, including smartphones, tablets, earbuds, and more — so you can enjoy the convenience of carrying just one charger wherever you go.

65W ALL-IN-ONE GaN CHARGER
For Phones and Laptops

AniFast™

- ***QC&PD&PE Fast Charge (GaN)***
- ***Intelligent Power Distribution***
- ***Support Laptop Charging***
- ***Anti-scratch Design***

SPECIFICATIONS

Charger:

Plug Type: EU Type

Input: 100-240V~50/60Hz 1.5A

Output 1(Type-C)/Output 2(Type-C): 5.0V⎓3.0A, 15.0W, 9.0V⎓3.0A, 27.0W, 12.0V⎓3.0A, 36.0W, 15.0V⎓3.0A, 45.0W, 20.0V⎓3.25A, 65.0W Max

Output 3(USB-A): 5.0V⎓3.0A 15.0W, 9.0V⎓3.0A 27.0W, 12.0V⎓3.0A 36.0W, 15.0V⎓3.0A 45.0W, 20.0V⎓3.25A 65.0W Max

USB Output Total: 65.0W Max

Cable:

Type: Type-C to Type-C; Output: 5A; Length: 1m

Compatible with the majority of devices such as Apple, Samsung, TECNO, Infinix, HP, DELL, and Lenovo, among others

AniFast™
smart charging

20W GaN Faster

Engineered for iOS Phones

20W Faster Charge | Powered by GaN | Compact Design | 9-Layer of Safety | Dynamic Color Cube

PowerCube 20 Chic | OCW-5201E |

20W Faster Charge

Stable Charge, Ultra Fast

oraimo PowerCube 20 Chic offers 20W stable and fast charging, which is 3 times faster than a normal 5W charger, ensuring your device rapidly reaches full charge.

PowerCube 20 Chic

5W Normal Charger

Powered by GaN

Safer, Smaller and Faster

Equipped with a GaN chip, it delivers the fastest charging in a lightweight design. Even under high-temperature conditions, it maintains high conversion efficiency and provides professional-grade protection.

AniFast™ Technology Included

Wide Compatibility

Equipped with oraimo AniFast™ Technology, it supports multiple fast charging protocols. It is compatible with Apple, Samsung, TECNO, Infinix, Xiaomi, HUAWEI and more, offering you reliable power assurance.

Compact Design

Lightweight & Portable

Its compact design makes it fits effortlessly into any bag or pocket, providing convenient fast charging wherever you go.

9-Layer of Safety

Professional Protection, Superior Safety

Featuring multi-layer protection, it delivers a professional charging performance, providing your devices with secure and reliable power for safe usage.

- Low-temperature Charging & Discharging Protection
- High-temperature Charging & Discharging Protection
- Input & Output Over Voltage Protection
- Under Voltage Protection
- Overcurrent Protection
- Short-circuit Protection
- Input & Output Short-circuit Protection
- Input & Output Under Voltage Protection
- Input & Output Overcurrent Protection

Dynamic Color Cube

Vibrant Color, Rich Texture

The laser glossy design gives it a sleek appearance, seamlessly combining functionality with style.

45W
GaN ULTRA SPEED

Best Choice For Laptop

GaN Tech | Ultra-compact Size | Multi-protection
Intelligent Device-detection | Extremely Fast Charging
Piano Baking Varnish Craft

PowerGaN 45
Charger OCW-E102D

AniFast™ Technology

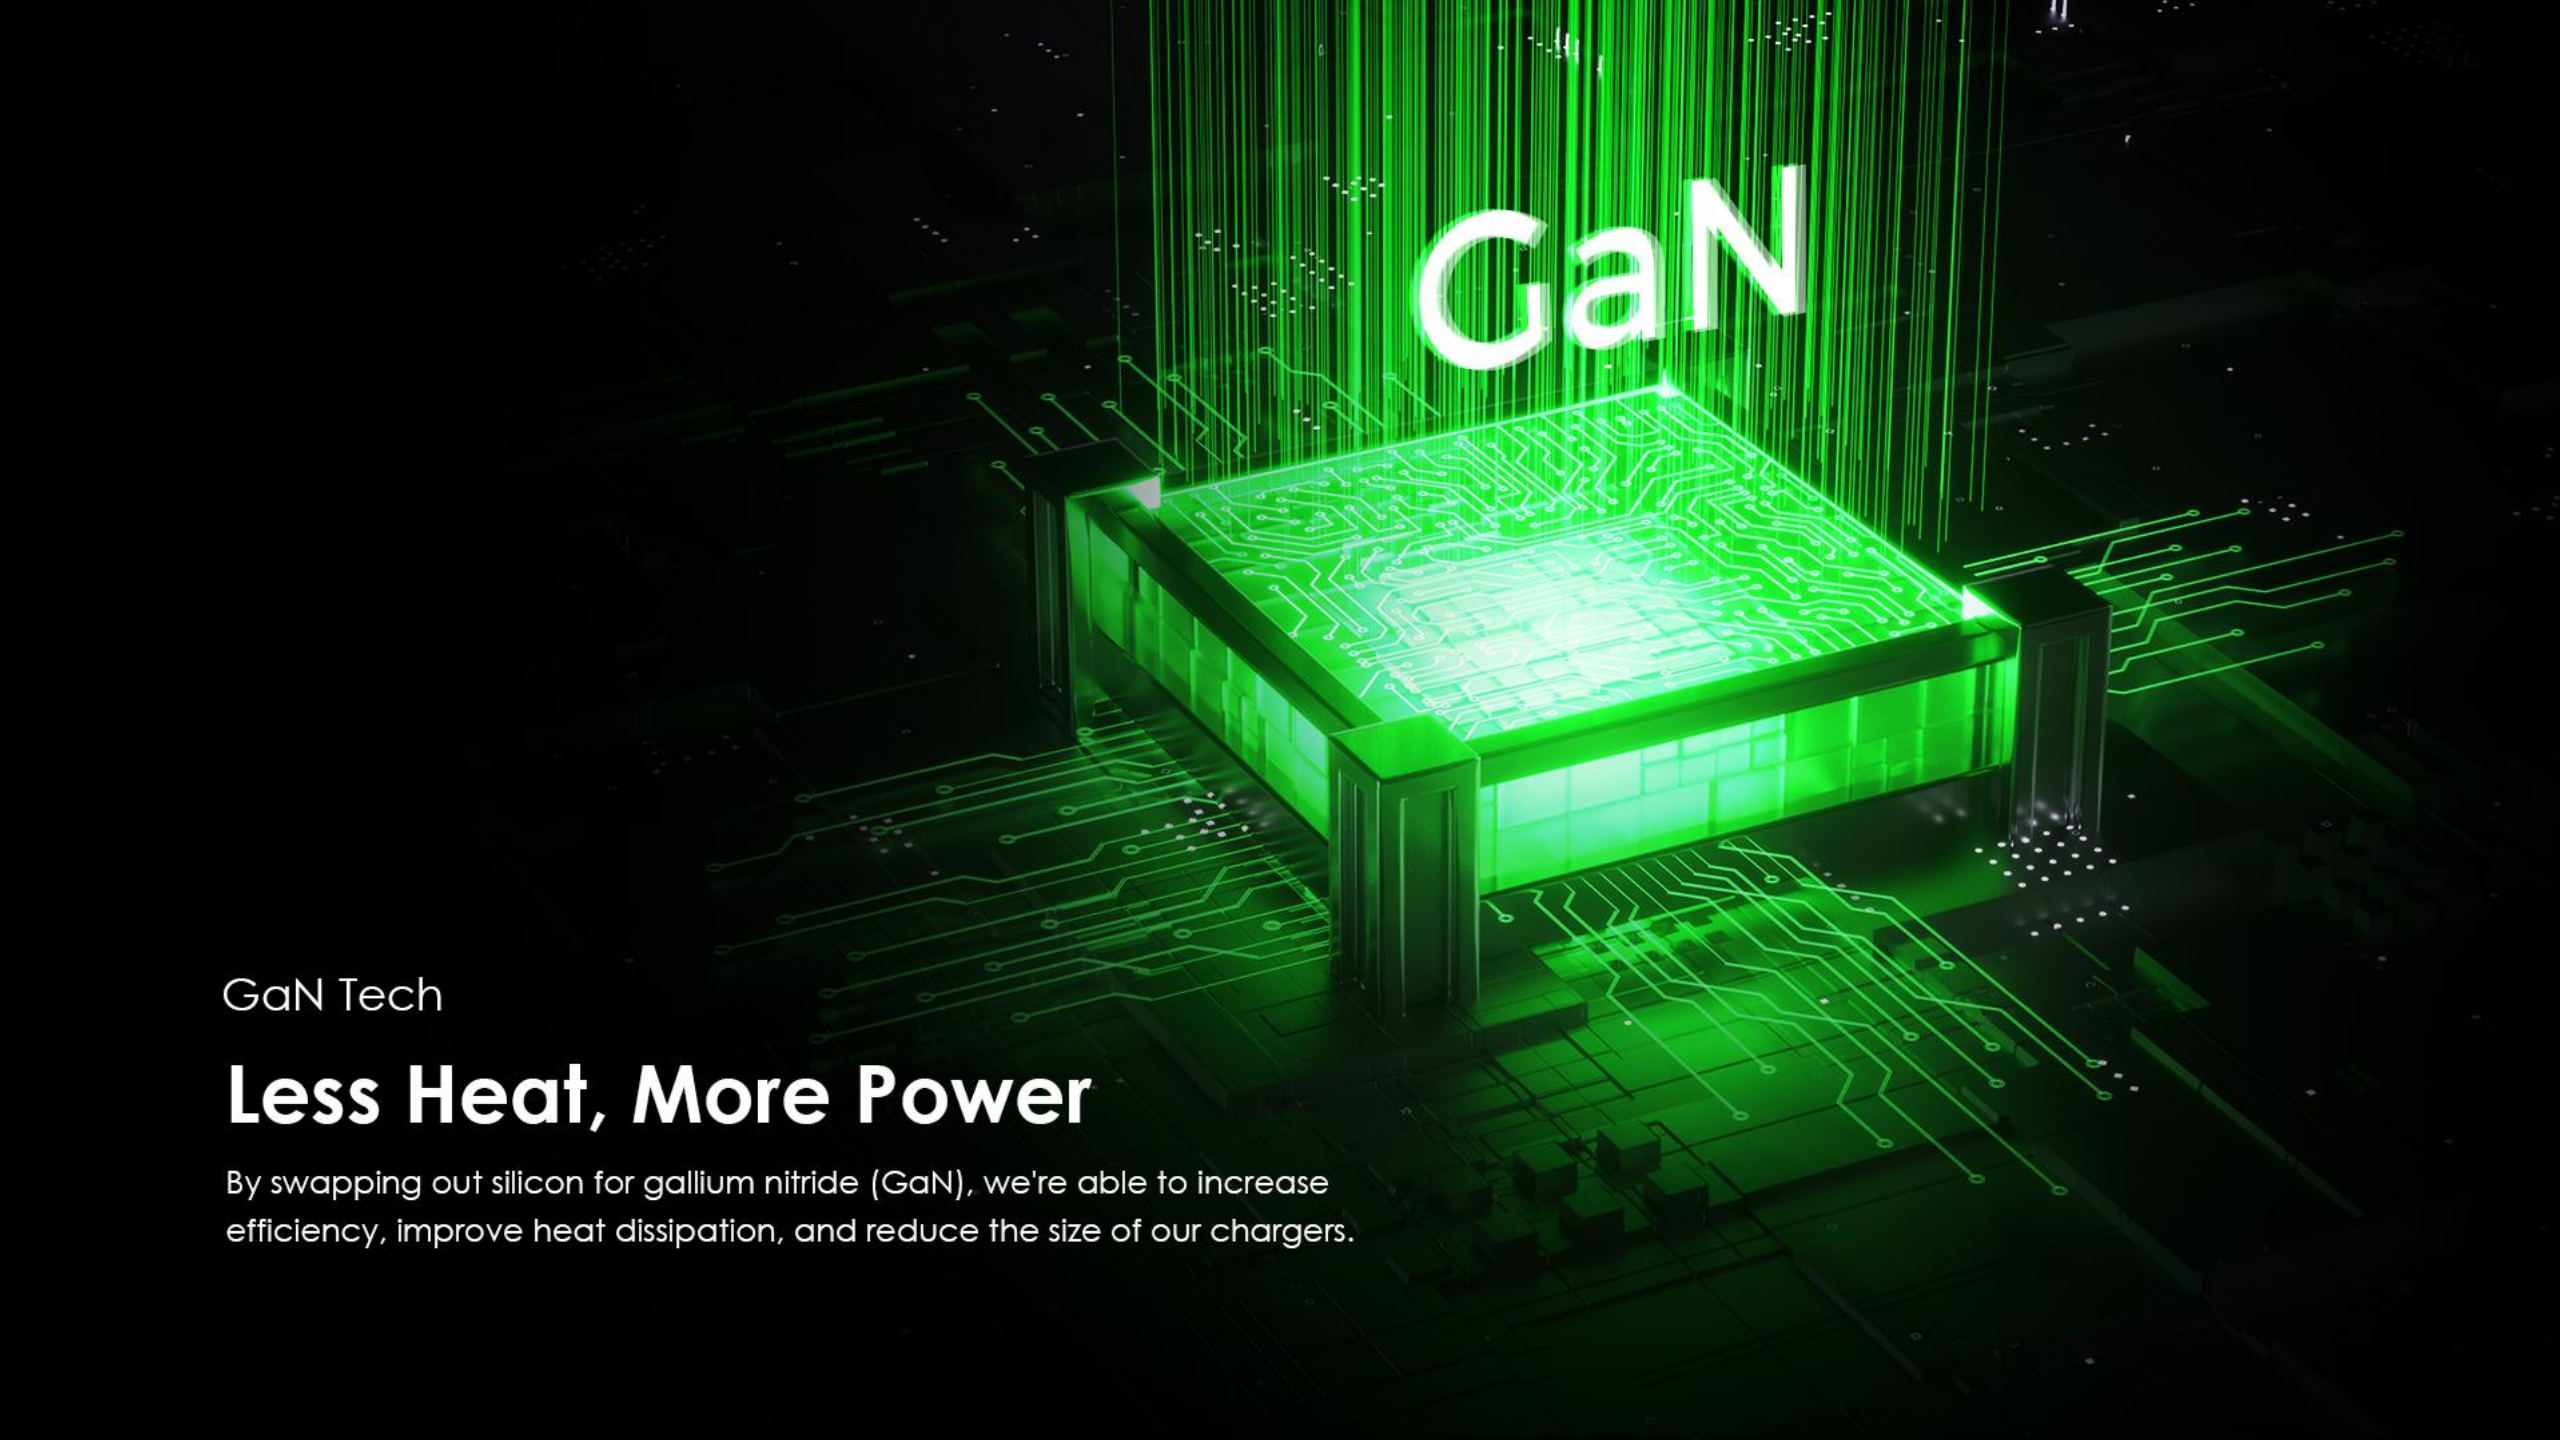
Charge Anything Faster

AniFast™ supports most charging protocols on the market and low-current mode, can quickly charge almost all your devices.

oraimo PowerGaN 45 — 70%

10W Wall Charger — 17.5%

* Charge iPhon14 in 30 mins test



GaN Tech

Less Heat, More Power

By swapping out silicon for gallium nitride (GaN), we're able to increase efficiency, improve heat dissipation, and reduce the size of our chargers.

From Earbuds to Laptop

Wide Compatibility

AniFast™ supports most charging protocol on the market and low-current mode, can quickly charge almost all your devices.

Ultra-compact Size

Space-saving Design

Incredibly compact size for enhanced portability. All this power comes installed in a pocket-friendly compact body, to go wherever the journey takes you.

Multi-protection

Safety Reliable

A combination of 6 safety features that work together to provide ultimate protection for you and your devices.

Temperature Resistance

Short Circuit Protection

Input Overvoltage Protection

Output Overvoltage Protection

Protection From Overcharge And Over Discharge

Output Overcurrent Protection

65W ULTRA SPEED
SUPPORTS LAPTOP CHARGING

AniFast™

- ***Triple Charging Port***
- ***5A Charging Speed***
- ***Multi-protection***
- ***Scratch & Smudge Resistant***
- ***65W GaN Tech***
- ***PD3.0 & QC3.0 Compatible***
- ***Improved Durability***

10.5W ANISHIELD™ CHARGING

Automatic Power Outage Protection | Real-time Breathing Light Monitoring
Convenient Switch Button | Smart Current Distribution | 2.1A Charging Speed

PowerShield C10 | OCW-E68S+C53 |

TYPE-C
With Free Fast Charging Cable

AniShield™
smart-protection tech

Automatic Power Outage Protection

Isolation of Charging Dangers

Equipped with oraimo's exclusive smart-charging protection technology——AniShield™.
It can monitor the voltage status of your devices in 300 times per second, and actively filters any potential dangers in real time. When the voltage fluctuation exceeds the maximum input of the charger, the charger will automatically disconnect the charging.

AniShield™
smart-protection tech

Convenient Touch Switch

Smart and Safe

When the voltage returns to normal situation, you can restart the powering by pressing the button. When ensuring more safety of usage, it can also make the service life of the charger longer.

Real-time Breathing Light Monitoring

Know Charging Security Status

The charging status can be monitored by the real-time status display of the breathing light.

Steady Green

Normal charging

Slow Flashing Green

Voltage fuctuation, charging continues

Fast Flashing Green

Charging disconnected

Note:
Press the button to reset if charging is disconnected

Smart Current Distribution

Get the Possible Fastest Charge

Equipped with oraimo's exclusive smart-charging technology AniFast™, PowerShield C10 can intelligently identify the fast-charging protocol of your devices to deliver the speediest possible charge.

10.5W Charging Speed

Strong Case with Fast Charge

The small size does not affect the charging speed. PowerShield C10 can restore power to your device at the fastest speed of 2.1A.

38W

Firm and Uninterrupted Power

Durable and Reliable

The metal shrapnel at the bottom can lock the cigarette lighter from being damaged. The snap-on shrapnel connections are stable and elastic, allowing for continuous power transmission to the devices despite changing traffic conditions.

Compact Size

Smaller and Lighter

The thumb-sized design does not take up space, suitable for most vehicles with 12V/24V sockets.

Universal Compatibility

Meet Different Needs

Compatible with Apple and Android smart phones, tablets and other USB-charged devices. Bullet 38 car charger is applicable to sedan and other off-road vehicles.

Multi-protection

Superior Safety

Surge protection, temperature control and more advanced safety features provide safety of your favourite cars and gadgets.

6-IN-1 POWER EXPANSION CUBE

20W Smart Fast Charging | Multi-ports Charging
High Security | Small and Portable

PowerHub C | OWS-U342 |

AniFast™
smart-charge tech

Multi-ports Charging

Charge 6 Devices at A Time

Its vertical and integrated design allows you to use 6 charging ports simultaneously without being obstructed by other cords or plugs.

3 AC outlets

2 USB-A outputs

1 Type-C output

Small and Portable

Charge Your Device Anywhere

It won't take too much space for using. You could use it on office, bedroom, or take it for travel.

20W Smart Fast Charging

Powered by AniFast™ Technology

Supported by AniFast™ Technology, PowerHub C can power your devices at the maximum speed of 20W. AniFast™ technology can instantly identifies any connected device and adjusts the power for giving you the speediest charging speed.

High Security

Give You All-round Charging Protection

Its flame retardant material has highest fire-proof rating of V0 and the liquid silicone rubber inside improves the stability of components, which provides a secure protection under full-load work and high temperature condition.

HOME APPLIANCE PROTECTION FOR SAFER HOME

Smart Power Control I Surge Lightning Protection
Voltage Stabilization I Flame Retardant Housing

SafeVolt | OWS-301U

Smart Power Control

Smarter Power, Safer Home

Designed for modern homes, SafeVolt intelligently manages power output to protect connected appliances, delivering consistent energy for daily use and smart home setups.

Surge Lightning Protection

Defend Against Power Spikes

Built to withstand sudden power surges and lightning strikes, SafeVolt helps prevent unexpected electrical damage, keeping your valuable appliances protected in extreme conditions.

Fridge

Washing Machine

Air Conditioner

DVD Player

Voltage Stabilization

Consistent Power Everyday

SafeVolt ensures a steady power flow even during voltage fluctuations, reducing power interruptions and extending the lifespan of connected home appliances.

Flame Retardant Housing

Lower Fire Risk

Constructed with flame-retardant materials, SafeVolt withstands temperatures of up to 750°C, reducing fire risks caused by overheating or electrical faults and adding an extra layer of safety for your home.

900 Lumens LED Tube Lights

Goodbye, Darkness

Brightness: **900 Lumens**
90X Brighter Than A Kerosene Lamp
LED Lifespan: **50,000 Hours**
Illumination Time: **24 Hours**

Low Level (1 tube) — Up to 24 hrs

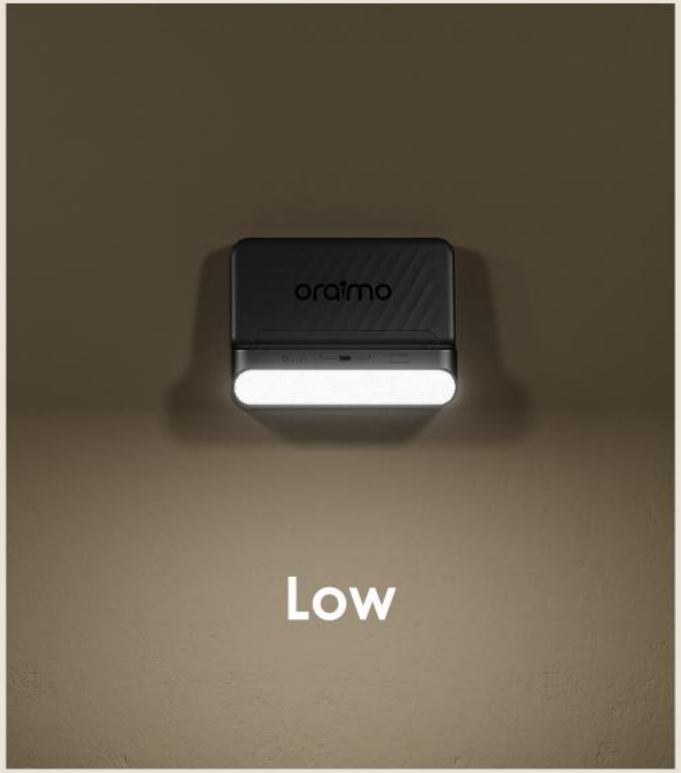
Medium Level (2 tubes) — Up to 9 hrs

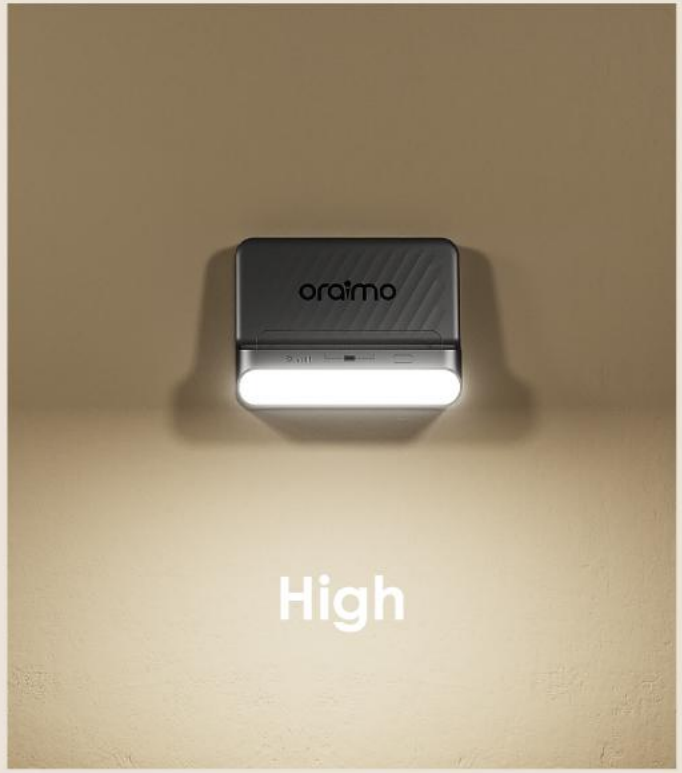
High Level (3 tubes) — Up to 6 hrs

3W Wall Light

Keep the Lights On 365 Days A Year

The Control Panel of PowerSolar 38 can serve as a wall light during emergency. With 3 levels of brightness: low, moderate and high, and a metal wall bracket attached, you can easily hang the Control Panel against the wall and it will light your home during a power outage, keeping lights on 365 days a year.





3 Ports for Phone Charging

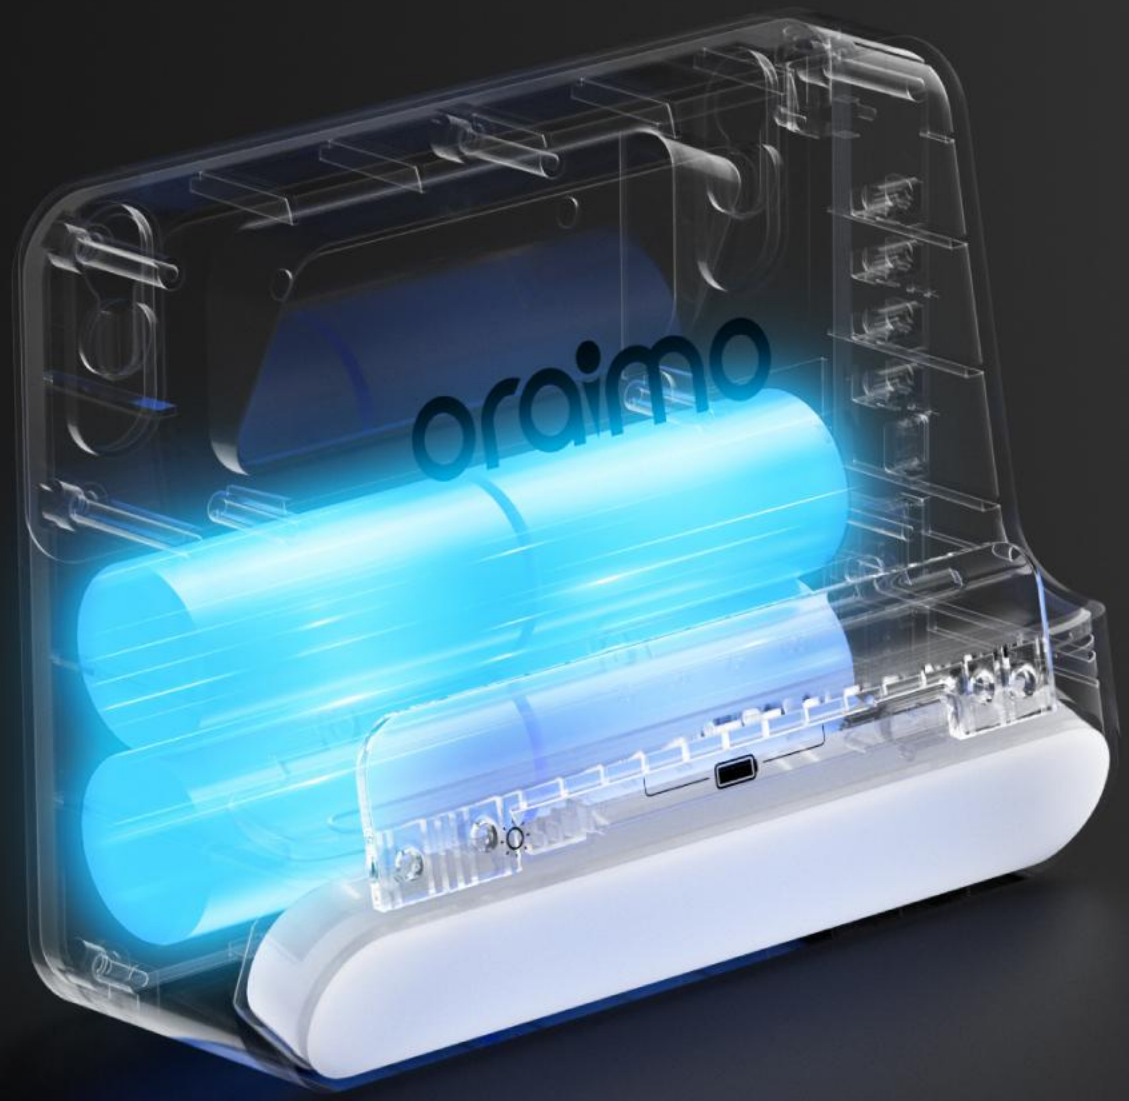
A Solid Charging Station for Multiple Devices

There are 2 USB ports and 1 Type-C port on the Control Panel for simultaneously charging 3 devices. It juices up not only power banks but also your smartphones, flashlights, etc. The attached groove design allows you to properly place your mobile phone while charging.

12W Solar Panel & 38.4Wh Battery Control Unit

Fast Recharge in 2 Ways & Built to Last

oraimo solar panel adapts two fast recharge ways: it can be fully recharged in 4-6 hours by solar charging, and 4 hours by AC adaptor charging, at least 15% more efficient than competitors. Made in polycrystalline and stands with an aluminium frame, the 12W Solar Panel having up to 25-year service life helps protect the battery from over-charge, over-voltage, discharge, and reverse polarity.



Same Battery As Tesla Car: LiFePO4

Maintenance-free for A Decade

Using the same chemical makeup as Tesla batteries, the oraimo Power-Solar 38 has an expected lifespan of around 3000 cycles, which is 10 times more than its competitors. This solar home power system can be safely used for approximately 10 years*.

3000 Battery Cycles, 10-year Lifespan

oraimo PowerSolar 38

3000 Battery Cycles

10X Longer Cycles

its competitors

200 Battery Cycles

*If used once a day.

Effortless Power

Power Your Home with Solar Energy

Effortlessly install the Battery Control Unit and Solar Panel to gain a reliable source of power for lighting, mobile devices, and home appliances like standing fan and 19" DC TV. Step into a brighter, greener future in the comfort of your home.

900 Lumens LED Tube Lights

Goodbye, Darkness

The three comprehensive LED tubes consume the stored sunlight energy and add light to your home in power outages. 900 lumens tubes provide a decent and constant bright, lighting up your stores, barns, sheds, and gyms, and you pay zero for electricity.

Brightness of the Tube Lights: **900 Lumens**
90X Brighter Than A Kerosene Lamp
LED Lifespan: **50,000 Hours**

The Illumination Time Supported by PowerSolar 76:

1 tube light: 45 hours

2 tube lights: 22 hours

3 tube lights: 15 hours

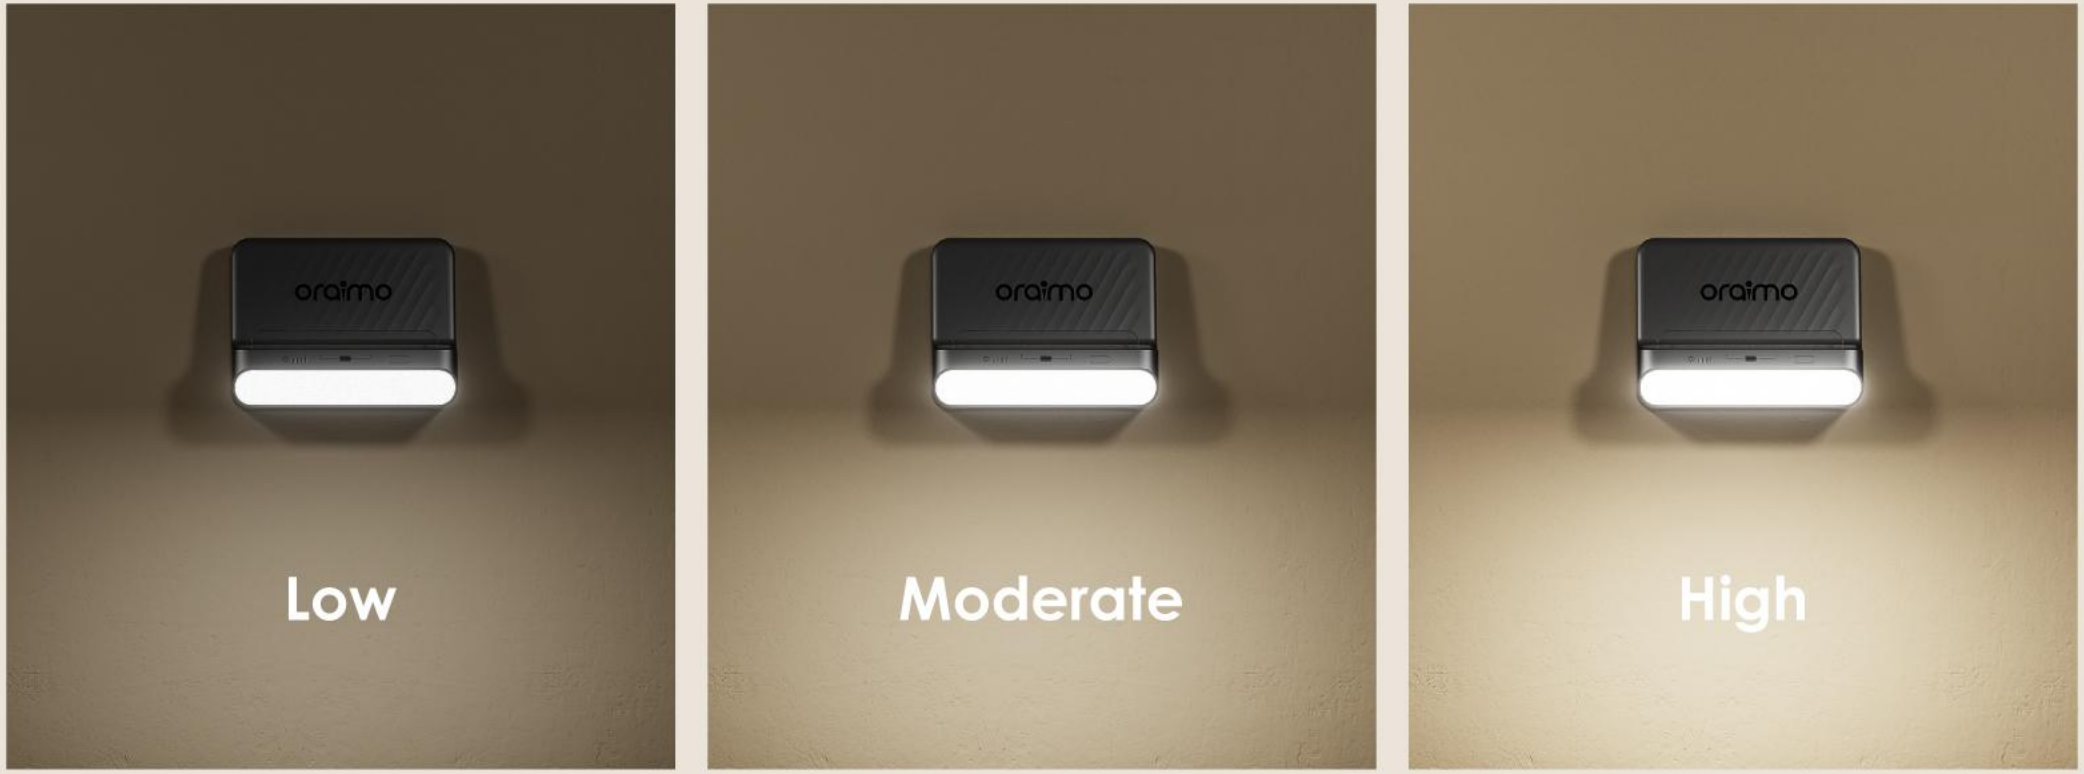
3W Wall Light

Ensuring Lights Stay on 365 Days A Year

The Battery Control Unit of PowerSolar 76 can serve as a wall light during emergency. It offers three brightness levels—high, medium, and low. It comes with a metal wall bracket for easy mounting.



*Illuminating time can up to 30 hours under the low brightness conditions.

3 Ports for Phone Charging

A Robust Charging Hub for Multiple Devices

There are 2 USB ports and 1 Type-C port on the Battery Control Unit for simultaneously charging 3 devices. It juices up not only smartphones but also your powerbanks, earbuds, etc. The attached groove design allows you to properly place your mobile phone while charging.

A Standing Fan with 3-Speed Mode

Eco-smart and Efficient Solution for Your Cooling Needs

The oraimo Standing Fan features 3-speed modes for customized cooling. With wind speeds of up to 5m/s, it provides a refreshing breeze in any setting. Powered by a long-life brushless DC motor, this fan runs for up to 15 hours on low speed when connected to the PowerSolar 76.

The running time of the fan that powered by PowerSolar 76

Low-speed Mode:	15 hours
Medium-speed Mode:	10 hours
Turbo-speed Mode:	8 hours

How does a Home Power System Work ?

IMMEDIATE RESPONSE TO POWER SHORTAGES

The combination of Solar Gel Battery and Hybrid Inverter creates a Home Power System, capable of providing instant power during outages.

*Please note Hybrid Inverter is not included in the package and needs to be purchased separately.

Hybrid Inverter:

Converting the stored DC power from the Solar Gel Battery into AC power, which is compatible with most home appliances.

Solar Gel Battery:

Serves as a dependable backup when power disruption occurs, providing an uninterrupted power supply to ensure your home remains powered at all times.

*The images of the Solar Gel Battery and Hybrid Inverter are for illustration purposes only and do not represent the actual dimensions of the product.

Ultra-Long Lifespan

Built to Last

PowerHouse B100 is designed to maintain stable operation even when discharged up to 70% of its capacity. It can complete an astonishing 1200 charging and discharging cycles under such conditions.

100Ah Capacity

Say Goodbye to Power Shortage

With a robust 100Ah capacity, it has enough juice to meet all your home appliances or workplace electricity needs.

High Discharge Rate

Rapidly Unleash Powerful Energy

It can deliver a large amount of energy in a short period of time, making it ideal for high-power home appliances, emergency backup systems or electric vehicles.

12V/100Ah/10Hr
VRLA-AGM-GEL
Recommended Charging Voltage and Current settings
Float Voltage: 13.5-13.8 Volts per module @27°C
Boost Voltage: 14.4-14.7 Volts per module @27°C
Charing Current: Min 10% of Battery Capacity

RATED 3.2KW OUTPUT OF PURE SINE WAVE

HYBRID INVERTER

Power Factor 1.0 | Built–in MPPT Intelligent Solar Charge Controller
Adapts to Mains Electricity and Generator Voltage | 2 Times Peak Load Capacity
Adaptive Battery Charging Curve

PowerHouse I32 | OIR-5321 |

How does a Home Power System Work?

The combination of Solar Gel Battery and Hybrid Inverter creates a Home Power System, capable of providing instant power during outages.

*Please note Solar Gel Battery is not included in the package and needs to be purchased separately.

*The images of the Solar Gel Battery and Hybrid Inverter are for illustration purposes only and do not represent the actual dimensions of the product.

Solar Gel Battery:

Serves as a dependable backup when power disruption occurs, providing an uninterrupted power supply to ensure your home remains powered at all times.

Hybrid Inverter:

Converting the stored DC power from the Solar Gel Battery into AC power, which is compatible with most home appliances.

Conserve Energy, Prioritize Green Power, Smart Switching

Peak Shaving & Valley Filling of Power Consumption

The inverter provides power from the battery or photovoltaic panel during peak electricity demand periods, and charges the battery during off-peak periods for standby use.

Emergency Backup Power

Avoid the Hassle of Power Outages

When a power outage or grid failure occurs, the inverter switches to battery or solar power inversion to provide electricity. This feature is very useful for handling unforeseen circumstances, ensuring that your daily life and work are not interrupted.

Utility Power

Utility Power Outage

Hybrid Inverter + Solar Gel Battery

Automatic UPS Activation

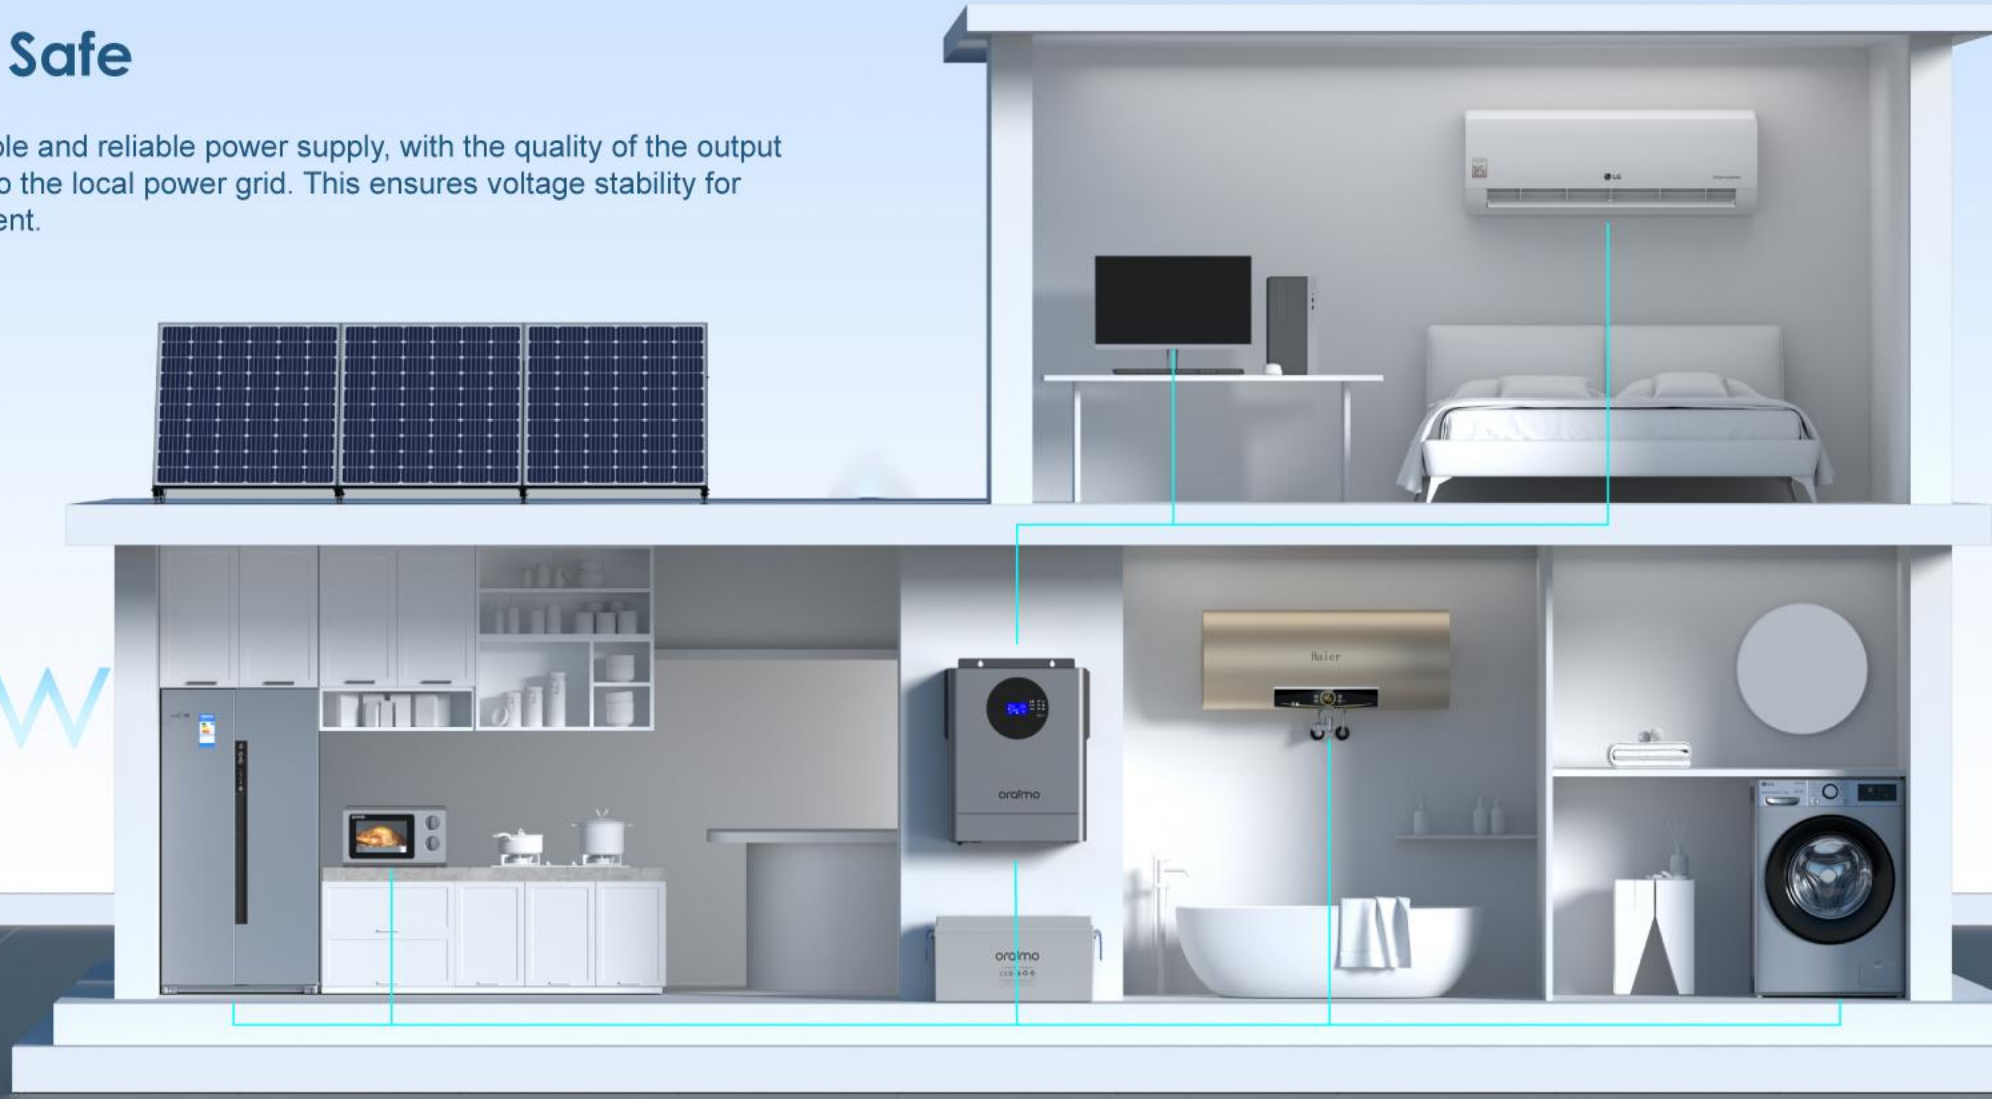
Home Appliance

3.2kw Output of Pure Sine Wave

Reliable and Safe

The inverter provides a stable and reliable power supply, with the quality of the output voltage harmonic superior to the local power grid. This ensures voltage stability for important electrical equipment.

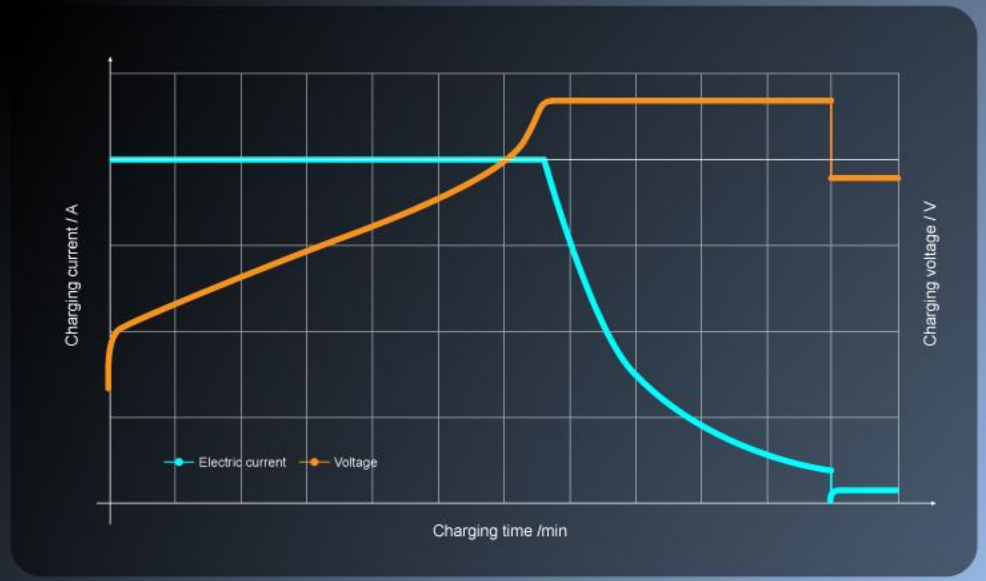
3.2kw



Built-in Intelligent Solar Charging Controller

Customized Charging Curve Charging

The inverter has an advanced solar charging control system to improve the efficiency of solar energy utilization. It can intelligently adapt to battery characteristics and customize the charging curve, significantly extending the battery's cycle life.



Compatible with Power Grid and Generator

Wide Compatibility

The inverter has a wide input voltage range and strong frequency adaptability, suitable for power grid voltage fluctuations and generator output characteristics.

170-280VAC

Smart Delay AC Reconnection

Intelligent Reconnection Strategy

After a grid failure or power interruption, the hybrid inverter doesn't instantly reconnect to the grid. It will wait for a period of time to ensure that the grid status is stable before reconnecting to protect the hybrid inverter and grid, and enhance system efficiency.

2 Years Warranty

This product is backed by a two-year warranty. Please keep your receipt, the terms and conditions of warranty only apply to original purchase of oraimo products. How does a Home Power System Work?

Immediate Response to Power Shortages

The combination of Solar Gel Battery and Hybrid Inverter creates a Home Power System, capable of providing instant power during outages.

*Please note Solar Gel Battery is not included in the package and needs to be purchased separately.

Hybrid Inverter:

Converting the stored DC power from the Solar Gel Battery into AC power, which is compatible with most home appliances.

Solar Gel Battery:

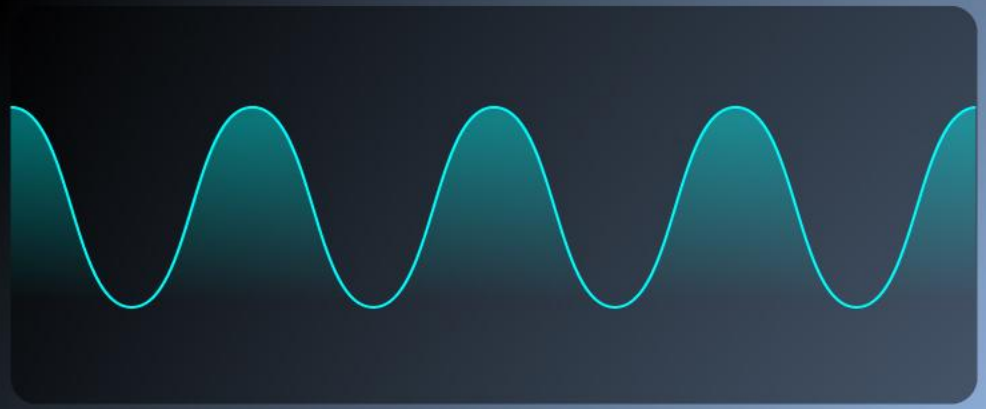
Serves as a dependable backup when power disruption occurs, providing an uninterrupted power supply to ensure your home remains powered at all times.

*The images of the Solar Gel Battery and Hybrid Inverter are for illustration purposes only and do not represent the actual dimensions of the product.

Pure Sine Wave Output

High Efficiency and Safety

Hybrid inverter utilize sine wave output for its continuity and superior energy efficiency, reducing harmonic distortion and offering better protection for important electrical equipment.



Peak Shaving and Valley Filling of Power Consumption

Conserve Energy, Prioritize Green Power, Smart Switching

The hybrid inverter provides power from the solar gel battery or solar panel during peak electricity demand periods, and charges the solar gel battery during off-peak periods for standby use, optimizing energy efficiency.

Emergency Backup Power

Uninterrupted Power Supply

When a power outage or grid failure occurs, the hybrid inverter switches to solar gel battery or solar power inversion to provide electricity. This feature is very useful for handling unforeseen circumstances, ensuring that your daily life and work will not be interrupted.

Utility Power

Utility Power Outage

Hybrid Inverter + Solar Gel Battery

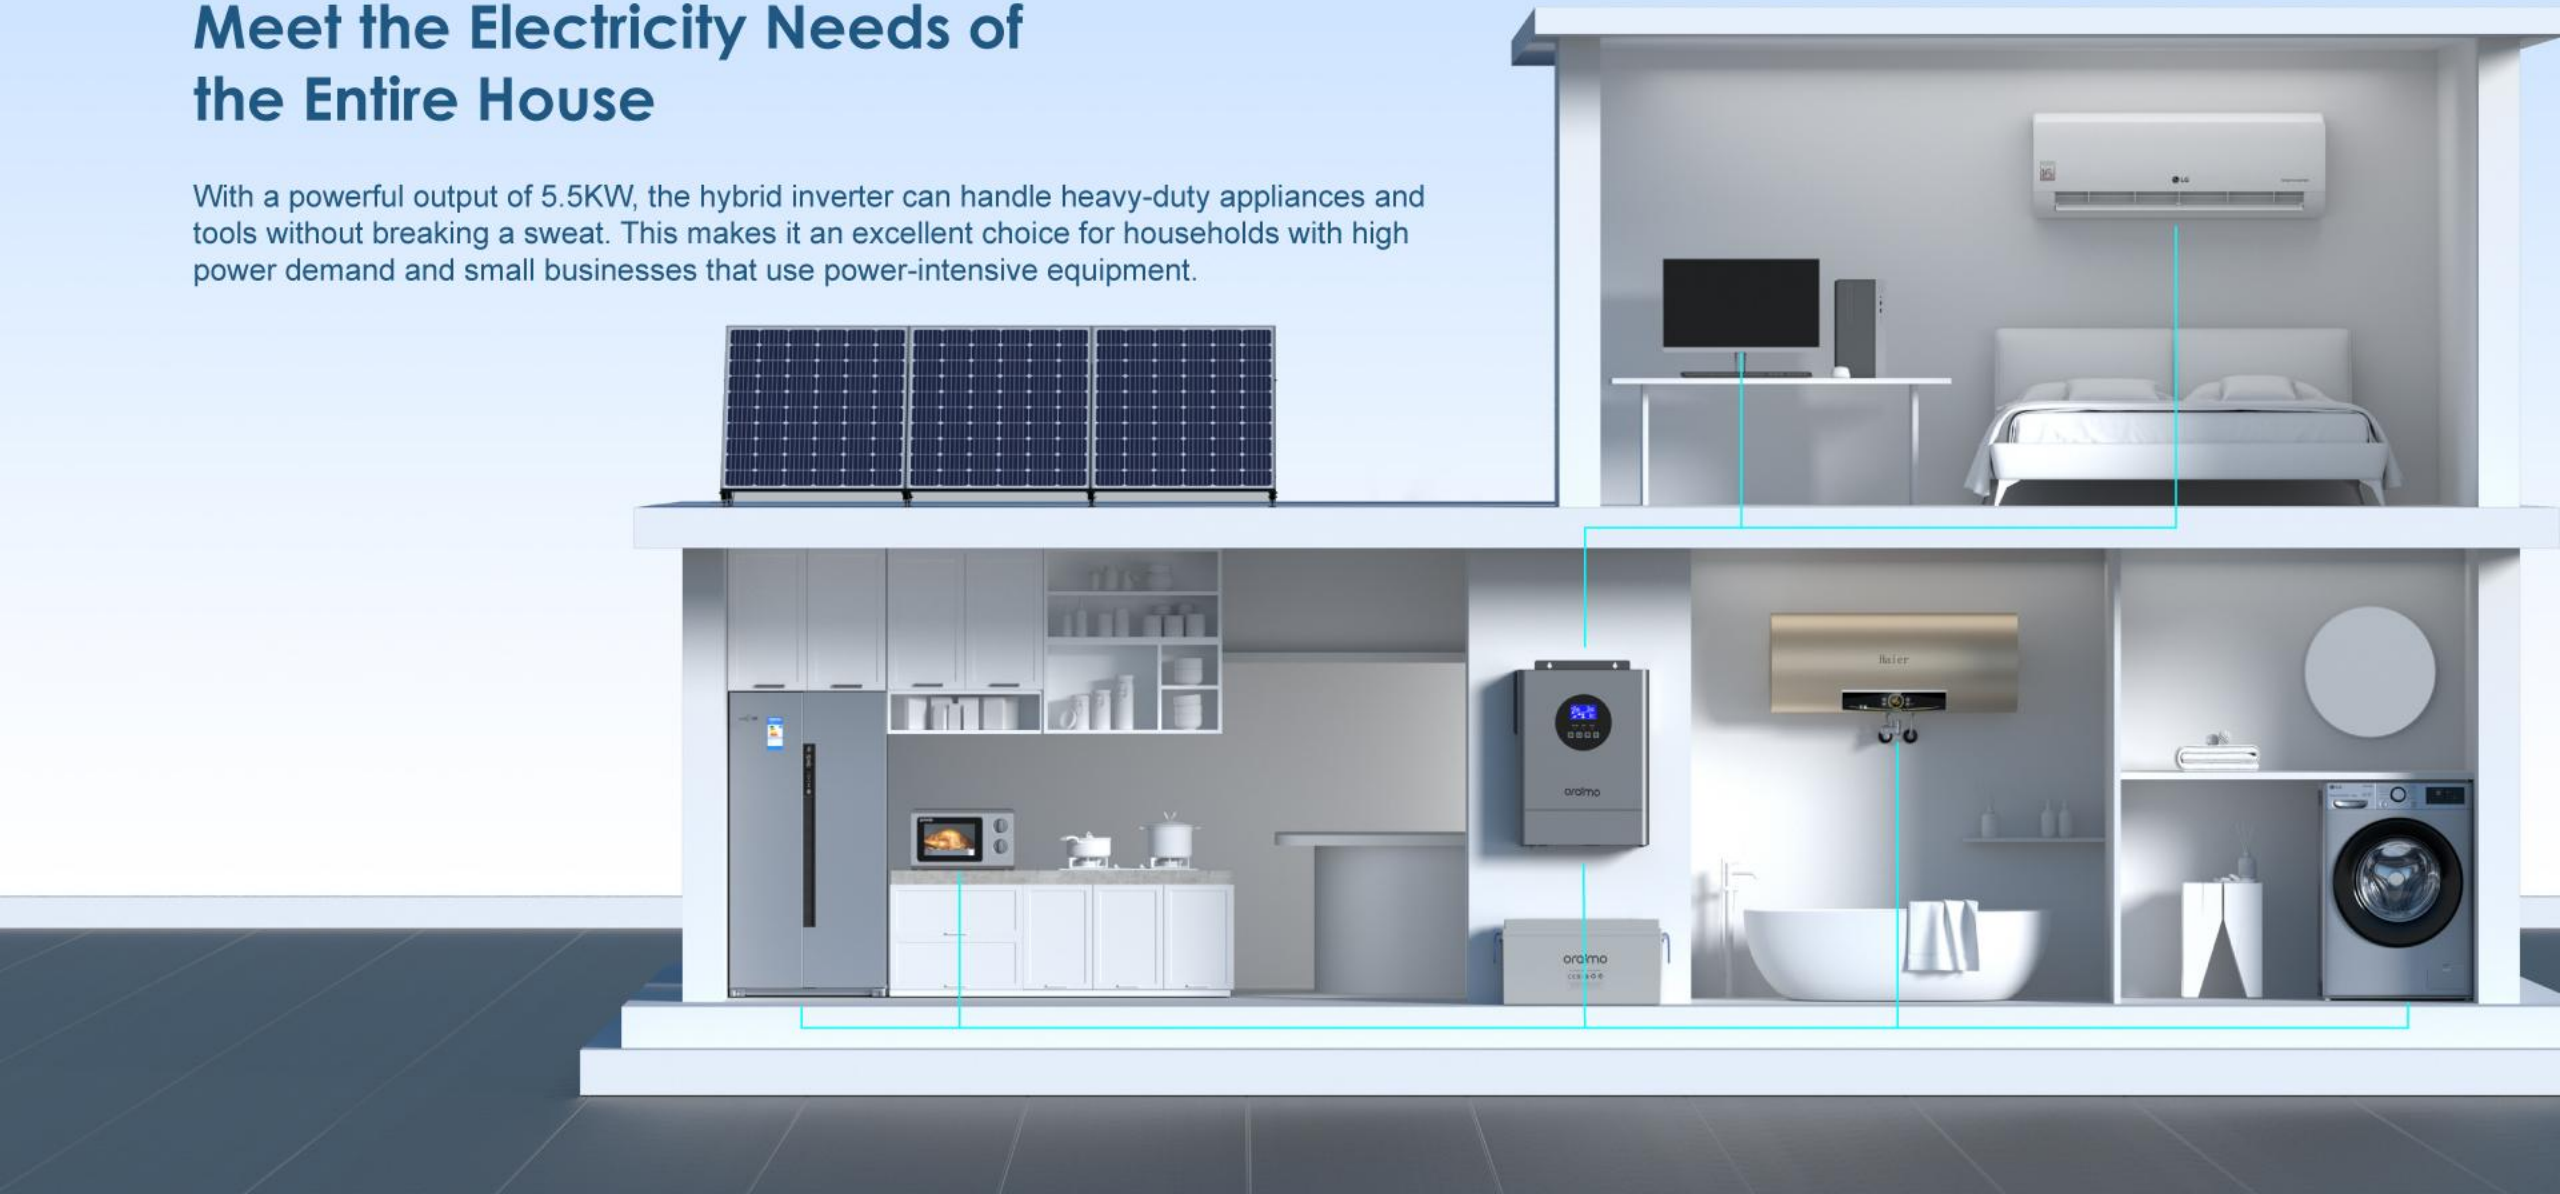
Automatic UPS Activation

Home Appliance

Stable 5.5KW Output

Meet the Electricity Needs of the Entire House

With a powerful output of 5.5KW, the hybrid inverter can handle heavy-duty appliances and tools without breaking a sweat. This makes it an excellent choice for households with high power demand and small businesses that use power-intensive equipment.



Compatibility with Power Grid and Generator

Wide Compatibility

The hybrid inverter has a wide input voltage range and strong frequency adaptability, suitable for power grid voltage fluctuations and generator output characteristics.

170-280VAC

Wide PV Input Range

Maximize Your Solar Energy Utilization

Hybrid inverter accepts varying voltage outputs from different types and brands of solar panels, choosing the optimal working state based on current voltage, thereby boosting the entire solar power system's efficiency.

Multiple Interface Options

Ease of Use

Since RS232 and RS485 interface are on hybrid inverter, they are universal communication standards, so users can connect the hybrid inverter to various devices and systems without worrying about compatibility issues.

Smart Delay AC Reconnection

Intelligent Reconnection Strategy

After a grid failure or power interruption, the hybrid inverter doesn't instantly reconnect to the grid. It will wait for a period of time to ensure that the grid status is stable before reconnecting to protect the hybrid inverter and grid, and enhance system efficiency.

MAGNETIC TANGLE-FREE CABLE

Type-C to Lightning Data Cable

Magnetic Storage | 20W Fast Charging
Wide Compatibility | Designed for Durability

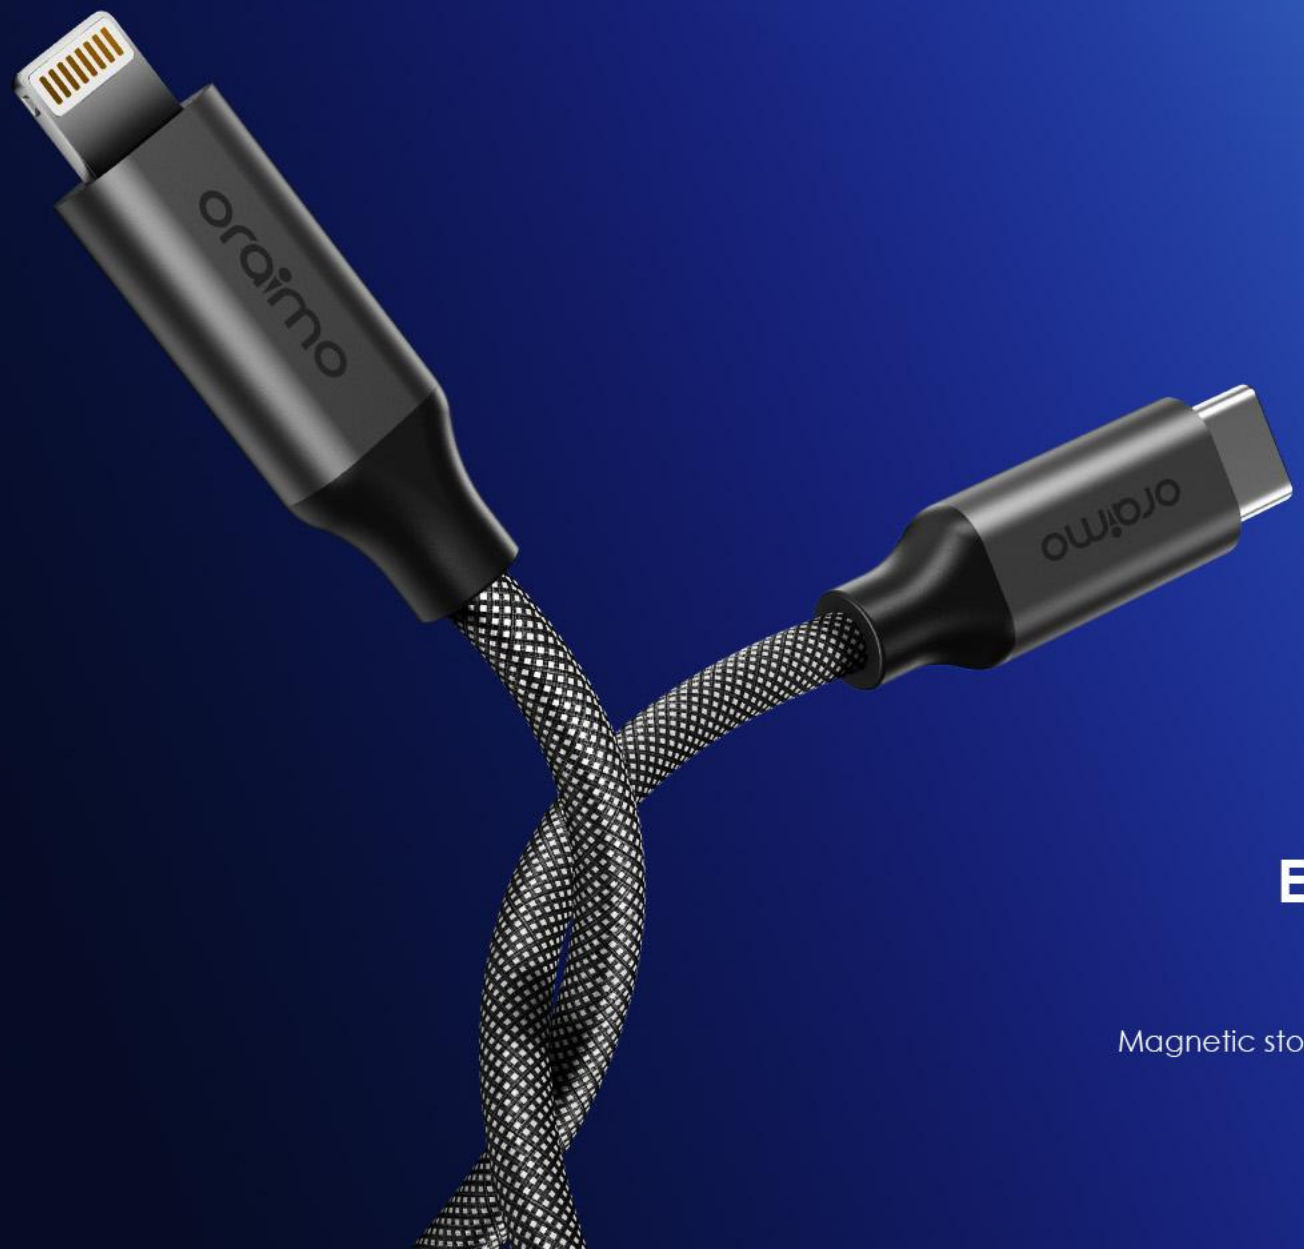
MagCable | OCD-710CL

Magnetic Storage

20W Fast Charging

Designed for Durability

480Mbps High-Speed Data Transfer



Magnetic Storage

Easy to Retract and Release, No Tangles

Magnetic storage for a tangle-free, organized experience anywhere.

20W Fast Charging

Fast Charging, Free to Go

Charge an iPhone 14 to 50% in just 30 minutes with MagCable,
when used with a fast charger or the original adapter.

480Mbps High-Speed Data Transfer
Transfer 1GB File in 24s
It supports charging and transmission at the same time.
MacBook Pro
480Mbps

Built-In E-Marker Chip

Smart Charging, Total Protection

The built-in E-Marker chip intelligently adjusts voltage and current for each device, preventing overcharging while ensuring stable, safe, and efficient power delivery.

480Mbps Data Transfer

Sync Instantly, Work Efficiently

Supporting data speeds up to 480Mbps, RobustLine allows fast syncing of photos, videos, and files, making it ideal for work, study, and daily use.

Improved Durability Design

Strong, Reliable, Long-Lasting

Designed with reinforced cable structure and strengthened connectors, the RobustLine data cable resists daily bending and pulling, ensuring long-lasting and reliable performance.

PD3.0 & QC4.0+ Support

One Cable, All Devices

With PD3.0 and QC4.0+ support, the Type-C to Type-C cable automatically recognizes connected devices, delivering optimized fast charging across phones, tablets, and laptops.

Built-In E-Marker Chip

DigiLine | OCD-175CC

100W
Ultra-Fast Power

100W Ultra-Fast Power

Power in Seconds, Speed without Limits

Experience ultra-fast charging with a 100W power output, delivering efficient energy transfer for laptops, tablets, phones and other electronic devices.

Smart Digital Display

Know Your Charging Speed Instantly

Easily track real-time charging power with a bright digital display, ensuring you always get the fastest and safest charge for your device anytime, anywhere.

Real-Time Digital Display

Space Capsule Zinc Alloy

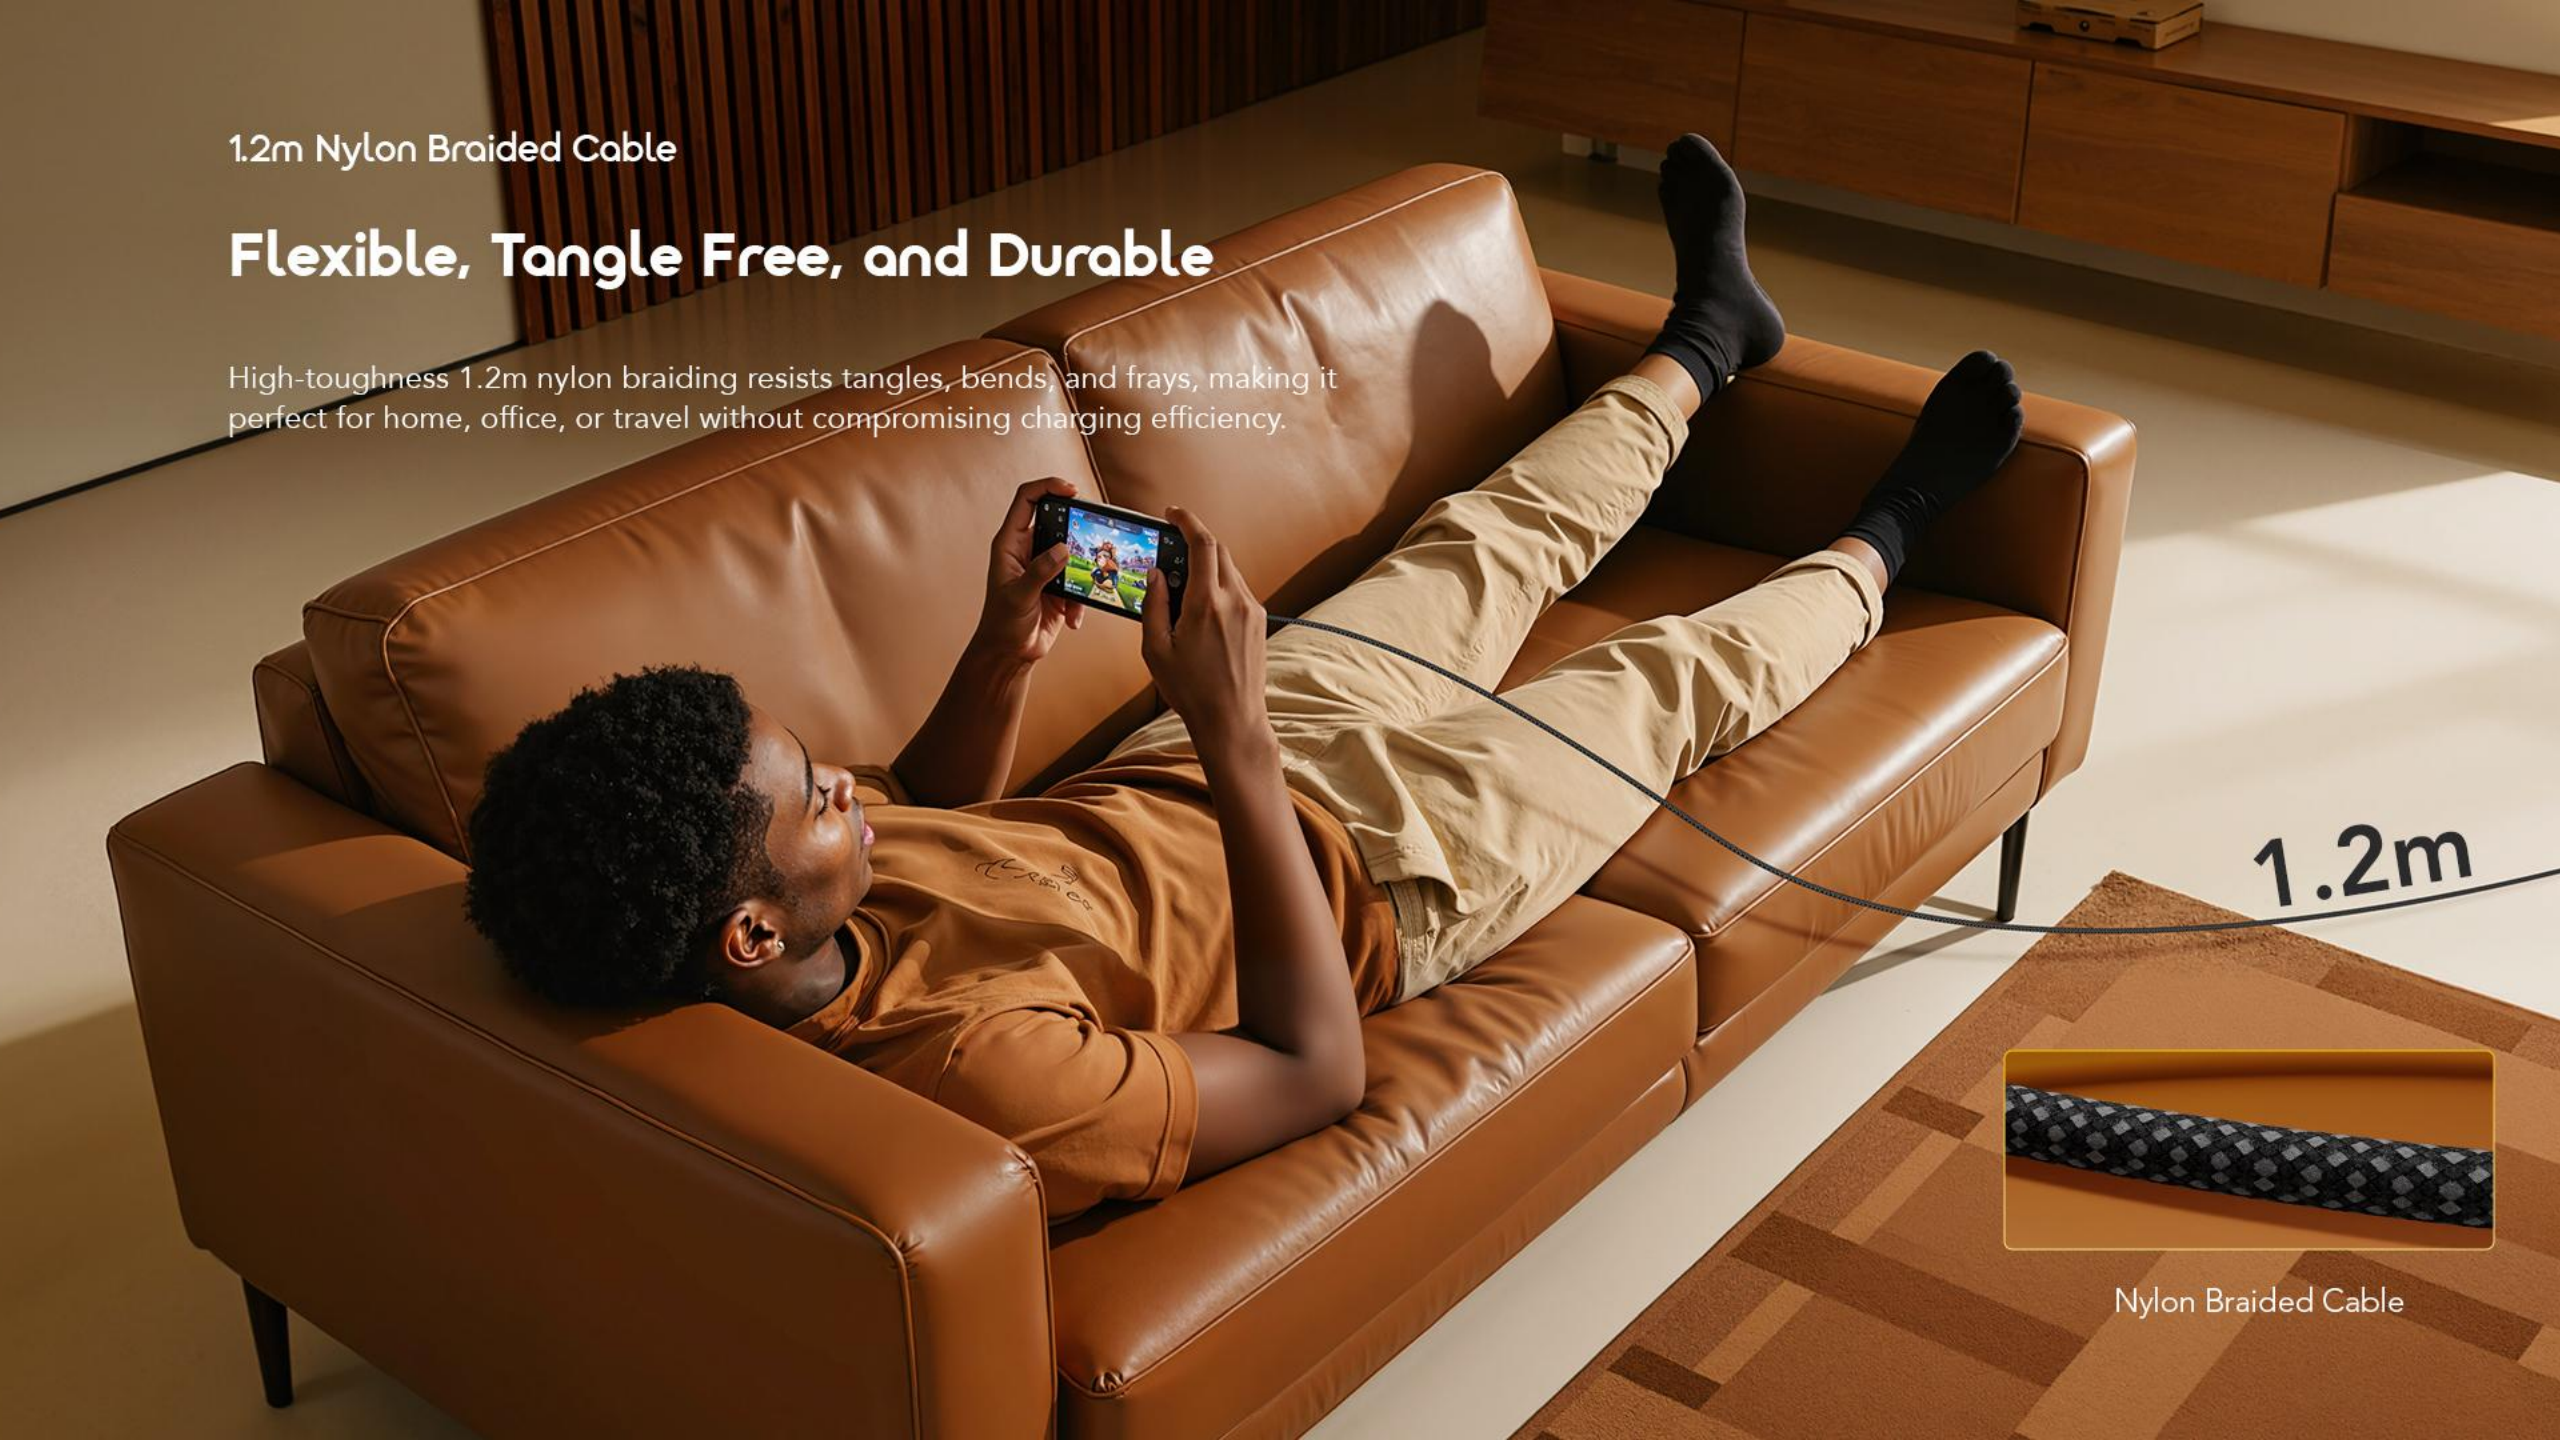
Strong, Stylish, and Built to Last

Futuristic transparent capsule design combined with zinc alloy housing offers durability and style, protecting connectors from wear while adding a premium look to your setup.

1.2m Nylon Braided Cable

Flexible, Tangle Free, and Durable

High-toughness 1.2m nylon braiding resists tangles, bends, and frays, making it perfect for home, office, or travel without compromising charging efficiency.



Built-In E-Marker Chip

Smart, Safe, and Widely Compatible

The advanced E-Marker chip automatically identifies devices and optimizes power for PD3.0 and QC4.0+, ensuring safe, fast charging across a wide range of electronics.

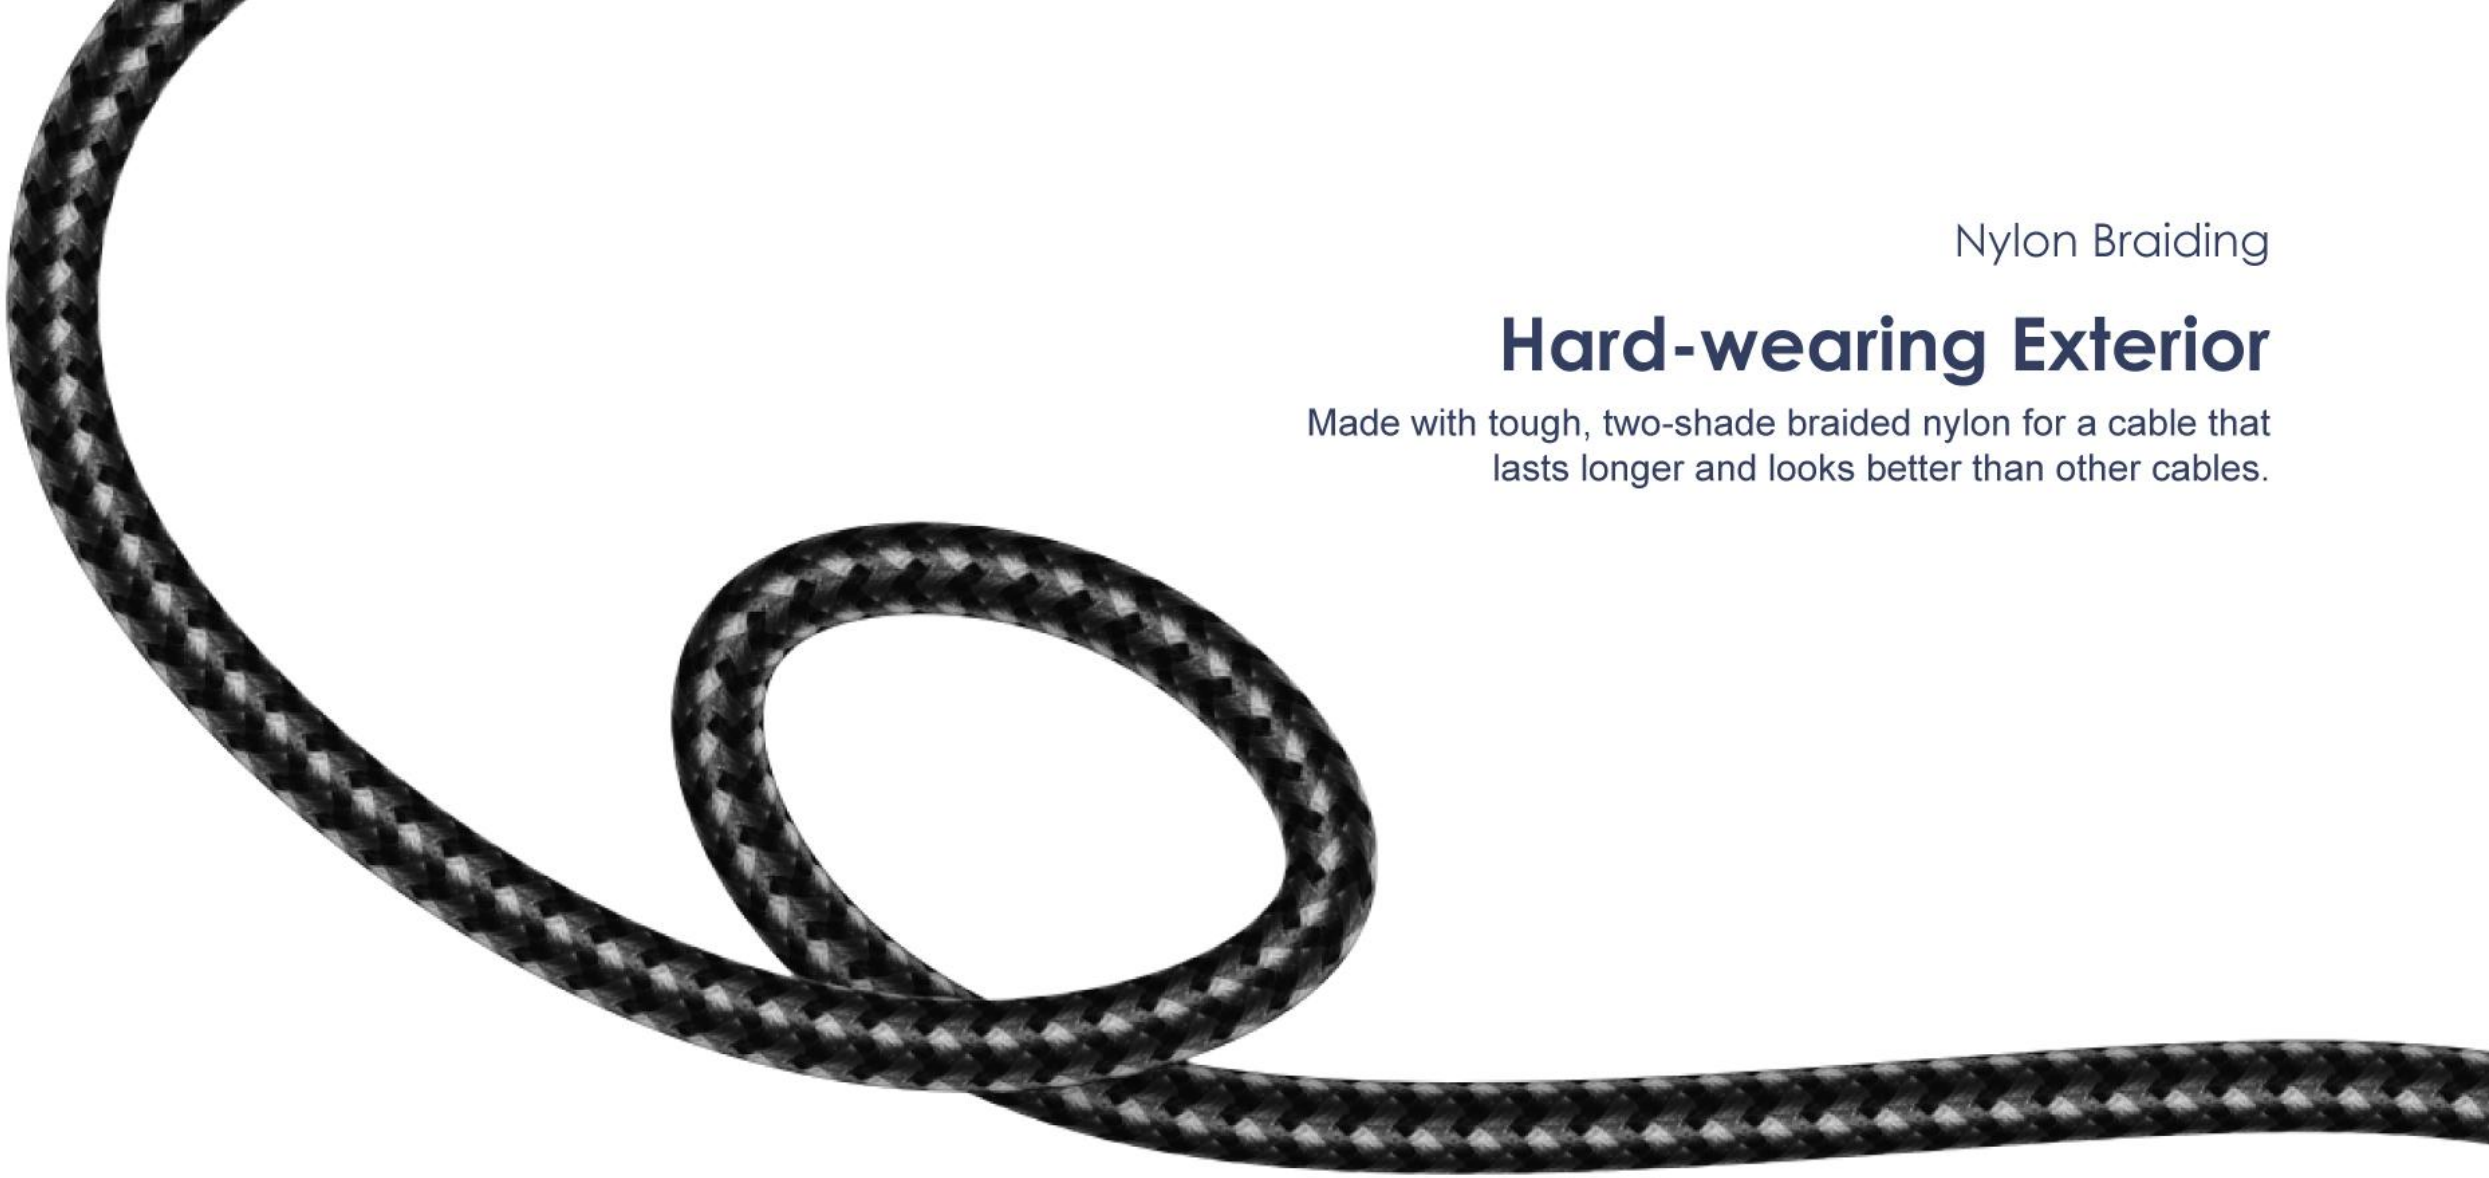
TYPE-C DATA CABLE
Ultra-strong Metal Plug | 3A Fast Charging | High-speed Syncing
Nylon Braiding | Improved Durablity
SolidLine
OCD-C72

Ultra-strong Metal Plug
Practical and Convenient
Gold-plated connectors that resist corrosion for signal purity
and a smaller connector designed to fit tight spaces.

3A Faster Charging and Syncing

High-speed Data Transfer

The Type-C cable is made of 3A seamless end tip with built-in 56kΩ pull-up resistor. SolidLine supports 3A fast charging and 480Mbps data transfer rate syncing, satisfies high efficiency in charging your devices.



Nylon Braiding

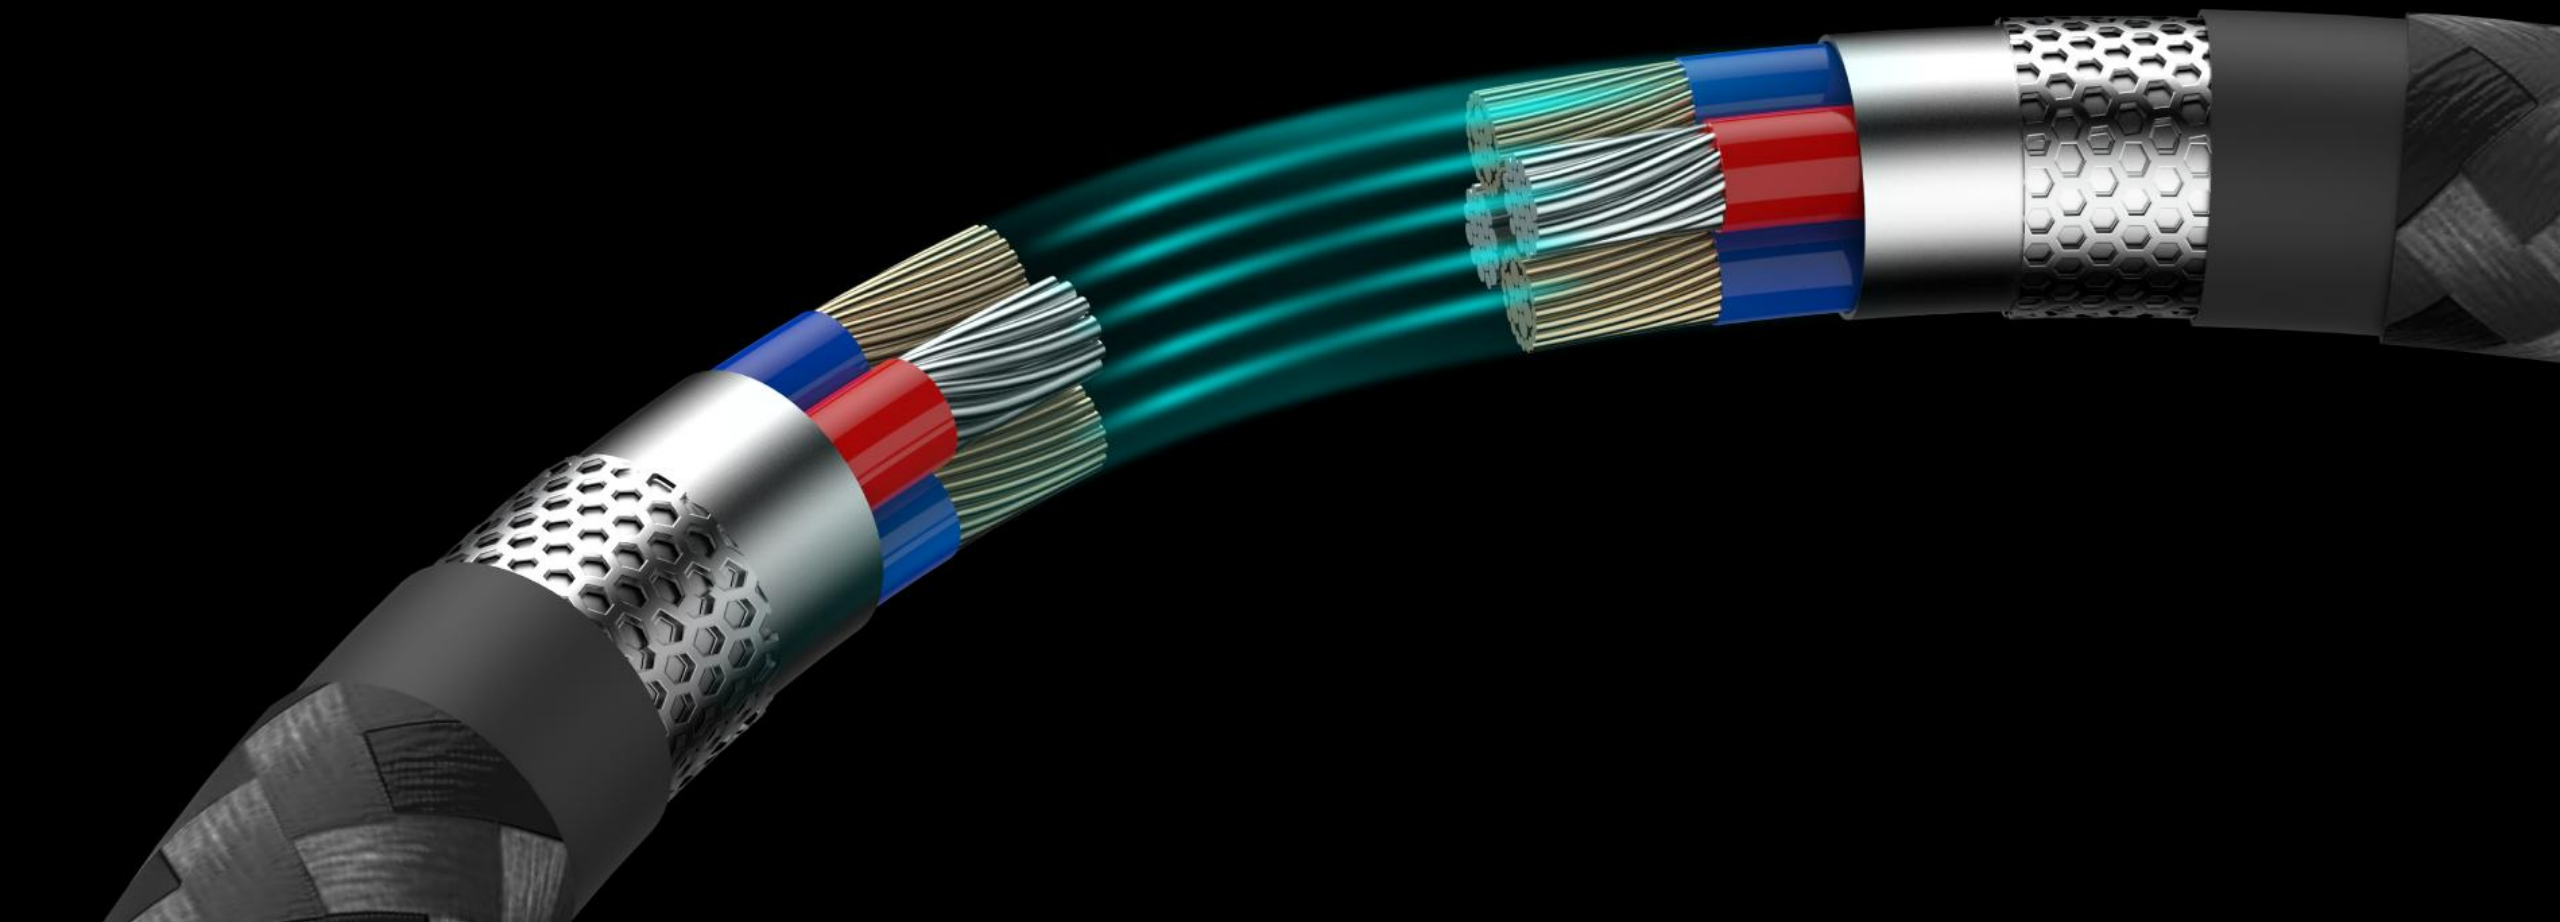
Hard-wearing Exterior

Made with tough, two-shade braided nylon for a cable that lasts longer and looks better than other cables.

Improved Durablity

Long Lifespan

A tough nylon exterior resists damage from the outside, while the cable's interior is precision-designed to handle thousands upon thousands of bends.



Secure Protection

Safe and Reliable

Durable shielding and premium 28/22-AWG wire cores ensure heat resistance and secure connection.

3 ATM Waterproof

Explore Without Limits

With a 3 ATM waterproof rating, the Watch GT can
accompany you as you track through the mountains in
a heavy rain. It can also join you in swimming training at the pool.
No need to take it off frequently,
you can start exercising at any time.

6-Star GPS Tracking

Complete Tracking in Your Control

Simply choose an outdoor sport (e.g., cycling, hiking, climbing) to automatically track your route and key metrics, helping you stay on top of your data without the need for a phone. It also supports the track-back function for easy navigation back.

*Discover all sports modes on the oraimo health app.

Built in Barometer & Compass

Essential for Outdoor Adventures

The Watch GT tracks altitude changes in real-time and provides precise directional data, always guiding you in the right direction and keeping you aware of your surroundings, whether you're scaling heights or navigating vast landscapes.

Heart Rate & Blood Oxygen Monitor

Real-Time Health Insights

Track your daily health with Watch GT, including activities, heart rate, and blood oxygen levels. Gain a comprehensive insight into your well-being,with smart alerts for abnormal data,helping you make healthier choices.

Unique Metal Body

Style That Changes with You

The Watch GT features a sports-inspired personalized metal body, paired with three interchangeable straps that easily adapt to different occasions or styles. Whether at the gym or the mall, it showcases your individuality and taste.

Sportsman (silicone)

Commander (leather)

Explorer (hybrid nylon-silicone)

140+ Sport Mode

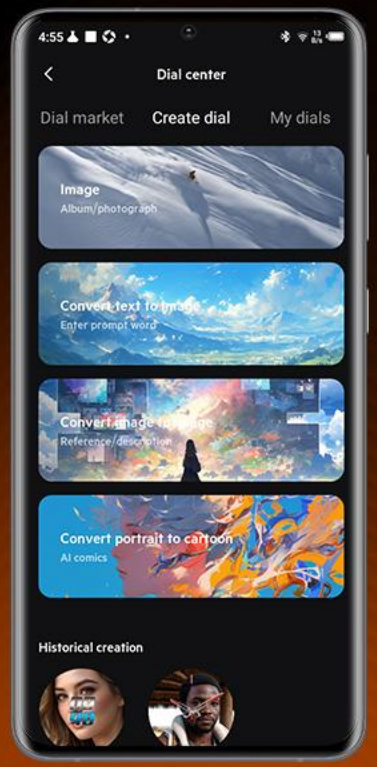
Meet Your Fitness Needs

With over 140 sports modes, including marathon, football, golf, and your favorite activities, it tracks every movement accurately, professionally records your workout data, and helps you challenge yourself to break through limits.

AI-Generated Watch Faces

Customizable Style, Infinite Options

The AI-generated watch face feature offers a variety of fresh, personalized dynamic designs. Through the oraimo health app, you can choose from over 120 watch faces to showcase your unique style. The app also syncs and displays your fitness and health data, allowing you to easily track your daily workout progress.



Download on the App Store

1.39" TFT screen redefines clarity and delivers a brighter, more vivid viewing and smooth operating experience.

120+ Sport Modes

Customize Your Exercise Goals

oraimo Watch 2R supports 120+ sports modes, meeting your diverse exercise needs. By monitoring your exercise status, you can adjust your goals more effectively. You can control music and media playing on your phone with your watch during training sessions as well.

120+

BT Calling

Stay Connected on the Go

Take, make, and reject calls directly from your wrist with ease anytime anywhere. The HD audio quality ensures that every conversation is clear and natural, making it feel like you're talking face-to-face. The chip BT ensures fast, stable connections and low power consumption.

SMS Quick Reply and More

Smart Communication at Simple Taps

At one tap, a quick reply with a customized message will be sent when you hang up an incoming call.
oraimo Watch 2R also enables quick callback and allows to add up to 100 contacts.

Up to 100 Contacts

Quick Callback

SMS Quick Reply(for Android users only)

SOS Emergency

Send Quick Alerts at Triple Clicks

In case of emergency, you can quickly call an emergency contact by triple-clicking the side button.

Reminders for Daily Health & Wellness

Develop Healthy Habits

Set up a health goal to help yourself form a good habit. For example, by setting a sedentary reminder, the watch will vibrate regularly to remind you to exercise after sitting for long periods.

Useful Gadgets

Your Sweet Personal Assistant

Tap the dial to enjoy convenient functions such as remote control photography, setting alarm prompts, stopwatch timing, checking the weather, finding a phone, calculator, and more.

24-hour Health Monitoring

Wellness Tracker -oraimo Health App

oraimo Watch 2R supports Heart rate, Blood oxygen saturation, Sleep, and Breathing exercise self-monitoring. Download the oraimo Health app for around-the-clock health and well-being tracking.

7-day Battery Life

Long-lasting Watch for Everyday Use

oraimo Watch 2R with long battery life ensures that you can relax and enjoy your adventure as your heart desires. The battery can hold up to 7 days on a full charge and 24 hours on a 10-minute charge.

*7-day battery life for typical usage, 5-day for heavy usage

IP68 Dust & Water Resistance

Explore the Outdoors Without Limits

An IP68 rating allows this watch to withstand rain and dust. Well-performing in various scenarios such as on the beach, desert, and in water sports, the watch is the ultimate accessory for a fitness enthusiast or an adventurous alike.

Ultra-soft Watch Strap and 150+ Watch Faces

For Your Comfort and Fit Your Style

The watch is equipped with a 22mm ultra-soft and detachable silicone strap. Besides, the oraimo Health app offers more than 150 types of watch faces, which can also be customized to display a unique photo from your album.

Blood oxygen
The wearable device can intelligently measure your oxygen saturation level in a resting state every day. Oximetry monitoring requires you to be in a resting state. When you are detected to be in movement, the device will cease measurement and display null results.
Data source
All data comes from wearable devices, excluding activity data recorded by mobile phones. If you do not wear the watch on a day, the watch will not be able to obtain your activity data, and the "Daily activity" record will be empty.

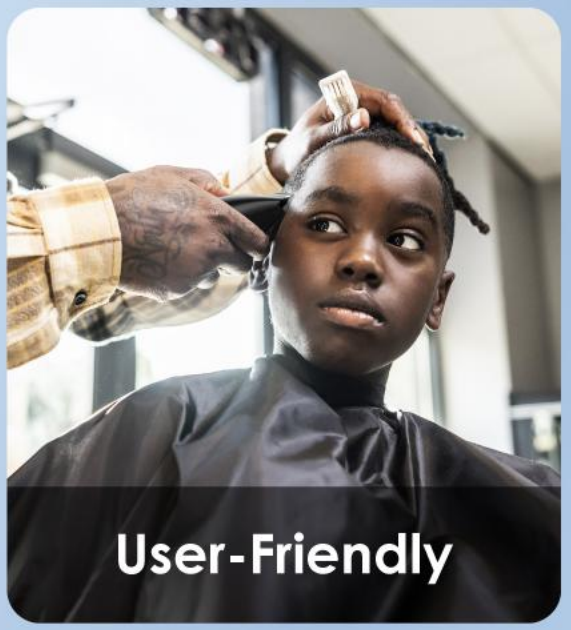
Powerful Rotary Motor



User-Friendly

Ergonomic Handle

Type-C Charging Port & Long-lasting Battery

Adjustable Blades

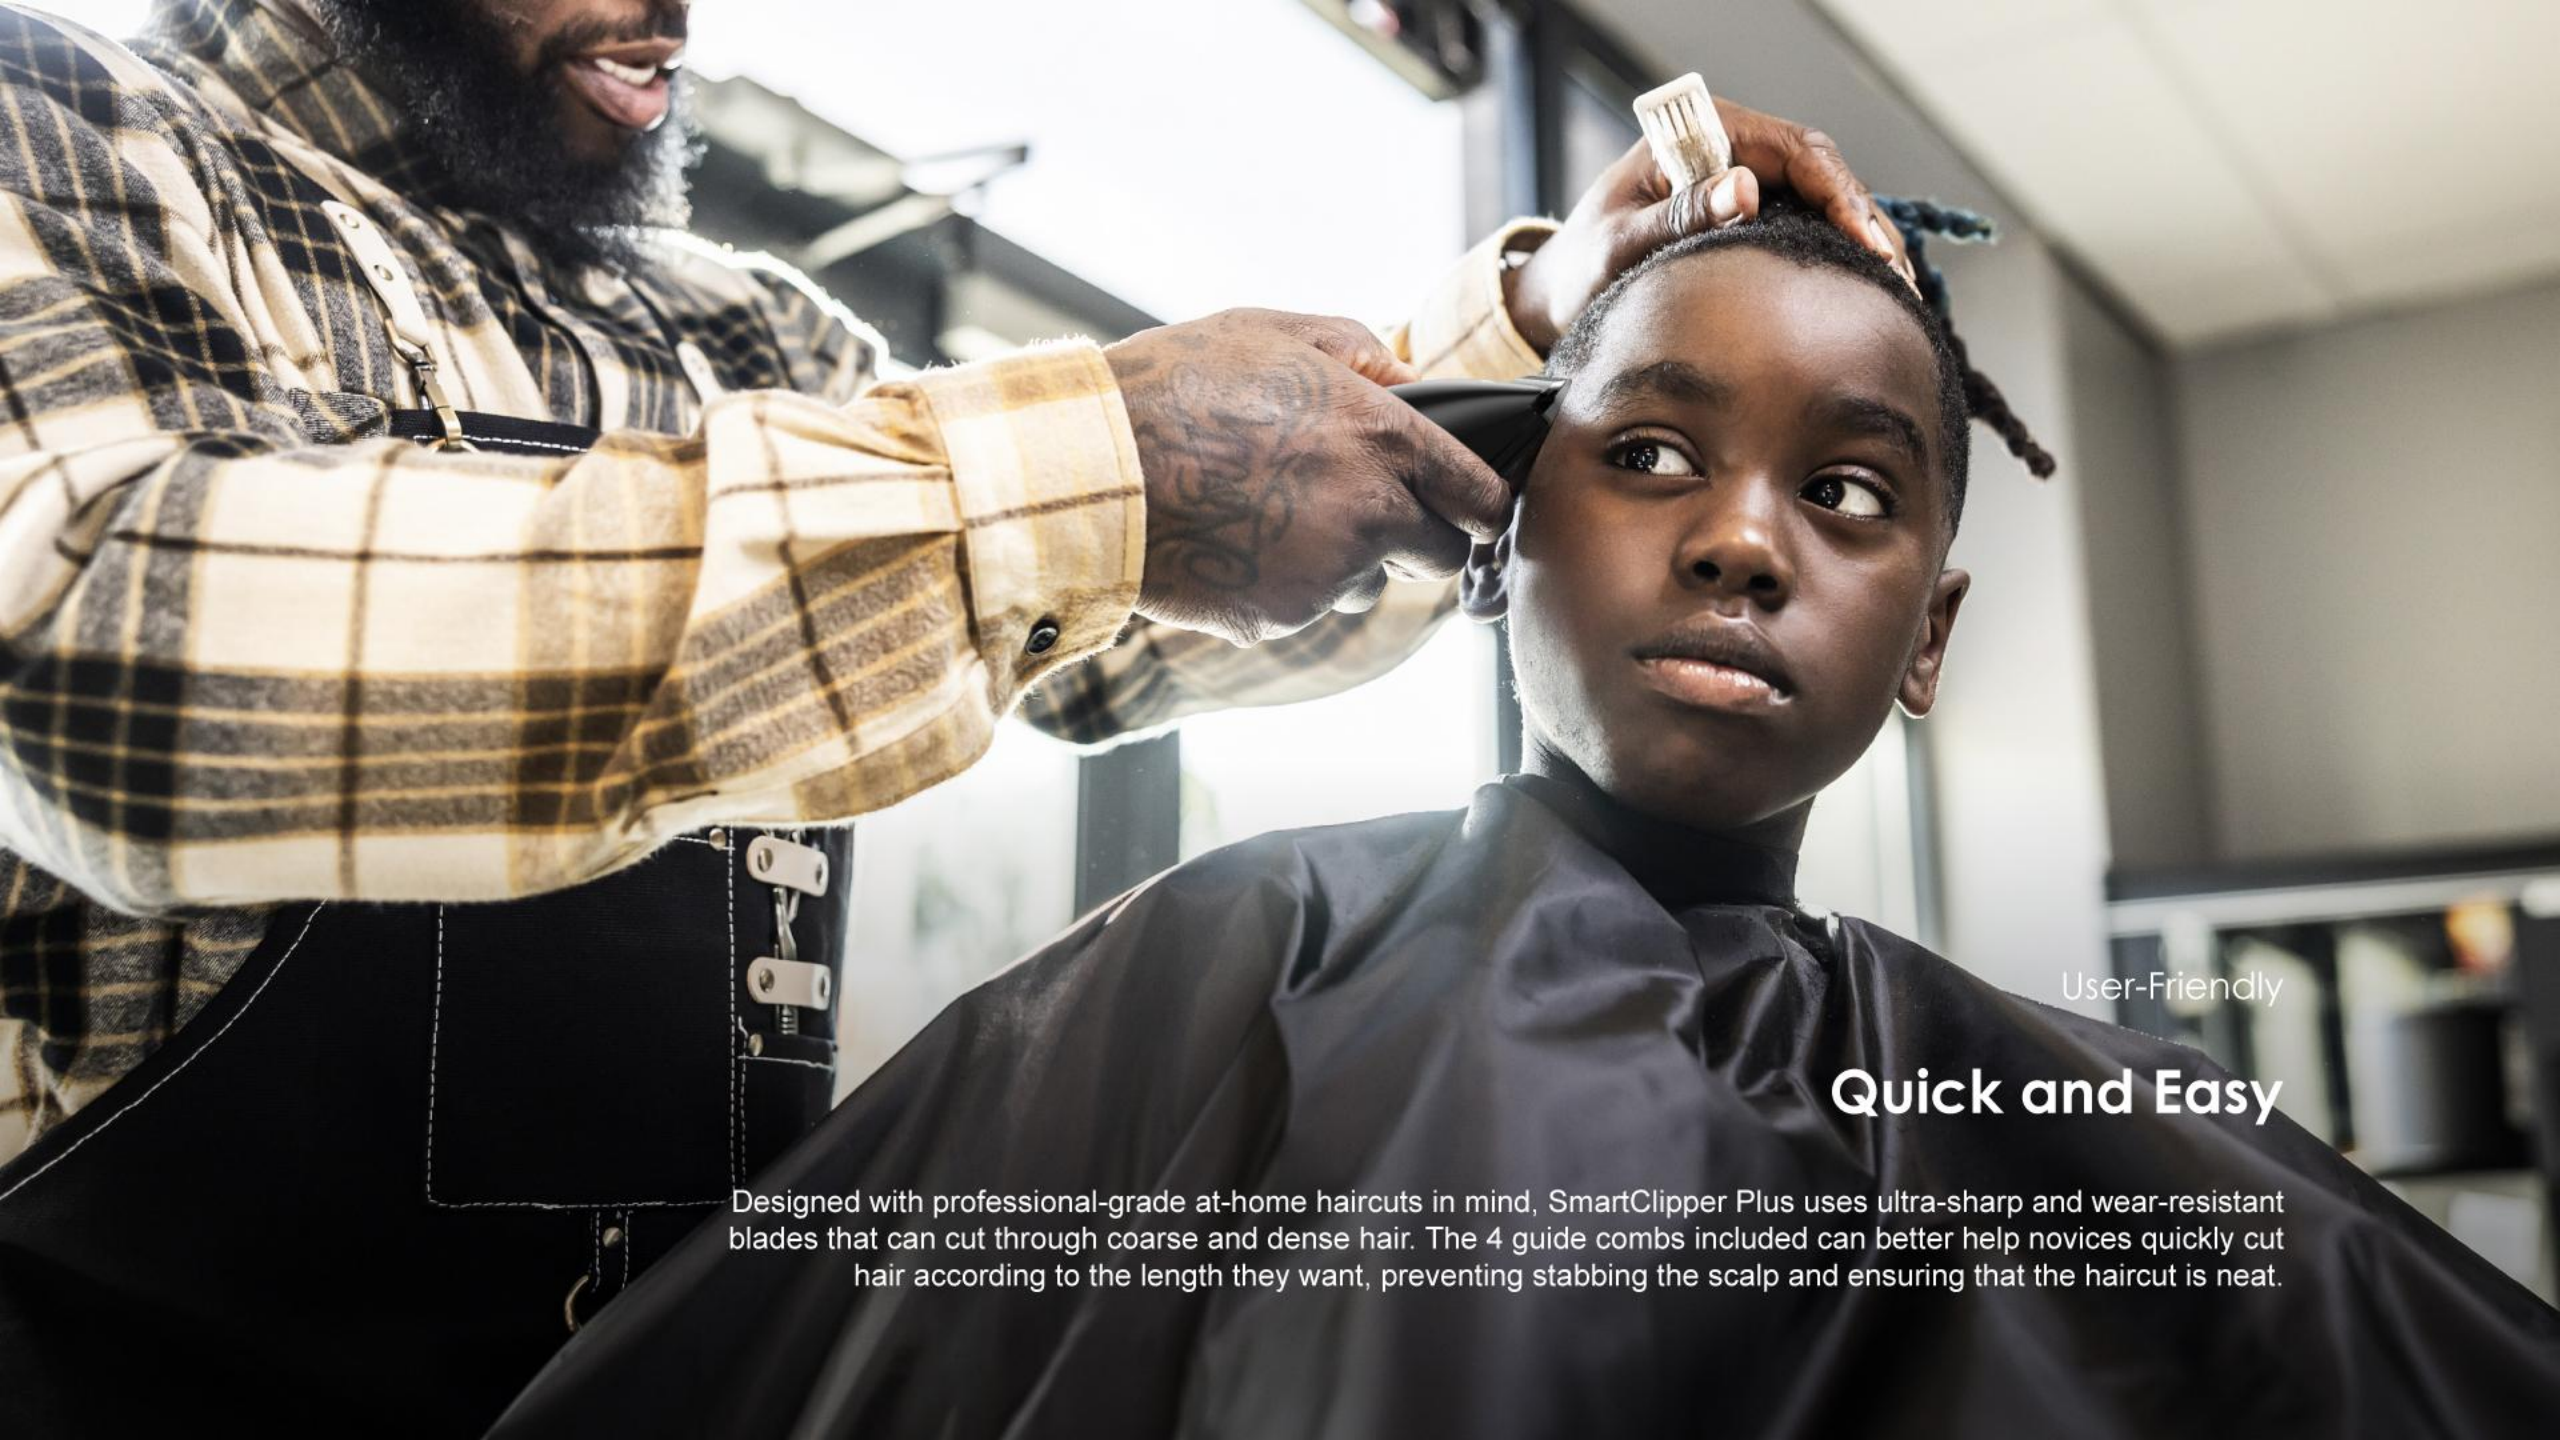
4 Guide Combs

Powerful Rotary Motor

Strong Shear Force

The powerful motor supports effective removal, catching and shaving more hair at once and saves you more time. Its maximum rotary speed (Turbo Mode) reaches 6000 RPM, delivering maximum power when working with coarse and dense hair.

T TURBO Turbo Mode



User-Friendly

Quick and Easy

Designed with professional-grade at-home haircuts in mind, SmartClipper Plus uses ultra-sharp and wear-resistant blades that can cut through coarse and dense hair. The 4 guide combs included can better help novices quickly cut hair according to the length they want, preventing stabbing the scalp and ensuring that the haircut is neat.

Type-C Charging Port

Universal Charging & Long-lasting Battery

This salon-quality smart clipper contains a long-lasting lithium-ion battery that lasts for at least two hours on a full charge. The Type-C charging port supports both double-sided insertion of the USB interface and fast charging.

Adjustable Blades

Meeting Diverse Hair-cutting Needs

You can easily control the length of the haircut by turning the knob at the bottom as well as using the 4 guide combs in different sizes to achieve a precise cut according to your needs.

3mm 6mm 9mm 12mm

Ergonomic Handle

Comfort Ergo Grip

Simple and elegant, oraimo SmartClipper Plus adopts a special cylindrical design.
Its ergonomic grip area enables different and comfortable grip positions.

IDEAL TOOL KIT FOR PROFESSIONAL BARBER

Durable Metal All Round Casing | Super Powerful Motor
Self-sharpening Blades | Multiple Grooming Attachments
Up to 240-minute Run Time

SmartBarberkit | OCS-550 |

Ideal Tool Kit for Professional Barber

Perfect Duo in Salon

Cut hair at any length and trim precisely with the SmartBarberkit. It is the perfect tool for experienced barbers who appreciate superior sharp blades and a long-lasting battery.

Metal All-round Casing

Sleek, Strong, and Durable

Metal all-round casing is ideally suited for long-term use in barber shops.
Its ergonomic design ensures a comfortable use experience.
This tool will be a valuable and timeless addition to your barber's kit.

Super Powerful Motor

Cut Hair in An Instant

The powerful rotary motor can maintain a steady and fast cutting speed to meet thick hair cutting needs. By eliminating tangling and tugging, you can cut both dry and wet hair simultaneously.

Self-sharpening Blades

Staying Sharp for A Long Time

With stainless steel blades, you can achieve superior sharpness and durability by having them automatically sharpen themselves. Besides, the blades are specifically designed to gently cut the skin while cutting to avoid injury.

Multi-functional Usage

Versatile for Both Clipping and Trimming

This Hair Cutting Kit & Trimmer Combo empowers professional barbers' precision hair cutting.
With 14 comb attachments, you have a wide range of options with seamless accuracy.

AniFast™ Technology

Say Goodbye to Frequent Charging

AniFast™ intelligently delivers the speediest possible charge. SmartClipper Pro offers up to 240-minute using time after an 1.5-hour fully charged. There is an indicator on the screen to show the remaining battery.

CLEANER SHAVE, FEEL THE SMOOTHNESS

Dual Ultra-thin Razor Net | 3D Floating Razor Heads
Long Life Li-ion Battery | Pop-up Trimmer
One-touch Open | IPX7 Water Resistance

Smart Shaver 2

OPC-RS20

Dual Ultra-thin Razor Net

Clean and Comfortable

Rounded blade caps shield 27 self-sharpening blades to gently cut hair just above skin level and help the shaver glide smoothly over your skin, giving you a closest shave without any residue.

3D Floating Razor Heads

Create Smooth Contact with Your Skin

With 4-direction floating heads, the 3D rotary shaver automatically reaches your face at the ideal angle and adjusts to the curves of the face, neck and even the jaw, and provides a comfortable and close shave everytime.

Pop-up Trimmer & One-touch Open

Easy to Use

With SmartShaver 2, you can trim and detail your beard and sideburns with double-blade pop-up trimmer, which opens with just one touch.

IPX7 Water Resistance

Easy to Clean

You can shave while taking a bath or a shower.
SmartShaver 2 can be cleaned and maintained more
readily because it can be washed directly under the sink.

Long Life Li-ion Battery

60 Minutes of Cordless Shaving

A powerful Lithium-ion battery gives you up to 60 minutes of cordless shaving on a one-hour charge. Do a quick charge for 5 minutes and you'll have enough power for one shave.

7D Floating Razor Heads,
Optimal Shaving Contact

7 Razor Heads in 360° Floating Shaving
Magnetic Double-ring Razor Net | IPX7 Waterproof
90-minute Runtime | 5-in-1 Grooming Kit

SmartShaver 7D

OPC-RS70

7 Razor Heads in 360° Floating Shaving

Perfect for Shaving Bald Head

The SmartShaver 7D makes it easy for you to shave your head at home. 7 razor heads can flexibly float at 360° and perfectly fit your head contours to easily remove hairs from every corner.

Double-ring Razor Net

Precise and Quick Shaving

The double-ring razor net design can increase the volume of hair entering to fasten the shaving speed. The razor nets and blades grind each other to get sharper when using, allowing you to precisely shave residual hair.

IPX7 Waterproof

Dry and Wet Shave

The all round case of the SmartShaver 7D has an IPX7 waterproof rating,allowing you to enjoy both refreshing dry shaving and comfortable wet shaving.

90-minute Runtime

Long Battery Life

It can be used wirelessly for 1.5 hours after fully charged. You can clearly see the remaining power capacity on the digital screen.

5-in-1 Grooming Kit

Fit All Your Daily Needs

Facial Cleanser:
Deep cleansing your face

Body Trimmer:
Trim body hair

Nose Trimmer:
Trim nose hair

Shaver:
Quick shave

Facial Massage Brush:
Relax facial muscles

Magnetic Razor Net

Easy to Clean

The razor net is magnetically attracted to the razor head, which can be easily disassembled, allowing you to clean directly after use.

SmartDent Pro
OPC-ET6

5 Brushing Modes &
3 Adjustable Speeds

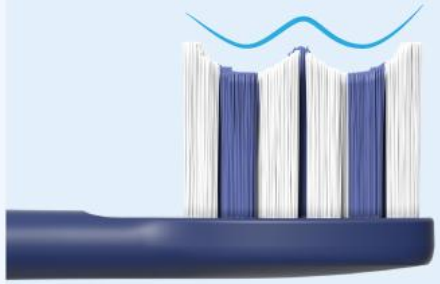
Powerful Ultrasonic Motor

Intelligently Brushing
Your Teeth

Wireless Charging

Long-lasting
Playtime

High Density
W-shape Bristle



Portable Case

Powerful Ultrasonic Motor

Give You Advanced Oral Cleaning

36000 high vibrations effectively clean teeth and plaque, especially good for an exceptional daily clean.

5 Brushing Modes & 3 Adjustable Speeds

Meet Your Various Oral Care Needs

Total of 15 modes to customize your teeth cleaning.

*Short press the button to adjust vibration speeds within 10s of powering on.

Clean
Remove the stain and plague effectively.

White
Deeply remove the stubborn stain and plague.

Polish
High frequency vibrations make teeth whiter and smoother.

Gum care
Massage and care for the gums.

Sensitive
Clean teeth gently, improving gums health and blood circulation.

Intelligently Brushing Your Teeth

30-second Brush Guide

SmartDent Pro will stutter or shake briefly every 30 seconds to let you know it's time to move to another area of teeth.

2-min Timer

2 minute timer guides you to brush for the recommended time in all areas of your mouth to ensure a complete clean.

Memory Mode

SmartDent Pro will remember the last brushing mode that user preferred for the next use.

Wireless Charging

Set and Charge

Upright charging keeps the brush head free from pollution, which is convenient and hygienic.

Long-lasting Playtime

One Charge for One Month

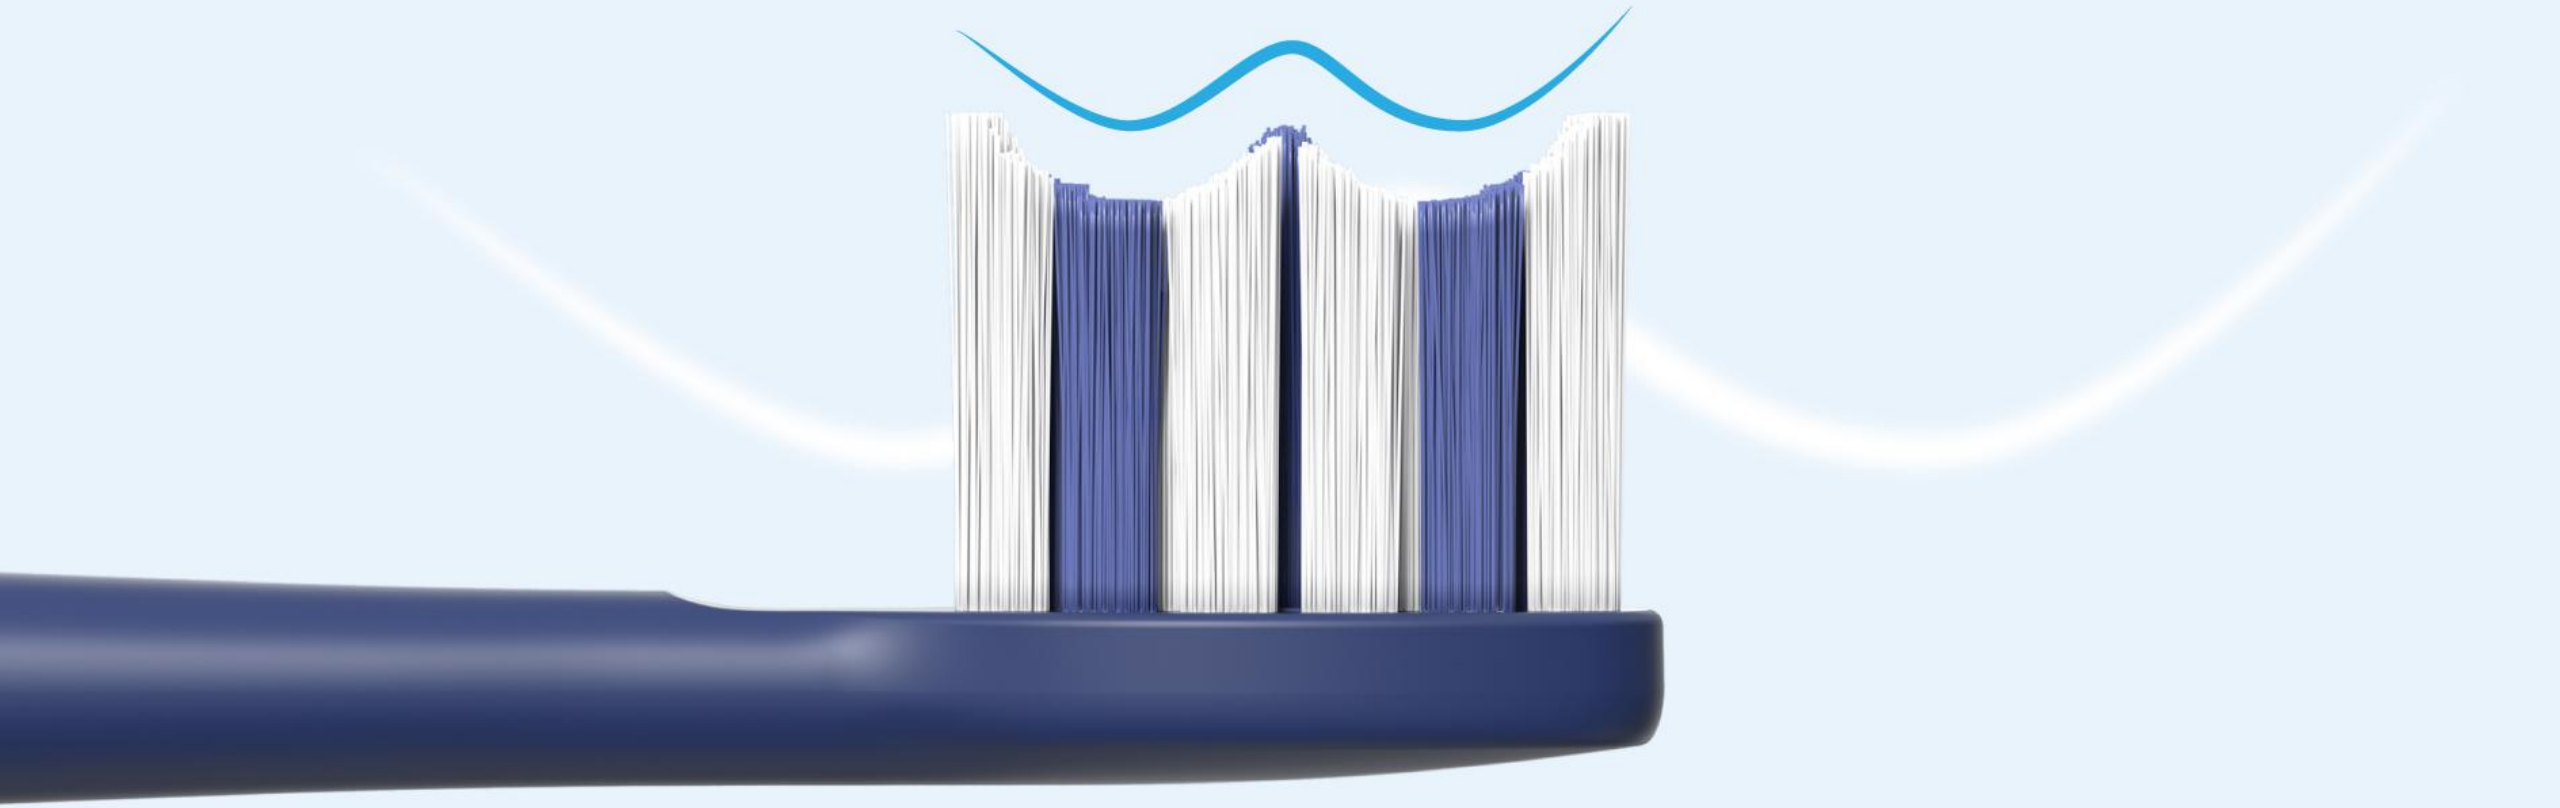
It has great battery life. Battery life lasts up to 30 days so you can go long periods without charging. When the remain battery can be only used for 3-5 times, the charging indicator will flash for 30 seconds to remind you to charge.

1 Charge = 30 Days

High Density W-shape Bristle

Remove Plague Roughly

The "W" shape fits the tooth shape and cleans the hard-to-reach areas thoroughly.



Portable Case

Portable and Hygienic

With attached case and extra replacement brush heads, you could take SmartDent Pro anywhere.

SmartKettle
OH-K20

Food-grade 304 Stainless Steel

Premium Quality, Drink Better Water

The interior of SmartKettle is made of integrated 304 stainless steel, which is food grade and free from BPA and other harmful substances. It makes the SmartKettle corrosion-resistant and not easy to rust, so cleaning the inner of the kettle is no longer a difficult problem. With SmartKettle, allowing you to drink safe, odor-free hot water.

Double-wall Design
Heat Insulation and Anti-scald
SmartKettle adopts a double-wall design. Even you accidentally touch the kettle body, you will not be burned by high temperature.
oraimo

1800W Quick Boil

Drink Boiled Water Quickly

The SmartKettle is capable of boiling water at 1800 watts, so you can drink boiled water in a short time, which shortens your waiting time.

Precise Temperature Control
Safer to Use
The SmartKettle provides more precise temperature control functions. When water gets boiled, the kettle will automatically stop boiling. When dry-burning is detected, the power will be automatically shut off to prevent accidents.
oraimo

1.7L Big Capacity

Meet Family's Water Drinking Needs

SmartKettle can boil around 8.5 cup of water at a time. You don't have to boil water frequently for making the whole family drinking the boiled water.

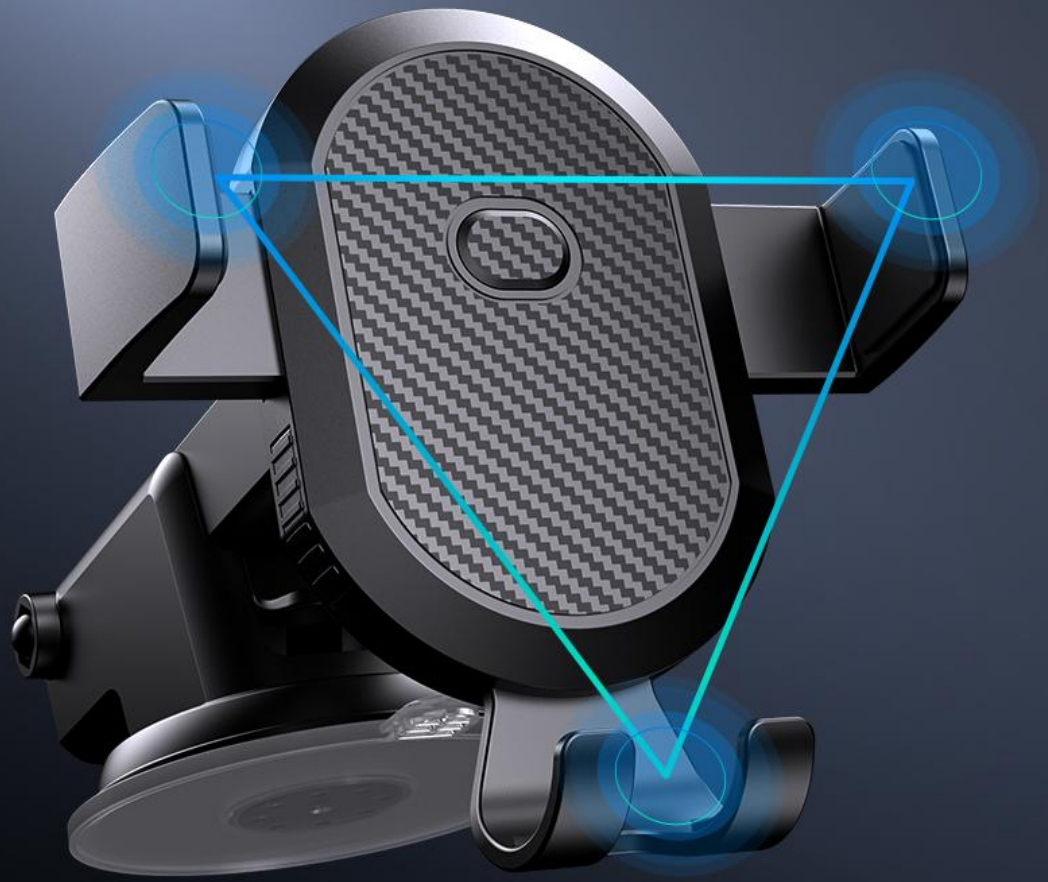
STABLE AND FLEXIBLE

Solid Grips | Nano Suction Cup
Multi-angle & Multi-length Adjustment
Wide Compatibility | One-hand Operation
Silicone Protection

OCM-12
HYDRA 3
CAR MOUNT



Solid Grips

Not Afraid of Bumps

Slightly press the two sides of the bracket to lock it, forming a triangular stable support. With its solid grips, you can confidently navigate through rough terrains.

Nano Suction Cup

Improved Super Suction

Nano suction cups adapting vacuum adsorption technology to tightly adhere to various surfaces. The suction cup is washable and can be reused after washing and drying.

* Simply press the pressure lock to exhaust the air inside the suction cup, allowing it to adhere more firmly.

Multi-angle & Multi-length Adjustment

Adjust As You Like

You can adjust the length of the pole and the angle of the phone placement to give you the most comfortable mobile phone experience.

360° Rotation

240° Front and Back Flip

10cm Telescopic Pole

Widely Compatible

Compatible with Phones of Various Sizes

Compatible with a wide range of mobile phone sizes, from 4.7 inches to 7.2 inches. The car mount can be used with or without a case for the phone.

One-hand Operation

Simple and Fast

It is more convenient to take out and place your phone in one hand. You can easily clamp and release your phone.

Silicone Protection
Protect Your Phone
An upgraded and thickened silicone sleeve is installed on bracket to increase stability and protect the mobile phone frame from wear and tear.

STRONG MAGNETIC HOLD, RELIABLE STABILITY

Ultra-Strong Magnetic System | Steel Hook Clip & Rotating Vent Base | 360° Rotation Design | Wide Phone Compatibility

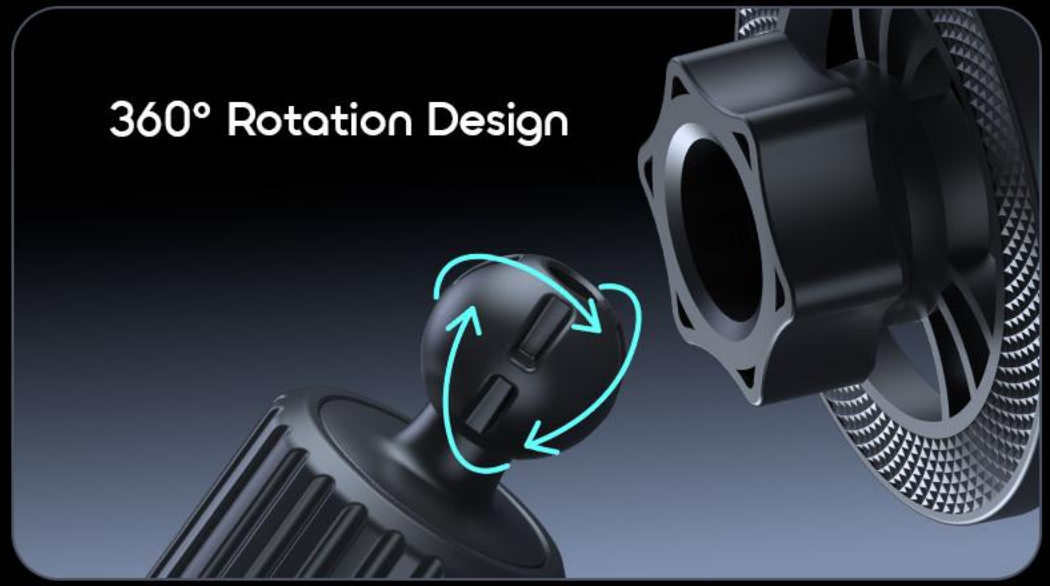
Hydra 8 | OCM-30

Ultra-Strong Magnetic System

Steel Hook Clip & Rotating Vent Base

Wide Phone Compatibility

360° Rotation Design



Ultra-Strong Magnetic System

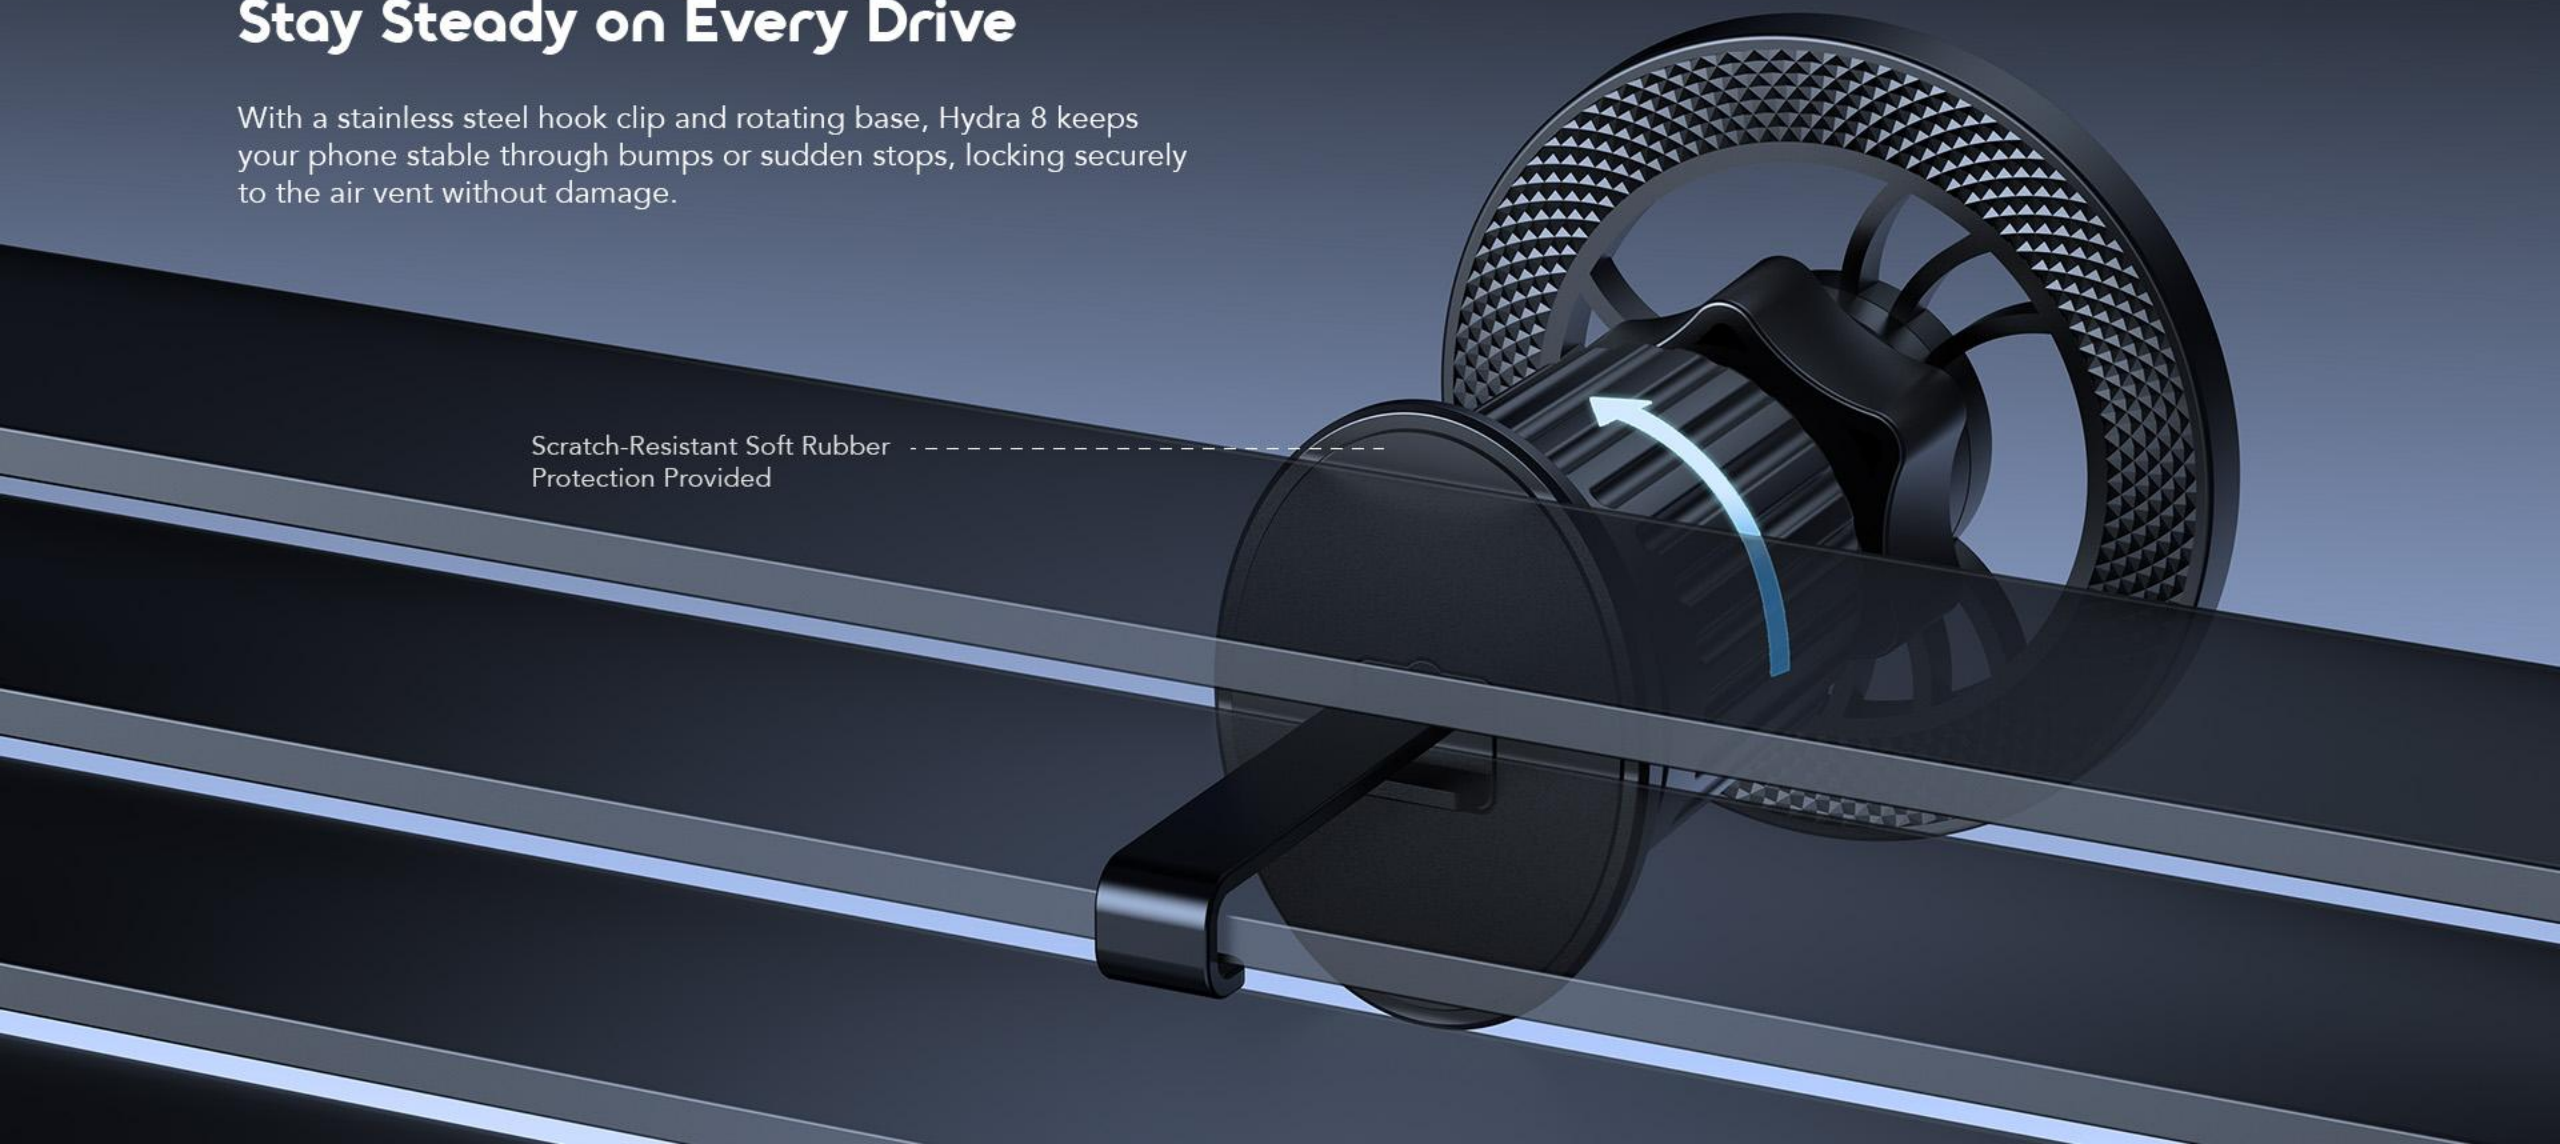
Magnetic Power, Effortless Control

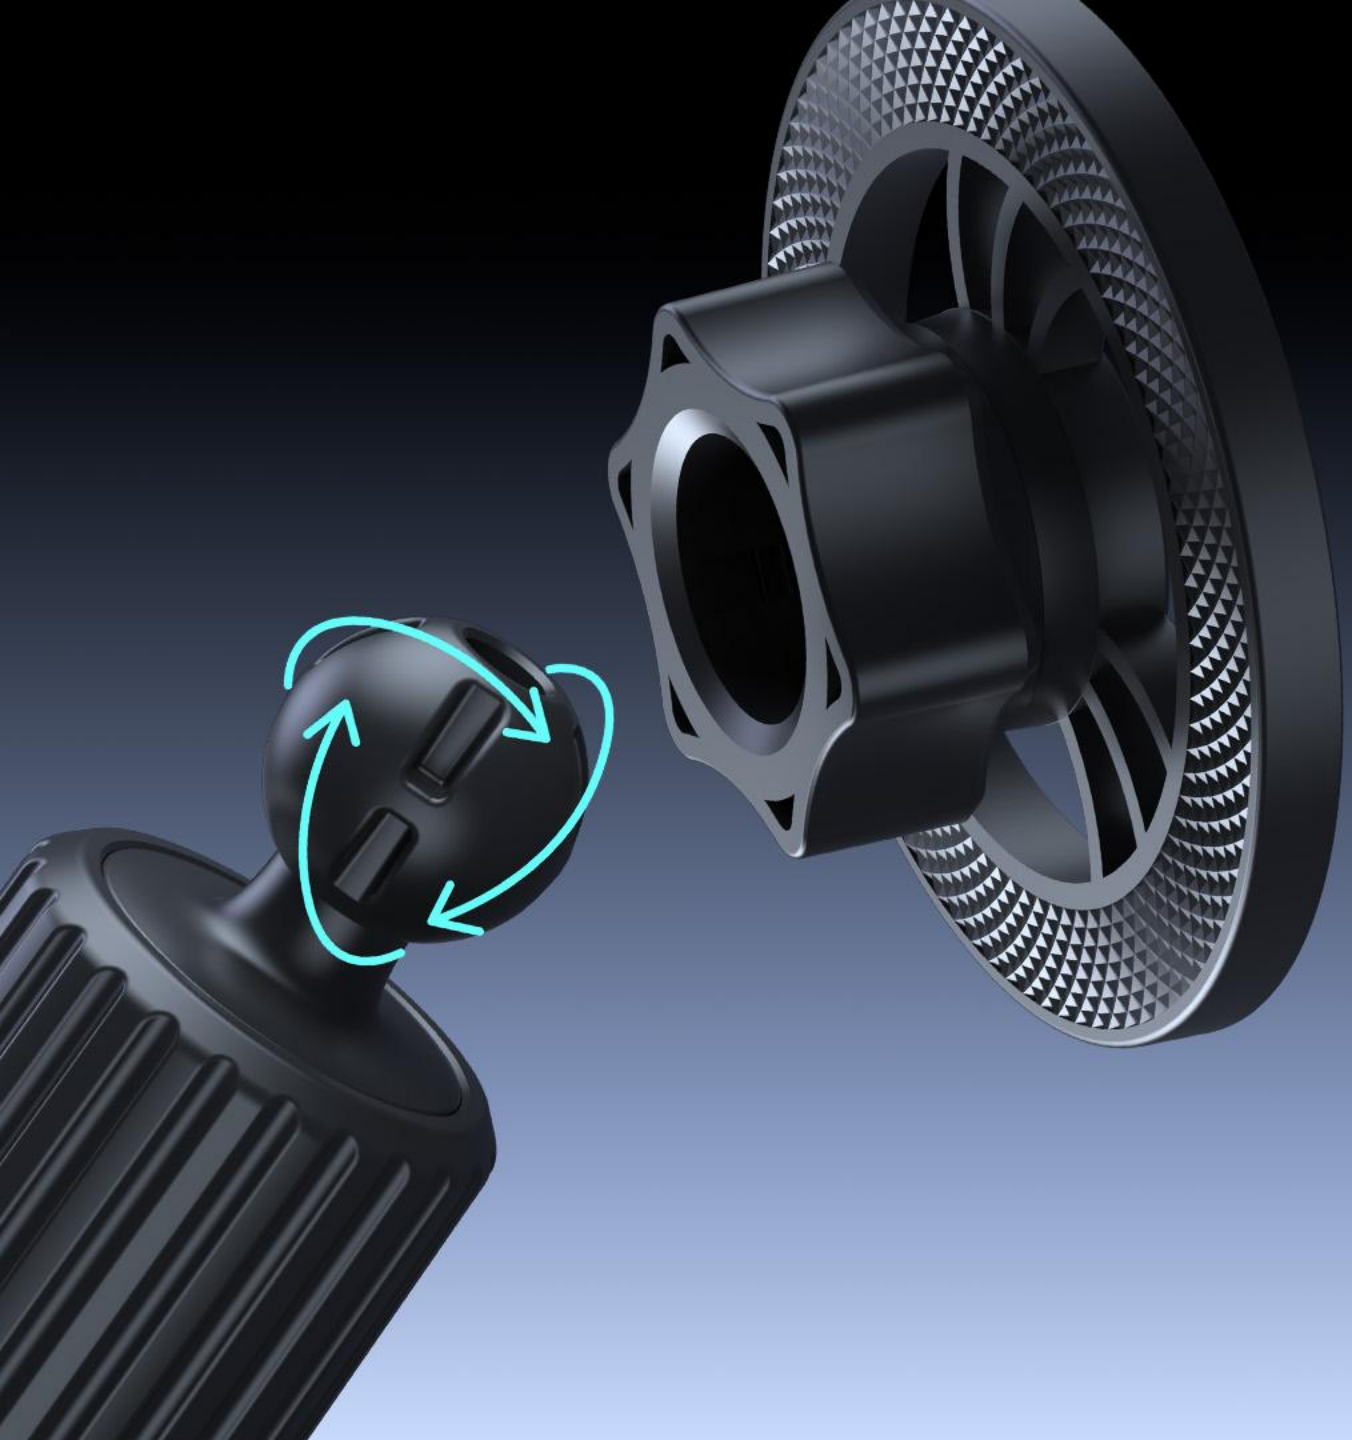
Built with powerful magnets and precise alignment, the mount automatically snaps your phone into place, keeping it stable even on rough roads for safer driving.

Steel Hook Clip & Rotating Vent Base

Stay Steady on Every Drive

With a stainless steel hook clip and rotating base, Hydra 8 keeps your phone stable through bumps or sudden stops, locking securely to the air vent without damage.





360° Rotation Design

Perfect View at Any Angle

The 360-degree rotatable ball joint allows smooth adjustment for both portrait and landscape viewing, making navigation, calls, and media control easier while driving.

Wide Phone Compatibility

Works Seamlessly with Most Phones

Designed to fit most smartphones, this magnetic car mount delivers reliable performance across different sizes and brands, making it ideal for everyday driving.
